## Salesforce Plat-Dev-210 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>Integrated Troubleshooting and Deployment: This final section measures the skills of a Support Engineer and focuses on identifying and resolving issues within Omnistudio tools. It involves diagnosing errors based on given scenarios and determining where breakdowns occur in the data flow for specific customer issues. This ensures the candidate can effectively troubleshoot, debug, and maintain solutions to ensure optimal performance and reliability.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Omnistudio Data Mappers: This part of the exam measures the skills of a Data Engineer and focuses on the use of Omnistudio Data Mappers for extracting, transforming, and loading data. It includes identifying the appropriate Data Mapper for a given requirement, as well as determining the necessary Extract, Load, Transform, and Turbo Extract functionalities based on specific use cases. This section ensures the candidate can effectively map and manipulate data to support business processes.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>OmniScripts: This portion of the exam measures the skills of a Business Analyst and focuses on the use of OmniScripts to create dynamic, guided user experiences. It includes comparing and contrasting various OmniScript elements and their configurations to fulfill given use cases. The section also examines the candidate's understanding of the JSON structure that supports OmniScripts, as well as the ability to select appropriate elements and properties to address functional requirements effectively.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Integration Procedures: This section measures the skills of an Integration Architect and involves designing and configuring Integration Procedures to automate processes and integrate systems. It requires comparing and contrasting different elements and configurations within Integration Procedures to meet specific use cases. Candidates are also tested on selecting the correct elements and properties to satisfy functional requirements, ensuring seamless data flow and process automation.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Flexcards: This section of the exam measures the skills of a Solution Architect and covers the ability to design and configure FlexCards based on specific business requirements. It evaluates the candidate's knowledge in selecting appropriate card styles, defining data sources and fields, and implementing user actions across different card states. Additionally, this domain tests the understanding of constructing the underlying JSON data structure that powers the FlexCards framework, ensuring that the configured cards meet both functional and technical specifications.</li> </ul>

## Salesforce Certified Omnistudio Developer Sample Questions (Q88-Q93):

### NEW QUESTION # 88

A developer examines data received from an external data source. The data is nested two levels down in the JSON structure. Which OmniStudio tool could the developer use to simplify this data?

- **A. A DataRaptor Transform**
- B. An integration Procedure
- C. A guided workflow
- D. An HTTP Action Element

**Answer: A**

Explanation:

A DataRaptor Transform can simplify nested data by transforming it into a flat structure. The developer can use JSON paths to map the input data to the output data and define the output structure.

### NEW QUESTION # 89

Which two fields in an Integration Procedure can use a function like CONCAT or DATEDIFF?  
Choose 2 answers

- **A. In a Response Action, in an Additional input value field.**
- **B. In a Remote Action, in an Additional Output value field.**
- C. In Procedure Configuration, in a Tracking Custom Data value field.
- D. In a Remote Action, in a Remote Options value field.

**Answer: A,B**

Explanation:

According to the Integration Procedure Actions page, a Remote Action can use a function in an Additional Output value field or in a Remote Options value field. According to the Response Actions page, a Response Action can use a function in an Additional Input value field.

#### NEW QUESTION # 90

A developer builds a new OmniScript. It contains a Set Values element with a ContextId key/value pair that was used during testing. What should the developer do before moving the OmniScript to a production org?

- **A. Delete or Deactivate the Set Values element.**
- B. Add a Show/Hide condition on the Set Values element.
- C. Update the ContextId value to specify an id from the Production org.
- D. Deactivate the contextId key/value pair

**Answer: A**

Explanation:

The Set Values element with a ContextId key/value pair was used for testing purposes and is not needed for production. The developer should delete or deactivate the Set Values element before moving the OmniScript to a production org.

#### NEW QUESTION # 91

..... configure Additional input to send exactly the same data? Assume that the developer checked Send Only Additional input.

☐

- A. ☐
- **B. ☐**
- C. ☐
- D. ☐

**Answer: B**

Explanation:

Option D is the correct way to configure Additional input to send exactly the same data as Input Data. The Additional input should have the same key/value pairs as Input Data, and the value should be set to `{{InputData.key}}` for each key. This will pass the value of Input Data for each key to Additional input.

#### NEW QUESTION # 92

The OmniScript must retrieve device details stored in the Asset object and then call an external system to send troubleshooting commands via REST API to the device.

Which two OmniScript elements should the developer use to configure this functionality?

- **A. HTTP Action**
- B. Navigation Action
- C. REST API Action
- **D. DataRaptor Extract Action**
- E. SOQL Action

**Answer: A,D**

Explanation:

According to the OmniScript Action Elements page, a DataRaptor Extract Action can be used to "get data from one or more Salesforce records" and an HTTP Action can be used to "get, save, or delete data through a web application programming interface (API)".

#### NEW QUESTION # 93

So many people give up the chance of obtaining a certificate because of the difficulty of the Plat-Dev-210 exam. But now with our Plat-Dev-210 materials, passing the exam has never been so fast or easy.
