Choosing our Salesforce-Certified-Administrator test question will definitely bring you many unexpected results!

### Salesforce Certified Administrator Sample Questions (Q198-Q203):

#### NEW QUESTION # 198

Support reps at Cloud Kicks (CK) are reporting that when they try to close a case, the Closed option in the Case Status picklist is missing. CK has asked the administrator to find a solution.

Why are the support reps unable to see the Closed option in the specified piclist?

- A. The Case record type is missing Closed as a picklist value.
- **B. The Support Process being used omits Closed as a status choice.**
- C. The Close Case page layout must be used to close a case.
- D. The Show Closed Statuses m Case Status Field checkbox is set to the default.

**Answer: B**

Explanation:

Explanation

A support process is a feature that allows administrators to define and enforce the stages that a case or work order must go through based on its record type. A support process determines which values are available for the status field for each record type. If a support process omits a certain value for the status field, such as Closed, then users will not be able to see or select that value when working with cases or work orders of that record type. References: [https://help.salesforce.com/s/articleView?id=sf.customize\\_supporthome.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.customize_supporthome.htm&type=5)

### NEW QUESTION # 199

Ursa Major Solar offers amazing experiences for all of its employees. The Employee engagement committee wants to post updates while restricting other employees from posting.

What should the administrator create to meet this request?

- A. Chatter Broadcast Group
- B. Chatter Recommendations.
- C. Chatter Stream
- D. Chatter Unlisted Group

**Answer: A**

Explanation:

Explanation

Chatter broadcast group is a type of group that should be created to meet this request. Chatter broadcast group is a group where only group owners and managers can create posts, but anyone can comment on posts. This can be useful for sharing important updates or announcements with a large audience without cluttering the feed with other posts.

### NEW QUESTION # 200

The DreamHouse Realty team has a master-detail relationship set up with open house as the parent object and visitors as the child object.

What type of field should the administrator add to the open house object to track number of visitors?

- A. Roll-up Summary.
- B. Indirect lookup
- C. Multi-select Picklist
- D. Cross-object formula field

**Answer: D**

### NEW QUESTION # 201

The CTO of AW Computing has defined a new policy for cases to improve customer satisfaction. All cases submitted with a Case Reason of Installation must be acknowledged immediately via email and assigned to the appropriate agents. Any cases that are still in the New status after 4 hours must be escalated to support management.

What case management tools need to be utilized for this requirement?

- A. Auto-response rules, Entitlements, Escalation Rules
- B. Auto-response rules, Macros, Entitlements
- C. Auto-response rules, Queues, Escalation Rules
- D. Auto-response rules, Queues, Macros

**Answer: C**

Explanation:

Explanation

To acknowledge cases with a Case Reason of Installation immediately via email and assign them to appropriate agents, and escalate cases that are still in New status after 4 hours to support management, an administrator should use Auto-response rules, Queues, and Escalation Rules for case management.

Auto-response rules allow sending automatic email responses to customers based on case criteria. Queues allow grouping cases that

share common characteristics and assigning them to a group of users who can access and work on them. Escalation rules allow escalating cases that meet certain criteria to higher-level users or groups and sending email notifications. Macros and Entitlements are not case management tools that can be used for this requirement. References:

### NEW QUESTION # 202

AW Computing has six sales teams in a region. These teams always consists of the same account manager, engineer, and assistant. What should the administrator configure to make it easier for teams to collaborate with the same customer?

- A. Propose the users manually share all their accounts with their teammates.
- **B. Enable account teams and show the users how to set up a default account team.**
- C. Enable and configure standard opportunity teams with splits.
- D. Create a queue for each team and assign account ownership to the queue.

**Answer: B**

Explanation:

Explanation

Account teams are groups of users who work together on an account. You can enable account teams in Setup and assign team roles and access levels for each team member. Users can set up a default account team that is automatically added to any account that they own or create. This makes it easier for teams to collaborate with the same customer without manually sharing each account.
