Free PDF Quiz Authoritative AI-900 - Microsoft Azure AI Fundamentals Braindumps Torrent

Our Microsoft AI-900 latest exam preparation is valid. If you are interested in taking part in exams, you purchase our products now. Do not worry about the period of validity of our products. We provide one year updated free download for every user. Once the real exam changes, we will release new version of AI-900 Latest Exam Preparation and will send email to notify you to download the latest version. We also provide one year service warranty.

Microsoft Azure AI Fundamentals Sample Questions (Q222-Q227):

NEW QUESTION # 222

Select the answer that correctly completes the sentence.

Answer:

Explanation:

NEW QUESTION # 223

Match the types of computer vision to the appropriate scenarios.

To answer, drag the appropriate workload type from the column on the left to its scenario on the right. Each workload type may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Facial recognition

Face detection that perceives faces and attributes in an image; person identification that matches an individual in your private repository of up to 1 million people; perceived emotion recognition that detects a range of facial expressions like happiness, contempt, neutrality, and fear; and recognition and grouping of similar faces in images.

Box 2: OCR

Box 3: Object detection

Object detection is similar to tagging, but the API returns the bounding box coordinates (in pixels) for each object found. For example, if an image contains a dog, cat and person, the Detect operation will list those objects together with their coordinates in the image. You can use this functionality to process the relationships between the objects in an image. It also lets you determine whether there are multiple instances of the same tag in an image.

The Detect API applies tags based on the objects or living things identified in the image. There is currently no formal relationship between the tagging taxonomy and the object detection taxonomy. At a conceptual level, the Detect API only finds objects and living things, while the Tag API can also include contextual terms like "indoor", which can't be localized with bounding boxes.

NEW QUESTION # 224

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: Yes

In machine learning, if you have labeled data, that means your data is marked up, or annotated, to show the target, which is the answer you want your machine learning model to predict.

In general, data labeling can refer to tasks that include data tagging, annotation, classification, moderation, transcription, or processing.

Box 2: No

Box 3: No

Accuracy is simply the proportion of correctly classified instances. It is usually the first metric you look at when evaluating a classifier. However, when the test data is unbalanced (where most of the instances belong to one of the classes), or you are more interested in the performance on either one of the classes, accuracy doesn't really capture the effectiveness of a classifier.

NEW QUESTION # 225

Select the answer that correctly completes the sentence

Answer:

Explanation:

NEW QUESTION # 226

A medical research project uses a large anonymized dataset of brain scan images that are categorized into predefined brain haemorrhage types.

You need to use machine learning to support early detection of the different brain haemorrhage types in the images before the images

are reviewed by a person.

This is an example of which type of machine learning?

- A. classification
- B. clustering
- C. regression

Answer: A

NEW QUESTION # 227

.....

Our AI-900 study questions are suitable for a variety of levels of users, no matter you are in a kind of cultural level, even if you only have high cultural level, you can find in our AI-900 training materials suitable for their own learning methods. So, for every user of our AI-900 Study Materials are a great opportunity, a variety of types to choose from, more and more students also choose our AI-900 test guide, then why are you hesitating? Just choose our Microsoft Azure AI Fundamentals study questions!
