최신 Epic Cogito Fundamentals COG170 무료 샘플문제 (Q297-Q302):

질문 # 297

Creating a new SlicerDicer component from an existing one using the Explore Detail option will add the new component to the

source dashboard.

- A. False
- B. True

정답: A

질문 # 298

A dashboard component must display real-time patient transfer data with a link to the Transfer Coordination activity and dynamic thresholds based on transfer type and urgency. Which data source and configuration ensure this complex functionality?

- A. Clarity; set aggregated data, link to a SlicerDicer session, and configure threshold overrides.
- B. SlicerDicer; add a real-time transfer filter, configure Action Groups, and enable dynamic thresholds.
- C. Chronicles; configure real-time extraction, a Hyperspace activity link, and Type-Urgency Dynamic Thresholds in the Component Editor.
- D. Caboodle; schedule frequent ETL processes, enable summary targets, and add type-based filters.

정답: C

질문 # 299

A Reporting Workbench report must calculate average wait times by clinic using Clarity data. How should this be configured?

- A. Create a SlicerDicer session with wait time filters.
- B. Assign a new Action Group for data access.
- C. Use a Cogito SQL template with an aggregate function in Clarity.
- D. Configure a summary target in Chronicles.

정답: C

질문 # 300

A Reporting Workbench report omits data for a specific ward. The report uses Chronicles. What is the issue?

- A. The report is not enabled in the Analytics Catalog.
- B. The report's filters use an incorrect data model.
- C. The ward's data is not in the Report Group.
- D. The data is not extracted to Caboodle.

정답: C

질문 # 301

A Chronicles item has a response type of "related group". What does this indicate about the item's behavior?

- A. The item can store only one value for a contact
- B. This item can store multiple lines of data at once, and each one of these lines is related to a line in or other item
- C. This item is identified by more than one item number
- D. The value stored for this item can differ from contact to contact within the same record

정답: B
