You can acquire a sense of the ISTQB-CTFL software by downloading a free trial version before deciding whether to buy it. This ISTQB ISTQB-CTFL practice exam software lets you identify your strengths and shortcomings, allowing you to concentrate on those aspects of your ISTQB Certified Tester Foundation Level (CTFL v4.0) (ISTQB-CTFL) test preparation that could use some work.

## ISTQB Certified Tester Foundation Level (CTFL v4.0) Sample Questions (Q135-Q140):

### NEW QUESTION # 135

Which of the following statements best describes an advantage of the whole team approach?

- A. It enables the team to share responsibility for quality and collaborate with stakeholders throughout the project.
- B. It fosters competition and individualism among team members to achieve higher performance.
- C. It allows the team to deliver software faster by skipping testing and documentation activities.
- D. It enables a better division of labor as the team shares a common workspace in one physical location.

**Answer: A**

### NEW QUESTION # 136

An organization is working on updating test cases for a particular module of their software. Sam updated a set of test cases yesterday and saved the new version on his PC.

Unfortunately, the hard disk of his PC crashed, and his work was lost.

The IT department of the organization restored the contents of his hard disk with the last available back-up - from the previous morning. However, the changes made by him yesterday were lost forever.

Which of the following tools had it been used, would have prevented the loss of Sam's updates?

- A. Configuration Management Tool
- B. Incident Management Tool
- C. Test Execution tool
- D. Backup tool

**Answer: A**

### NEW QUESTION # 137

The following diagram displays the logical dependencies between requirements and the individual requirement priorities. For example, "R2->R3" means that R3 is dependent on R2. Priority is indicated by the number next to the letter "P" i.e. P1 has a higher priority than P2.

Which one of the following options best describes the test execution sequence using both requirement dependency and priority

- A. R2, R1, R3, R4, R5, R6, R7, R8.
- B. R2, R4, R8, R5, R1, R6, R3, R7.
- C. R1, R2, R3, R4, R5, R6, R7, R8.
- D. R2, R1, R3, R7, R6, R5, R4, R8.

**Answer: D**

Explanation:

The correct test execution sequence should consider both the dependencies between the requirements and their priorities. According to the diagram, the sequence begins with R2 (P1) as it is a prerequisite for R3 (P4). Then R1 (P3) can be tested. R3 follows as it depends on R2. Next, R7 (P4) should be tested before R6 (P3) and R5 (P2), as indicated by their dependencies. Finally, R4 (P1) and R8 (P1) can be tested. Therefore, the best sequence is R2, R1, R3, R7, R6, R5, R4, R8. Reference: ISTQB CTFL Syllabus V4.0, Section 5.1.5

### NEW QUESTION # 138

Which of the following characterizations applies to a test tool used for the analysis of a developer's code prior to its execution?

- A. Tool support for static testing.

- B. Tool support for performance measurement and dynamic analysis.
- C. Tool support for test execution and logging.
- D. Tool support for test design and implementation.

**Answer: A**

Explanation:

A test tool used for the analysis of a developer's code prior to its execution falls under the category of static testing tools. Static testing involves examining the code and documentation without executing the code. These tools are used to perform static analysis, which helps in identifying potential defects and code quality issues early in the development process. The ISTQB CTFL syllabus specifies that static analysis tools are essential for finding defects that do not manifest themselves during the execution of the program.

### NEW QUESTION # 139

Which of the statements correctly describes when a whole team approach may NOT be suitable?

- A. When a test automation approach needs to be determined.
- B. When the team dynamics need to be improved.
- C. When acceptance tests need to be created.
- **D. When a high level of test independence may be required.**

**Answer: D**

### NEW QUESTION # 140

.....
