Once the latest version of Mule-Dev-201 exam pdf released, our system will send it to your mail immediately. You will be allowed to free update your Mule-Dev-201 Top Questions one-year after purchased. Please feel free to contact us if you have any questions about our dumps.

Salesforce Certified MuleSoft Developer Sample Questions (Q126-Q131):

NEW QUESTION # 126

Why would a Mule application use the `#{http.port}` property placeholder for its HTTP Listener port when it is deployed to CloudHub?

- A. Allows CloudHub to automatically change the HTTP port to allow external clients to connect to the HTTP Listener

- B. Allows MuleSoft Support to troubleshoot the application by connecting directly to the HTTP Listener
- C. Allows clients to VPN directly to the application at the Mule application's configured HTTP port
- D. Allows CloudHub to automatically register the application with API Manager

Answer: A

Explanation:

This helps CloudHub to dynamically allocate a port at deployment time.

MuleSoft Doc Ref : <https://docs.mulesoft.com/mule-runtime/4.3/deploy-to-cloudhub#prerequisites>

Reference: <https://docs.mulesoft.com/runtime-manager/developing-applications-for-cloudhub>

NEW QUESTION # 127

Refer to the exhibit.

□ The main flow contains a Flow Reference for the child flow.

What

values are accessible in the child flow after a web client submits a request to `http://localhost:8081/order?color=red?`

- A. `payload.quantity var color query param`
- B. `payload`
- C. `payload.color query param`
- D. `payload.quantity var`

Answer: A

Explanation:

Flow Reference Component

Flow Reference routes the Mule event to another flow or subflow, executes all processors in the referenced flow, and then routes the event back within the same Mule application. The following diagram shows the order of processing when one flow references another:

□ When the main flow is triggered, the Mule event travels through and executes the flow until the event reaches the Flow Reference. The event then travels through and executes the referenced flow from beginning to end, and then returns to the main flow.

This process enables you to treat the entire referenced flow like a single component in your current flow.

Mule Ref Doc : <https://docs.mulesoft.com/mule-runtime/4.3/flowref-about> Correct answer is

* `payload`

* `quantity var`

* `color query param`

NEW QUESTION # 128

Refer to the exhibits.

□ The Set Payload transformer in the `addItem` subflow uses DataWeave to create an order object.

What is the correct DataWeave code for the Set Payload transformer in the `createOrder` flow to use the `addItem` subflow to add a router cable with the price of 100 to the order?

- A. `addItem { price: "100", item: "router", itemType: "cable" }`
- B. `addItem { payload: { price: "100", item: "router", itemType: "cable" } > }`
- C. `lookupf "addItem", { payload: { price: "100", item: "router", itemType: "cable" } }`
- D. `lookupf "addItem", { price: "100", item: "router", itemType: "cable" }`

Answer: C

NEW QUESTION # 129

Refer to the exhibits. APIKit router is used to generate the flow components for RAML specification.

The Mule application must be available to REST clients using the two URL's

`http://localhost:8081/internal`

and `http://localhost:8081/external`

How many APIKit Router components are generated to handle requests to every endpoint defined in RAML specification?

1. Library.raml
2. /books
3. get:
4. post:
5. /order:
6. get
7. patch
8. /members
9. get:

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

NEW QUESTION # 130

Refer to the exhibits.

The Set Variable transformer is set with value `#[[first "Max" last "Mule"]]`.

What is a valid DataWeave expression to set as the message attribute of the Logger to access the value "Max" from the Mule event?

- A. customer first
- B. "customer first"
- C. vars "customer" "first"
- D. vars "customer first"

Answer: C

NEW QUESTION # 131

.....

The content of our Mule-Dev-201 practice engine is chosen so carefully that all the questions for the Mule-Dev-201 exam are contained. And our Mule-Dev-201 study materials have three formats which help you to read, test and study anytime, anywhere. This means with our products you can prepare for exams efficiently and at the same time you will get 100% success for sure. If you desire a Mule-Dev-201 Certification, our products are your best choice.
