

100% Pass C-AIG-2412 - SAP Certified Associate - SAP Generative AI Developer–Reliable Exam Sample Questions

BONUS!!! Download part of ValidTorrent C-AIG-2412 dumps for free: https://drive.google.com/open?id=1KKGtCnO4CCzUm_LVHEALGsIU_KBqQPta

In this highly competitive modern society, everyone needs to improve their knowledge level or ability through various methods so as to obtain a higher social status. Under this circumstance passing C-AIG-2412 exam becomes a necessary way to improve oneself. And you are lucky to find us for we are the most popular vendor in this career and have a strong strength on providing the best C-AIG-2412 Study Materials. And the price of our C-AIG-2412 practice engine is quite reasonable.

SAP C-AIG-2412 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers SAP's Generative AI Hub, which acts as the central layer for designing and managing generative AI solutions. The exam tests knowledge of building, deploying, and connecting AI models to business scenarios through the Hub. Emphasis is placed on leveraging the Hub to streamline workflows and ensure scalable solutions that align with organizational needs.
Topic 2	<ul style="list-style-type: none">• SAP AI Core: This section of the exam measures the skills of AI Developers and covers the fundamental components of SAP AI Core. Candidates are assessed on their ability to work with the core services that allow machine learning models to be deployed and managed within SAP environments. The focus is on understanding how AI Core fits into SAP's ecosystem and ensures smooth integration with enterprise applications.

Topic 3	<ul style="list-style-type: none"> Advanced AI Techniques with SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers advanced techniques available through SAP's Generative AI Hub. Candidates are assessed on their ability to design, optimize, and scale generative AI solutions that go beyond basic implementations. The focus includes applying sophisticated strategies to integrate advanced models, manage performance, and align AI-driven outcomes with complex enterprise goals.
Topic 4	<ul style="list-style-type: none"> Large Language Models (LLMs): This section of the exam measures the skills of AI Developers and covers the practical use of large language models in SAP environments. Candidates are expected to understand how LLMs can be applied to automate tasks, enhance decision-making, and improve user interaction within SAP systems. The exam evaluates knowledge of handling model selection, fine-tuning, and adapting LLMs to specific business cases.

Reliable C-AIG-2412 Test Syllabus, C-AIG-2412 Exam Discount

You may doubt about such an amazing data of our pass rate on our C-AIG-2412 learning prep, which is unimaginable in this industry. But our C-AIG-2412 exam questions have made it. You can imagine how much efforts we put into and how much we attach importance to the performance of our C-AIG-2412 Study Guide. We use the 99% pass rate to prove that our C-AIG-2412 practice materials have the power to help you go through the exam and achieve your dream.

SAP Certified Associate - SAP Generative AI Developer Sample Questions (Q52-Q57):

NEW QUESTION # 52

Which of the following are features of the SAP AI Foundation? Note: There are 2 correct answers to this question.

- A. AI runtimes and lifecycle management
- B. Joule integration in SAP SuccessFactors
- C. Open source AI model repository
- D. Ready-to-use AI services

Answer: A,D

Explanation:

SAP AI Foundation is an all-in-one AI toolkit that provides developers with the necessary tools to build AI- powered extensions and applications on SAP Business Technology Platform (SAP BTP).

1. Ready-to-Use AI Services:

* Pre-Built AI Capabilities:AI Foundation offers a suite of ready-to-use AI services, enabling developers to integrate AI functionalities into their applications without the need to build models from scratch. These services include capabilities such as document information extraction, translation, and personalized recommendations.

2. AI Runtimes and Lifecycle Management:

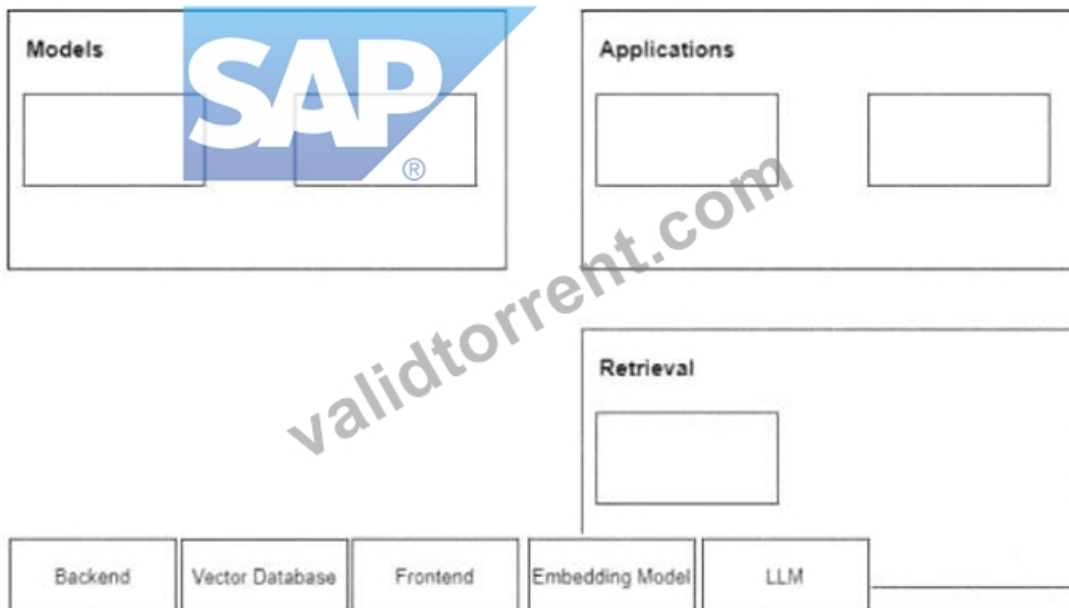

* Comprehensive AI Management:AI Foundation provides tools for managing AI runtimes and the entire AI lifecycle, including model deployment, monitoring, and maintenance. This ensures that AI models operate efficiently and remain up-to-date, facilitating seamless integration into business processes.

3. Integration with SAP BTP:

* Unified Platform:By integrating with SAP BTP, AI Foundation allows for the development of AI solutions that are grounded in business data and context, ensuring relevance and reliability in AI-driven applications.

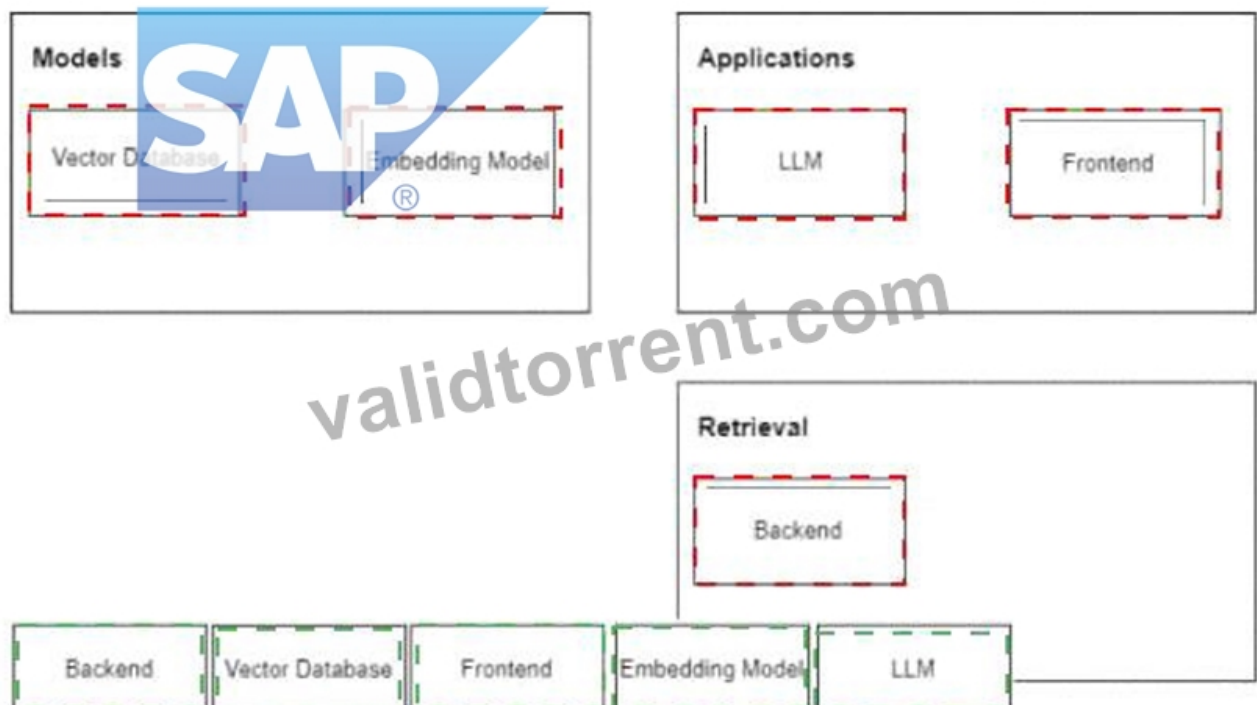

NEW QUESTION # 53

Match the components of a Retrieval Augmented Generation architecture to the diagram.

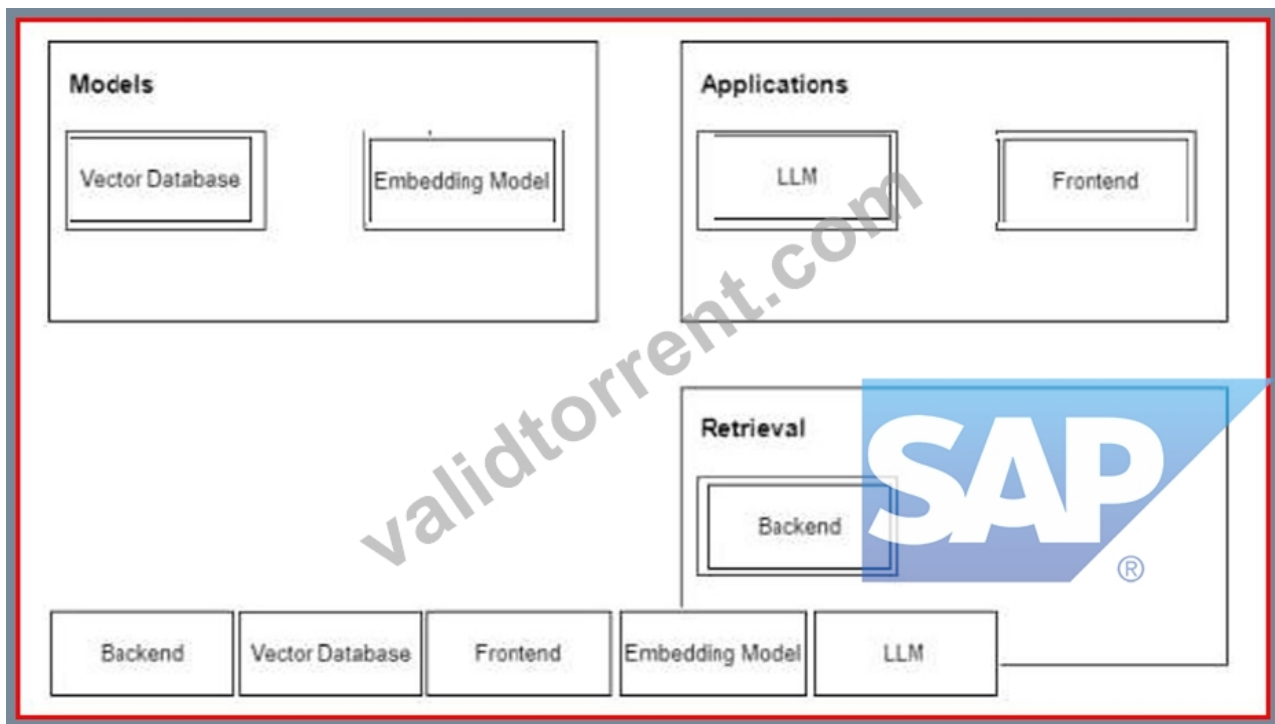

Answer:

Explanation:

Explanation:

A screenshot of a computer Description automatically generated

NEW QUESTION # 54

Which of the following are grounding principles included in SAP's AI Ethics framework? Note: There are 3 correct answers to this question.

- A. Maximize business profits
- **B. Transparency and explainability**
- C. Store all user data for legal proceedings
- **D. Human agency and oversight**
- **E. Avoid bias and discrimination**

Answer: B,D,E

Explanation:

SAP's AI Ethics framework is built upon several grounding principles to ensure responsible AI development and deployment:

1. Transparency and Explainability:

* Definition: Ensuring that AI systems are understandable and their decision-making processes can be clearly explained to stakeholders.

* Implementation: SAP commits to making AI systems transparent, providing clear information about how decisions are made to build trust and facilitate accountability.

2. Human Agency and Oversight:

* Definition: Maintaining human control over AI systems, ensuring that humans can intervene or oversee AI operations as necessary.

* Implementation: SAP emphasizes the importance of human oversight in AI applications, ensuring that AI augments human decision-making rather than replacing it.

3. Avoid Bias and Discrimination:

* Definition: Preventing AI systems from perpetuating or amplifying biases, ensuring fair and equitable treatment for all users.

* Implementation: SAP strives to develop AI systems that are free from bias, implementing measures to detect and mitigate discriminatory outcomes.

NEW QUESTION # 55

What are some components of the training pipeline in SAP AI Core? Note: There are 2 correct answers to this question.

- **A. Input datasets stored in a hyperscaler object store**
- B. Automated deployment to Kubernetes clusters
- C. The SAP HANA database for model storage
- **D. Executables that define the training process**

Answer: A,D

Explanation:

The training pipeline in SAP AI Core comprises several key components that facilitate the development and deployment of machine learning models.

1. Input Datasets Stored in a Hyperscaler Object Store:

* Data Storage: Input datasets are often stored in hyperscaler object stores, which provide scalable and secure storage solutions. These datasets serve as the foundational data for training machine learning models.

* Integration: SAP AI Core integrates with various hyperscaler object stores, allowing seamless access to training data during the model development process.

NEW QUESTION # 56

What defines SAP's approach to LLMs?

- A. Focusing solely on reducing the computational cost of training LLMs
- **B. Ensuring ethical AI practices and seamless business integration**
- C. Prioritizing the development of proprietary LLMs with no integration to existing systems
- D. Limiting LLM usage to non-business applications only

Answer: B

Explanation:

SAP's approach to Large Language Models (LLMs) is centered on integrating these powerful AI tools into its enterprise ecosystem while adhering to ethical standards. Unlike option A, SAP does not focus solely on proprietary LLMs without integration; instead, it leverages both proprietary and third-party models (e.g., via partnerships with providers like Azure OpenAI) to enhance business applications. Option B is incorrect because reducing computational cost is not the sole focus-SAP prioritizes value delivery through integration with business processes. Option D is also inaccurate, as SAP explicitly targets business applications rather than limiting LLMs to non-business use. Option C is correct because SAP emphasizes ethical AI practices (e.g., through its AI Ethics Policy) and seamless integration with tools like SAP S/4HANA and SAP SuccessFactors, ensuring LLMs enhance enterprise workflows responsibly and effectively.

NEW QUESTION # 57

.....

Passing C-AIG-2412 exam is not very simple. C-AIG-2412 exam requires a high degree of professional knowledge of IT, and if you lack this knowledge, ValidTorrent can provide you with a source of IT knowledge. ValidTorrent's expert team will use their wealth of expertise and experience to help you increase your knowledge, and can provide you practice questions and answers C-AIG-2412 certification exam. ValidTorrent will not only do our best to help you pass the C-AIG-2412 Certification Exam for only one time, but also help you consolidate your IT expertise. If you select ValidTorrent, we can not only guarantee you 100% pass C-AIG-2412 certification exam, but also provide you with a free year of exam practice questions and answers update service. And if you fail to pass the examination carelessly, we can guarantee that we will immediately 100% refund your cost to you.
