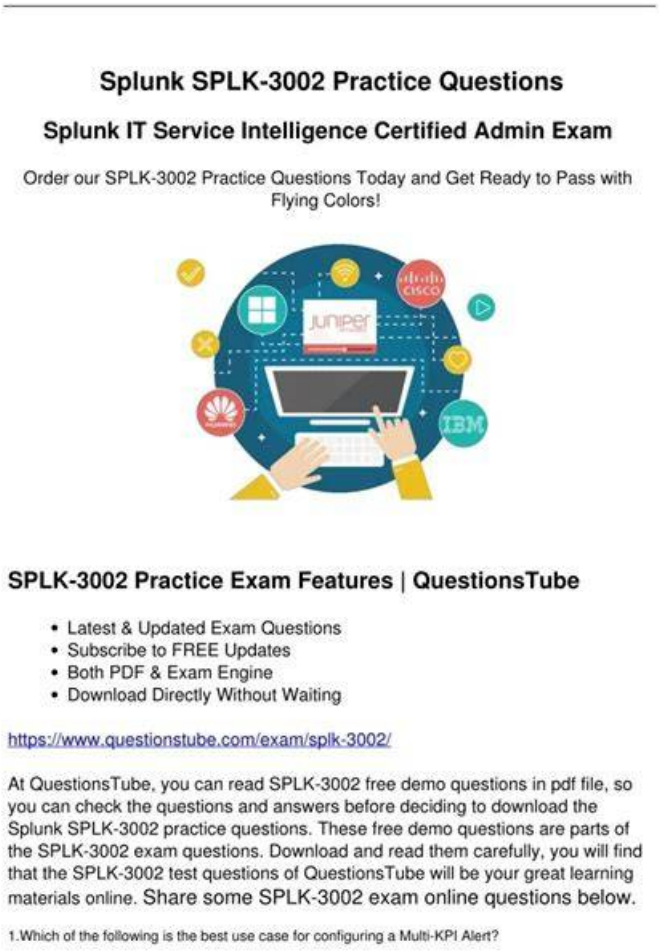
SPLK-3002 Simulationsfragen & SPLK-3002 Prüfungsfrage



2026 Die neuesten It-Pruefung SPLK-3002 PDF-Versionen Prüfungsfragen und SPLK-3002 Fragen und Antworten sind kostenlos verfügbar: https://drive.google.com/open?id=1hgUhdagtz-LN0MdeDJXlnRXAq-JeaomA

Einige Websites bieten auch die neuesten Lernmaterialien zur Splunk SPLK-3002 Prüfung im Internet. Aber sie haben keine zuverlässigen Garatie. Ich würde hier sagen, dass It-Pruefung einen Grundwert hat. Alle Splunk-Prüfungen sind sehr wichtig. Im Zeitalter der rasanten entwickelten Informationstechnologie ist It-Pruefung nur eine von den vielen. Warum wählen die meisten Menschen It-Pruefung? Dies liegt darin, die von It-Pruefung gebotenen Prüfungsfragen und Antworten wird Sie sicherlich in die Lage bringen, das Exam zu bestehen. wieso? Weil es die neuerlich aktualisierten Materialien bietet. Diese haben die Mehrheit der Kandidaten schon bewiesen.

Splunk SPLK-3002 Exam Syllabus Topics:

Section	Weight	Objectives
Topic 1: Service Discovery and Installation	8%	- Service Discovery installation - Service Discovery overview - Creating adaptive threshold templates
Topic 2: ITSI Administration	14%	- Managing services using deep dives - Backup and restore ITSI configuration - ITSI searches and scheduled searches - KPI base searches and aggregation

Topic 3: ITSI Service Design	18%	- Creating and configuring services - Service Health Score calculation - Service dependencies and dependencies view - Entity templates and filters
Topic 4: ITSI Overview and Concepts	8%	- ITSI key concepts and terminology - ITSI product overview - Entities and services
Topic 5: ITOA Administration	10%	- ITOA dashboard overview - Configuring ITOA
Topic 6: ITSI Analytics	12%	- Configuring aggregation policies - Glass Table thresholds - Notable Events and aggregation policies
Topic 7: Glass Tables	14%	- Configuring Glass Table elements - Creating Glass Tables - Entity Drilldown
Topic 8: Advanced Topics	16%	- ITSI content management - ITSI and Splunk Enterprise Security integration - Custom KPIs and calculations - Service-level availability reporting

Sie können so einfach wie möglich - SPLK-3002 bestehen!

Es ist ganz normal, vor der Prüfung Angst zu haben, besonders vor der schwierig Prüfung wie Splunk SPLK-3002. Wir wissen, dass allein mit der Ermutigung können Ihnen nicht selbstbewusst machen. Deshalb bieten wir die praktische Prüfungssoftware, um Ihnen zu helfen, Splunk SPLK-3002 zu bestehen. Sie können zuerst die Demo der Splunk SPLK-3002 gratis probieren. Wir glauben, dass Sie bestimmt unsere Bemühungen und Professionellsein von der Demo empfinden!

Splunk IT Service Intelligence Certified Admin SPLK-3002 Prüfungsfragen mit Lösungen (Q74-Q79):

74. Frage
Which of the following are deployment recommendations for ITSI? (Choose all that apply.)

- A. Deployments may increase the number of required indexers based on the number of KPI searches.
- B. Deployments should use fastest possible disk arrays for indexers.
- C. Deployments require a dedicated ITSI search head.
- D. Deployments often require an increase of hardware resources above base Splunk requirements.

Antwort: A,C,D

Begründung:
Explanation
You might need to increase the hardware specifications of your own Enterprise Security deployment above the minimum hardware requirements depending on your environment.
Install Splunk Enterprise Security on a dedicated search head or search head cluster.
The Splunk platform uses indexers to scale horizontally. The number of indexers required in an Enterprise Security deployment varies based on the data volume, data type, retention requirements, search type, and search concurrency.

75. Frage
Which of the following is a characteristic of notable event groups?

- A. Notable event groups are created in the itsi_tracked_alerts index.
- B. Notable event groups combine independent notable events.
- C. All of the above.

- D. Notable event groups allow users to adjust threshold settings.

Antwort: B

Begründung:
In Splunk IT Service Intelligence (ITSI), notable event groups are used to logically group related notable events, which enhances the manageability and analysis of events:
A).Notable event groups combine independent notable events:This characteristic allows for the aggregation of related events into a single group, making it easier for users to manage and investigate related issues. By grouping events, users can focus on the broader context of an issue rather than getting lost in the details of individual events.
While notable event groups play a critical role in organizing and managing events in ITSI, they do not inherently allow users to adjust threshold settings, which is typically handled at the KPI or service level.
Additionally, while notable event groups are utilized within the ITSI framework, the statement that they are created in the 'itsi_tracked_alerts' index might not fully capture the complexity of how event groups are managed and stored within the ITSI architecture.

76. Frage
Besides creating notable events, what are the default alert actions a correlation search can execute? (Choose all that apply.)

- A. Send email.
- B. Run a script.
- C. Ping a host.
- D. Include in RSS feed.

Antwort: A,B,D

Begründung:
Throttling applies to any correlation search alert type, including notable events and actions (RSS feed, email, run script, and ticketing).
Reference:
B, C, and D are correct answers because they are the default alert actions that a correlation search can execute besides creating notable events. You can configure a correlation search to send an email, include the results in an RSS feed, or run a custom script when the search matches a defined pattern. Ping a host is not a default alert action for correlation searches. Reference: Configure correlation search settings in ITSI

77. Frage
There are two departments using ITSI. Finance and Sales. Analysts in each department should not be allowed to see each other's services. What are the role configuration steps required to accomplish this?

- A. itoa_finance_admin, inherited from itoa_team_admin; itoa_sales_admin, inherited from itoa_team_admin; itoa_finance_analyst, inherited from itoa_analyst; itoa_sales_analyst, inherited from itoa_analyst.
- B. itoa_finance_admin, inherited from itoa_admin; itoa_sales_admin, inherited from itoa_team_admin; itoa_finance_analyst, inherited from itoa_team_analyst; itoa_sales_analyst, inherited from itoa_team_analyst.
- C. itoa_finance_admin, inherited from itoa_admin; itoa_sales_admin, inherited from itoa_team_admin; itoa_finance_analyst, inherited from itoa_analyst; itoa_sales_analyst, inherited from itoa_team_analyst.
- D. itoa_finance_admin, inherited from itoa_admin; itoa_sales_admin, inherited from itoa_team_admin; itoa_finance_analyst, inherited from itoa_analyst; itoa_sales_analyst, inherited from itoa_analyst.

Antwort: C

78. Frage
Which of the following are deployment recommendations for ITSI? (Choose all that apply.)

- A. Deployments may increase the number of required indexers based on the number of KPI searches.
- B. Deployments should use fastest possible disk arrays for indexers.
- C. Deployments require a dedicated ITSI search head.
- D. Deployments often require an increase of hardware resources above base Splunk requirements.

Antwort: A,C,D

Begründung:
You might need to increase the hardware specifications of your own Enterprise Security deployment above the minimum hardware requirements depending on your environment.
Install Splunk Enterprise Security on a dedicated search head or search head cluster.
The Splunk platform uses indexers to scale horizontally. The number of indexers required in an Enterprise Security deployment varies based on the data volume, data type, retention requirements, search type, and search concurrency.
Reference:
A, B, and C are correct answers because ITSI deployments often require more hardware resources than base Splunk requirements due to the high volume of data ingestion and processing. ITSI deployments also require a dedicated search head that runs the ITSI app and handles all ITSI-related searches and dashboards. ITSI deployments may also increase the number of required indexers based on the number and frequency of KPI searches, which can generate a large amount of summary data. Reference: ITSI deployment overview, ITSI deployment planning

79. Frage
.....

Wollen Sie Ihre IT-Fähigkeiten beweisen? Möchten Sie mehr Anerkennung und Berufschancen bekommen? Die Prüfungszertifizierung der Splunk SPLK-3002 ist ein bedeutendester Ausweis für Sie. Die Wichtigkeit der Zertifizierung der Splunk SPLK-3002 wissen fast alle Angestellte aus IT-Branche. Die Tatkraft von Menschen ist limitiert. Wenn Sie in einer kurzen Zeit diese wichtige Splunk SPLK-3002 Prüfung bestehen möchten, brauchen Sie unsere die Prüfungssoftware von uns It-Pruefung als Ihr bester Helfer für die Prüfungsvorbereitung. Umfassende Prüfungsaufgaben enthaltende und Mnemotechnik entsprechende Software kann Ihnen beim Erfolg der Splunk SPLK-3002 gut helfen!
