

# FCP\_FCT\_AD-7.4최신버전인기시험자료, FCP\_FCT\_AD-7.4유효한시험덤프

2026 Itexamdump 최신 FCP\_FCT\_AD-7.4 PDF 버전 시험 문제집과 FCP\_FCT\_AD-7.4 시험 문제 및 답변 무료 공유:  
[https://drive.google.com/open?id=1\\_eiSCqMUgGC3Bc2pMX7VFXkgCKxMkpML](https://drive.google.com/open?id=1_eiSCqMUgGC3Bc2pMX7VFXkgCKxMkpML)

아무런 노력을 하지 않고 승진이나 연봉인상을 꿈꾸고 있는 분이라면 이 글을 검색해낼수 없었을것입니다. 승진이나 연봉인상을 꿈꾸면 승진과 연봉인상을 시켜주는 회사에 능력을 과시해야 합니다. IT인증시험은 국제적으로 승인해주는 자격증을 취득하는 시험입니다. Itexamdump의Fortinet인증 FCP\_FCT\_AD-7.4덤프의 도움으로 Fortinet인증 FCP\_FCT\_AD-7.4시험을 패스하여 자격증을 취득하면 승진이나 연봉인상의 꿈이 이루어집니다. 결코 꿈은 이루어 질것입니다.

## Fortinet FCP\_FCT\_AD-7.4 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> <li>FortiClient provisioning and deployment: This section focuses on deploying FortiClient to endpoint devices, creating and assigning endpoint profiles, and implementing endpoint security features to enforce protection and compliance.</li> </ul>
주제 2	<ul style="list-style-type: none"> <li>Troubleshooting: This section covers analyzing logs and diagnostic information to identify issues with EMS and endpoints, and resolving common deployment, connectivity, and configuration problems.</li> </ul>
주제 3	<ul style="list-style-type: none"> <li>Zero trust and Security Fabric integration: This domain explains how to integrate EMS with the Fortinet Security Fabric, configure quarantine for compromised endpoints, and implement zero trust network access to control and secure endpoint connectivity.</li> </ul>
주제 4	<ul style="list-style-type: none"> <li>FortiClient EMS design and deployment: This domain covers the architecture, core components, and deployment modes of FortiClient EMS. It also includes installing and configuring the server to ensure proper setup and initial system operation.</li> </ul>

## FCP\_FCT\_AD-7.4유효한 시험덤프 & FCP\_FCT\_AD-7.4최고품질 시험대비자료

자기한테 딱 맞는 시험준비공부자료 마련은 아주 중요한 것입니다. Itexamdump는 FCP\_FCT\_AD-7.4업계에 많이 알려져있는 덤프제공 사이트입니다. Itexamdump덤프자료가 여러분의 시험준비자료로 부족한 부분이 있는지는 구매 사이트에서 무료샘플을 다운로드하여 덤프의일부분 문제를 우선 체험해보시면 됩니다. Itexamdump에서 FCP\_FCT\_AD-7.4제공해드리는 퍼펙트한 덤프는 여러분이 한방에 시험에서 통과하도록 최선을 다해 도와드립니다.

## 최신 Fortinet Network Security Expert FCP\_FCT\_AD-7.4 무료 샘플문제 (Q61-Q66):

### 질문 # 61

An administrator has lost web access to the FortiClient EMS console, and the web page to access to the console is timing out. How can the administrator gather information to investigate the issue? (Choose one answer)

- A. Download the webserver logs from the PostgreSQL server.
- **B. Use the CLI diagnostic tool on the EMS server.**
- C. Download the log generator from the support site and run it on the EMS server.
- D. Use the diagnostic logs option from the FortiClient EMS GUI.

정답: B

### 설명:

According to the FortiClient EMS Administrator Study Guide and official Technical Tips from Fortinet, when the web console is inaccessible (e.g., timing out), the administrator must use tools available directly on the server's operating system (CLI) to gather diagnostic information.

1. Why the CLI Diagnostic Tool (Answer A) is the Correct Choice:

\* Availability during Outage: When the GUI is unreachable, the standard "Generate Diagnostic Logs" option within the EMS interface is also unavailable.

\* Windows-based EMS: The administrator can manually run the EMS Diagnostic Tool.exe located at C:

\Program Files (x86)\Fortinet\FortiClientEMS\ . This tool collects server information, Windows events, and EMS-specific logs into a compressed file for investigation.

\* Linux-based EMS (v7.4+): For newer versions running on Linux, the administrator can use the CLI command: `sudo /opt/forticlientems/bin/diagnostic_tool -o /tmp/diag` to generate a diagnostic package.

\* Service Verification: The CLI also allows administrators to verify if critical services (like fcems, apache2, or postgres) are running or if remote access has been disabled using the `emscli` utility.

2. Why Other Options are Incorrect:

\* B. Download webserver logs from PostgreSQL: PostgreSQL is the database engine for EMS, not the web server. While database logs are useful, they are not the primary method for gathering general "diagnostic information" and would typically be collected as part of the CLI diagnostic tool output rather than downloaded directly from the DB.

\* C. Diagnostic logs option from the GUI: This option is impossible to use if the administrator has lost web access and the page is timing out.

\* D. Download log generator from support site: While Fortinet provides various tools on their support site, the EMS Diagnostic Tool is natively installed with the FortiClient EMS software and is the primary, documented method for troubleshooting the EMS server itself.

### 질문 # 62

An administrator wants to simplify remote access without asking users to provide user credentials. Which access control method provides this solution?

- **A. ZTNA full mode**
- B. L2TP
- C. ZTNA IP/MAC filtering mode
- D. SSL VPN

정답: A

### 설명:

Simplifying Remote Access:

The administrator wants to simplify remote access without asking users to provide user credentials.

Evaluating Access Control Methods:

ZTNA full mode can provide seamless access by leveraging device identity and posture, eliminating the need for user credentials for each access request.

Other methods like SSL VPN and L2TP typically require user credentials.

Conclusion:

The correct access control method that provides this solution is ZTNA full mode.

**질문 # 63**

Which two third-party tools can an administrator use to deploy FortiClient? (Choose two.)

- A. QR code generator
- **B. C. Microsoft Active Directory GPO**
- **C. B. Microsoft SCCM**
- D. Microsoft Windows Installer

**정답: B,C**

**설명:**

Administrators can use several third-party tools to deploy FortiClient:

\* Microsoft SCCM (System Center Configuration Manager): SCCM is a robust tool used for deploying software across large numbers of Windows-based systems. It supports deployment of FortiClient through its software distribution capabilities.

\* Microsoft Active Directory GPO (Group Policy Object): GPOs are used to manage user and computer settings in an Active Directory environment. Administrators can deploy FortiClient to multiple machines using GPO software installation settings. These tools provide centralized and scalable methods for deploying FortiClient across numerous endpoints in an enterprise environment.

**질문 # 64**

Refer to the exhibit, which shows the output of the ZTNA traffic log on FortiGate.

The screenshot displays a 'Log Details' window with the following information:

General	
Absolute Date/Time	2021/11/25 08:59:18
Time	08:59:18
Duration	0s
Session ID	6308
Virtual Domain	root

  

Source	
IP	100.64.2.253
Source Port	49964
Country/Region	Reserved
Source Interface	port1
User	

  

Destination	
IP	100.64.1.10
Port	9443
Country/Region	Reserved

Destination Interface: root	
<b>Application Control</b>	
Application Name	
Category	unscanned
Risk	undefined
Protocol	6
Service	tcp/9443
<b>Data</b>	
Received Bytes	0 B
Received Packets	0
Sent Bytes	0 B
Sent Packets	0
Message	Denied: failed to match an API-gateway
<b>Action</b>	
Action	Deny: policy violation
Security Action	 Blocked
Policy ID	ZTNA-WAN (4)
Policy UUID	23f88b34-4e0b-51ec-0e83-dab1019c2d5c
Policy Type	Firewall

What can you conclude from the log message?

- A. The remote user connection does not match the ZTNA rule configuration.
- B. The remote user connection does not match the ZTNA firewall policy.
- C. The remote user connection does not match the local-in policy.
- D. The remote user connection does not match the ZTNA server configuration.

**정답: A**

**설명:**

Observation of ZTNA Traffic Log:

The log message indicates that the remote user connection was denied due to failure to match a proxy policy.

Evaluating Log Message:

The message suggests that the connection does not match the existing ZTNA rule configuration, leading to the denial.

Conclusion:

The correct conclusion from the log message is that the remote user connection does not match the ZTNA rule configuration (B).

**질문 # 65**

Refer to the exhibit. What is preventing FortiClient from registering with FortiClient EMS?

- A. FortiClient does not have an available license.
- **B. FortiClient is excluded from management.**
- C. FortiClient failed the certificate check.
- D. FortiClient is not running a supported version.

정답: B

설명:

The message "The endpoint is blocked from connecting to EMS" indicates that the FortiClient endpoint has been explicitly excluded from management on FortiClient EMS, preventing registration.

#### 질문 # 66

.....

IT인증시험은 국제적으로 인정받는 자격증을 취득하는 과정이라 난이도가 아주 높습니다. Fortinet인증 FCP\_FCT\_AD-7.4시험은 IT인증자격증을 취득하는 시험과목입니다. 어떻게 하면 난이도가 높아 도전할 자신이 없는 자격증을 한방에 취득할 수 있을까요? 그 답은 Itexamdump에서 찾을 수 있습니다. Itexamdump에서는 모든 IT인증 시험에 대비한 고품질 시험공부 가이드를 제공해드립니다. Itexamdump에서 연구제작한 Fortinet인증 FCP\_FCT\_AD-7.4덤프로 Fortinet인증 FCP\_FCT\_AD-7.4시험을 준비해보세요. 시험패스가 한결 편해집니다.
