SAFe-Practitioner study dumps have a pass rate of 98% to 100% because of the high test hit rate. So our exam materials are not only effective but also useful. If our candidates have other things, time is also very valuable. It is very difficult to take time out to review the SAFe-Practitioner Exam. But if you use SAFe-Practitioner exam materials, you will learn very little time and have a high pass rate. Our SAFe-Practitioner study materials are worthy of your trust.

The SAFe 5 Practitioner (SP) certification exam is an essential certification for Agile practitioners who are interested in scaling Agile practices across an organization. SAFe Practitioner Exam (6.0) certification validates a candidate's knowledge and skills in implementing the Scaled Agile Framework (SAFe) in an organization. To be eligible for the certification exam, candidates must have experience working in an Agile environment and must have completed the SAFe 5 Practitioner course. SAFe-Practitioner Exam is a multiple-choice exam that can be taken online or in-person at a testing center.

SAFe-Practitioner Pass Guide, Guaranteed SAFe-Practitioner Questions Answers

With the development of the electronic equipment, there are a lot of changes in the designs of our SAFe-Practitioner pass-sure torrent. The most impressive version is the APP online version. Normally, it can be used on all kinds of digital devices. But it also has the special advantage that the online version can be used when you are not online. As long as you use it for the first time in a networked environment, you can use the online version of our SAFe-Practitioner learning guide from anywhere without network connection. I believe the online version of our SAFe-Practitioner exam questions will be a good choice for you.

One of the key benefits of achieving the SAFe 5 Practitioner certification is the recognition it provides. SAFe Practitioner Exam (6.0) certification is recognized globally and is highly valued by organizations that are looking to adopt Agile practices. Individuals who hold this certification are often sought after by organizations that are looking to build Agile teams and implement Agile methodologies.

Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q152-Q157):

NEW QUESTION # 152

Velocity is

- A. measurement for economic benefit
- B. average hours of work done by the team
- **C. the rate (in story points) at which the team delivers**
- D. business value delivered (monetary)

Answer: C

NEW QUESTION # 153

During Iteration Planning, the Scrum Master presents the stories in order of priority and answers clarifying questions

- A. TRUE
- **B. FALSE**

Answer: B

NEW QUESTION # 154

A research story, considered an exploration style Enabler is called

- A. smell
- **B. spike**
- C. slice
- D. stretch task

Answer: B

NEW QUESTION # 155

What is a quality of an Agile team?

- A. Each team has a Scrum Master/Team Coach and a Product Manager
- B. Composed of 10 to 20 members
- **C. Cross-functional**
- D. Managers direct their work

Answer: C

Explanation:

A quality of an Agile team is that it is cross-functional, meaning that it has all the skills and roles necessary to deliver value to the customer. A cross-functional team can work independently and collaboratively, without relying on external dependencies or handoffs. A cross-functional team can also adapt to changing requirements and feedback, and deliver work in small increments. NEW QUESTION # 156

What is the product vision?

- A. A method for aligning to the product direction
- B. A set of prioritized Features
- C. An explanation of the architectural runway needed to deliver products to the customer
- D. The user stories required to meet customer needs

Answer: A

Explanation:

The product vision is a description of the future state of the product or service under development. It reflects customer and stakeholder needs, as well as the features and capabilities proposed to meet those needs. The product vision is both aspirational and achievable, providing the broader context and purpose of the product or service. It describes the markets, customer segments, user needs, and how the product or service will be different from the competition. The product vision is owned by the product owner, but its development requires input from stakeholders and the scrum team(s). The product vision helps align the team to the product direction and motivates them to deliver value to the customers and stakeholders.
