Pegasystems PEGACPBA24V1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Case Management: This domain targets Case Designers and Process Architects and explores designing a case lifecycle, including setting case statuses and adding instructions for tasks. Candidates demonstrate ability to configure service level agreements with urgency, goals, and deadlines, and manage routing of assignments to users, work groups, or queues. This section also includes configuring email correspondence, identifying duplicate cases, adding optional actions and automating workflow decisions using conditions. Candidates learn to pause and resume case processing, skip stages or processes, configure child cases, use automation shapes appropriately, and create and manage user teams.

Topic 2	<ul style="list-style-type: none"> • Security: Designed for Security Analysts and Access Managers, this domain covers the relationship between personas, operators, and access groups within Pega. Candidates articulate the difference between authorization and authentication and understand their applications.
Topic 3	<ul style="list-style-type: none"> • Pega Express: This section of the exam measures skills of Business Analysts and Delivery Managers and covers the benefits and best practices of the Pega Express delivery approach. Candidates learn about the Pega Express values and best practices framework, the process and advantages of Directly Capture Objectives (DCO), and understand the four phases of Pega Express delivery along with relevant terminology.
Topic 4	<ul style="list-style-type: none"> • User Experience: This domain assesses skills of UX Designers and Frontend Developers in configuring user interface elements. Candidates learn to group fields to create views, add or remove fields, configure portal content, adjust form appearance, visibility, and controls for an improved user experience.
Topic 5	<ul style="list-style-type: none"> • Application Development: This section evaluates skills of Pega Business Architects and Developers in application development. It covers the roles and skills of a Pega Business Architect, identification of project stakeholders, and benefits of Pega's Center-out™ business architecture. Candidates learn about App Studio's value, understand rules, rulesets, classes, and the role of generative AI. The domain also covers Pega's CI • CD pipeline with Deployment Manager, use of collaboration tools, managing application development with user stories, feedback, and bug tracking, and using tools like Case Type Backlog and Estimator for project scoping.
Topic 6	<ul style="list-style-type: none"> • Data and Integration: This section measures skills of Data Analysts and Integration Specialists focusing on configuring data objects, relationships, and records. Candidates learn to capture and present data through fields and views, create calculated values, validate data with business logic rules, manipulate application data including setting default property values, and configure data transforms.

Pegasystems Certified Pega Business Architect 24 Sample Questions (Q57-Q62):

NEW QUESTION # 57

Sales managers must be able to approve sales quote proposals by email and from a mobile device. How do you implement this requirement?

Response:

- A. Add an Approve/Reject step with mobile approval enabled and a Send Email step.
- B. Add an Approve/Reject step and a Send Email step.
- C. Add an Approve/Reject step and enable email notifications on the case type.
- D. Add an Approve/Reject step and enable email and mobile approval.

Answer: A

NEW QUESTION # 58

In a support application you have the requirement: An email notification should be sent within four hours of receipt of the support

issue. What in the service level should be set to four hours to meet this requirement?
(Choose One)

Response:

- A. Expired
- **B. Goal**
- C. Passed Deadline
- D. Deadline

Answer: B

NEW QUESTION # 59

A service level agreement describes the following behavior:

	Urgency Adjustment	Interval length	Limit
Start of service level	20		
Goal interval	10	8 hours	
Deadline interval	20	24 hours	
Passed Deadline interval	20	24 hours	3

The service level provides a four-hour initial delay. If the case urgency is set to 10 and the case reaches the assignment at 9 A.M. Monday. what is the assignment urgency at noon Wednesday? Response:

- **A. 0**
- B. 1
- C. 2
- D. 3

Answer: A

NEW QUESTION # 60

Consider this requirement for a business transaction:

- * If approved, the request is forwarded to the Fulfillment department
- * If the manager rejects the request, it is sent back to the employee for reconciliation or cancellation
- * The Fulfillment department will process the request if the requested items are in stock An employee submits a request to purchase equipment. The request is sent to the manager for review and approval.

Select the case life cycle design that most closely follows the guidelines for identifying and naming stages.

The image shows four options for case life cycle design, each with a 'Primary' stage and an 'Alternate' stage. Option A has stages: Primary, Place Order, Review Order, Fulfill Order, Reject Order. Option B has stages: Primary, Order Placed, Order Reviewed, Order Fulfilled, and an alternate 'Order Rejected' stage. Option C has stages: Primary, Place Order, Review Order, Fulfill Order. Option D has stages: Primary, New, Review, Fulfillment, and an alternate 'Rejected' stage.
