NEW QUESTION # 442
The project manager has proposed that a request for change be implemented, but the change authority has asked for more information.
In which step of the 'issue management technique should the change authority request this information?

- A. Assessing issues
- B. Deciding on changes
- C. Implementing changes
- D. Capturing issues

Answer: A

Explanation:
When the change authority asks for more information regarding a proposed change, this occurs during the
'Assessing issues' step of the 'issue management technique' in PRINCE2. This step involves evaluating the impact and implications of issues or changes, including requesting additional information necessary to make informed decisions. NEW QUESTION # 444
The project manager needs to understand what makes the outputs acceptable to the users.
In which step of the 'planning' technique should this occur?

- A. Preparing a schedule
- B. Organizing work packages
- C. Defining and analysing the products
- D. Preparing estimates

Answer: C

Explanation:
In the 'planning' technique of PRINCE2, understanding what makes the outputs acceptable to the users occurs during the step of "Defining and Analyzing the Products." This step involves detailed discussions about product requirements and specifications to ensure clarity on what the project must deliver for it to be accepted by the users. It sets out the criteria that the products must meet to satisfy the user's needs and expectations.

NEW QUESTION # 445
Who is responsible for documenting any tailoring of the business case theme?

- A. Business project assurance
- B. Project manager
- C. Corporate management
- D. Executive

Answer: B

Explanation:
In PRINCE2, the responsibility for documenting any tailoring of the Business Case theme, along with other themes, generally falls to the Project Manager. This includes documenting how the theme is being applied in a particular project context, ensuring the approach remains appropriate and meets the project's requirements.References: PRINCE2 Foundation Manual

NEW QUESTION # 446
What is documented in the project plan to support the 'manage by exception' principle?

- A. Activities to mitigate project risks
- B. The expected project benefits
- C. A project product's quality criteria
- D. The project's tolerances for cost and time

Answer: D

Explanation:
In support of the 'manage by exception' principle, the Project Plan in PRINCE2 documents the project's tolerances for key variables such as cost, time, quality, scope, risk, and benefit. These tolerances define the limits within which the Project Manager can operate without needing to escalate decisions to the Project Board, facilitating efficient decision-making and control at each level of project management.
