

# Quiz 2026 Unparalleled Nokia 4A0-D01: New Nokia Data Center Fabric Fundamentals Exam Test Voucher

DOWNLOAD the newest DumpsFree 4A0-D01 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1N2\\_uM3mwCu1WjDjrSggEvG7fA1kGY2lv](https://drive.google.com/open?id=1N2_uM3mwCu1WjDjrSggEvG7fA1kGY2lv)

You can be absolutely assured about the high quality of our products, because the content of Nokia Data Center Fabric Fundamentals Exam actual test has not only been recognized by hundreds of industry experts, but also provides you with high-quality after-sales service. Before purchasing 4A0-D01 prep torrent, you can log in to our website for free download. During your installation, 4A0-D01 exam torrent hired dedicated experts to provide you with free online guidance. During your studies, 4A0-D01 Exam Torrent also provides you with free online services for 24 hours, regardless of where and when you are, as long as an email, we will solve all the problems for you. At the same time, if you fail to pass the exam after you have purchased 4A0-D01 prep torrent, you just need to submit your transcript to our customer service staff and you will receive a full refund.

## Nokia 4A0-D01 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Module 5 – EDA (Event Driven Automation) Introduction</li></ul>
Topic 2	<ul style="list-style-type: none"><li>SR Linux Configuration and Routing: This section of the exam measures skills of a Network Automation Specialist and focuses on configuring and managing SR Linux systems. It examines the YANG-driven CLI, JSON output, environment variables, and static and dynamic routing. Learners also explore BGP, ECMP, IP-VRF, MAC-VRF, and the use of VXLAN with EVPN to implement both Layer 2 and Layer 3 overlays, including symmetric and asymmetric models.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>This section of the exam measures skills of a Network Automation Specialist and introduces the principles of Event Driven Automation in SR Linux environments. It covers integration with Kubernetes and explores core use cases such as intent-based automation for fabrics and services, as well as enhanced network observability.</li></ul>

## 4A0-D01 Valid Exam Tutorial | 4A0-D01 PDF Download

To avoid this situation, we recommend you 4A0-D01 real dumps. This product contains everything you need to crack the 4A0-D01 certification exam on the first attempt. By choosing DumpsFree's updated dumps, you don't have to worry about appearing in the Nokia Data Center Fabric Fundamentals Exam (4A0-D01) certification exam. DumpsFree Nokia 4A0-D01 Dumps are enough to get you through the Nokia Data Center Fabric Fundamentals Exam (4A0-D01) actual exam on the first try.

### Nokia Data Center Fabric Fundamentals Exam Sample Questions (Q28-Q33):

#### NEW QUESTION # 28

Which of the following statements about a MAC-VRF is FALSE?

- A. Multiple devices can be connected to the same IP subnet using a MAC-VRF.
- B. **Packets received in a MAC-VRF are forwarded based on destination IP address.**
- C. A MAC-VRF is a Layer 2 network instance.
- D. Bridge table entries contain an exit interface for each destination address.

**Answer: B**

Explanation:

In a MAC-VRF, packets are forwarded based on Layer 2 information such as destination MAC addresses, not on destination IP addresses.

#### NEW QUESTION # 29

Which of the following is NOT one of the reasons why BGP is used as the routing protocol in the data center?

- A. **It is more efficient than link-state protocols like IS-IS and OSPF.**
- B. It is a well understood and mature routing protocol.
- C. It supports both IPv4 and IPv6.
- D. BGP neighbors automatically discover each other.

**Answer: A**

Explanation:

BGP is not chosen because it is more efficient than link-state protocols; in fact, link-state protocols like IS-IS and OSPF generally provide faster convergence and more efficient route calculation. BGP is used in data centers mainly because it is mature, well understood, supports both IPv4 and IPv6, and offers flexible policy control.

#### NEW QUESTION # 30

Based on the exhibit output, which of the following is NOT the reason the user runs the "baseline diff" command?

- A. User admin wants to check if there are differences between the current running config and their baseline datastore.
- B. **User admin is not able to commit their changes.**
- C. Another user has committed changes.
- D. User admin notices that "!" appears in the CLI prompt.

**Answer: B**

Explanation:

The "baseline diff" command is used to compare the candidate configuration against the baseline datastore to see changes or conflicts, especially when multiple users are involved or to verify differences. It does not indicate that the user is unable to commit changes.

### NEW QUESTION # 31

Which of the following is NOT how prefixes are typically learned and advertised in a leaf and spine data center?

- A. Spine routers learn prefixes from leaf routers directly using eBGP.
- B. **Each leaf router learns the prefixes of remote servers from other leaf routers directly using eBGP.**
- C. Spine routers advertise learned prefixes to leaf routers directly using eBGP.
- D. Each leaf router advertises the prefixes of its own locally connected servers.

**Answer: B**

Explanation:

Leaf routers do not learn prefixes from other leaf routers directly using eBGP; instead, leaf routers learn remote prefixes via spine routers. The spine acts as the route reflector or intermediary between leaf routers.

### NEW QUESTION # 32

Which of the following statements about multi-homing in EVPN is FALSE?

- A. Type 1 Ethernet Auto-Discovery (A-D) EVPN route is used to support EVPN multi-homing.
- B. **The ES identifier (ESI) uniquely identifies an ES and it is locally significant for a particular leaf.**
- C. The Ethernet Segment (ES) identifies a set of links that connects a host to one or more leafs.
- D. Type 4 Ethernet Segment (ES) EVPN route is used for designated forwarder (DF) election for an ES.

**Answer: B**

Explanation:

The Ethernet Segment Identifier (ESI) uniquely identifies an Ethernet Segment (ES) globally across the EVPN domain, not just locally for a particular leaf.

### NEW QUESTION # 33

.....

The experts and professors of our company have designed the three different versions of the 4A0-D01 study materials, including the PDF version, the online version and the software version. Now we are going to introduce the online version for you. There are a lot of advantages about the online version of the 4A0-D01 Study Materials from our company. For instance, the online version can support any electronic equipment and it is not limited to all electronic equipment.
