The advertisement is a blue rectangular box with white and yellow text. At the top right is the Microsoft logo. The main text reads: 'Pass AI-102 Exam in First Attempt' with a checkered flag icon to the left. Below this is 'Verified Dumps by RealExamCollection' with a flame icon to the left. Further down, it says '100% Real Questions | Money-Back Guarantee' with a green checkmark icon. Below that is 'Download Sample • Weekly Updates • Trusted V' with a bar chart icon. At the bottom is a white arrow pointing right followed by the website 'www.realexamcollection.com'.

2026 Latest DumpsTests AI-102 PDF Dumps and AI-102 Exam Engine Free Share: <https://drive.google.com/open?id=1GcY0lwjEOg9UO27DgHSHgP5MnteIsEK9>

By using DumpsTests AI-102 exam questions, you will be able to understand the real exam AI-102 scenario. It will help you get verified AI-102 answers and you will be able to judge your AI-102 preparation level for the AI-102 exam. More importantly, it will help you understand the real AI-102 exam feel. You will be able to check the real exam scenario by using this specific AI-102 Exam PDF questions. Our Microsoft experts are continuously working on including new AI-102 questions material and we provide a guarantee that you will be able to pass the AI-102 exam on the first attempt.

If you feel that you always suffer from procrastination and cannot make full use of your spare time, maybe our AI-102 study materials can help you solve your problem. We are willing to recommend you to try the AI-102 study materials from our company. Our AI-102 training guide are high quality and efficiency test tools for all people. If you buy our AI-102 Preparation questions, we can promise that you can use our AI-102 study materials for study in anytime and anywhere. Because we have three version of AI-102 exam questions that can satisfy all needs of our customers.

## Microsoft AI-102 dumps & Testinsides AI-102 PDF & AI-102 actual test

Our AI-102 real exam can be downloaded for free trial before purchase, which allows you to understand our AI-102 sample questions and software usage. It will also enable you to make a decision based on your own needs and will not regret. If you encounter any problems in the process of purchasing or using AI-102 Study Guide you can contact our customer service by e-mail or online at any time, we will provide you with professional help.

## Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q203-Q208):

### NEW QUESTION # 203

In Azure OpenAI Studio, you are prototyping a chatbot by using Chat playground.

You need to configure the chatbot to meet the following requirements:

- . Reduce the repetition of words in conversations.

. Reduce the randomness of each response.

Which two parameters should you modify? To answer, select the appropriate parameters in the answer area.

NOTE: Each correct answer is worth one point.

**Answer:**

Explanation:

Explanation:

Here are the parameters that should be modified:

\* Frequency Penalty: This parameter helps to reduce the repetition of words by applying a penalty to new tokens based on their existing frequency in the text so far. Increasing this value will discourage the model from repeating the same words.

\* Temperature: This parameter controls the randomness of the responses. Lowering the temperature makes the output less random and more focused on the most probable outcomes. A lower value will result in more deterministic responses.

Steps to Adjust the Parameters

Frequency Penalty: Increase this value to reduce the repetition of words. Temperature: Decrease this value to reduce the randomness of each response.

Based on the image provided, the appropriate values to change are:

\* Frequency penalty: Adjust this parameter to reduce word repetition.

\* Temperature: Adjust this parameter to reduce randomness.

Example Adjustments

\* Frequency penalty: Increase the value from 0 to a higher value, such as 0.5.

\* Temperature: Decrease the value from 0.99 to a lower value, such as 0.5.

Here's how you would configure these settings in Azure OpenAI Studio:

\* Set Frequency penalty to a higher value (e.g., 0.5).

\* Set Temperature to a lower value (e.g., 0.5).

#### NEW QUESTION # 204

You have a factory that produces food products.

You need to build a monitoring solution for staff compliance with personal protective equipment (PPE) requirements. The solution must meet the following requirements:

- Identify staff who have removed masks or safety glasses.
- Perform a compliance check every 15 minutes.
- Minimize development effort.
- Minimize costs.

Which service should you use?

- A. Azure Video Analyzer for Media (formerly Video Indexer)
- **B. Face**
- C. Azure AI Vision

**Answer: B**

Explanation:

Face API is an AI service that analyzes faces in images.

Embed facial recognition into your apps for a seamless and highly secured user experience. No machine-learning expertise is required. Features include face detection that perceives facial features and attributes "such as a face mask, glasses, or face location" in an image, and identification of a person by a match to your private repository or via photo ID.

#### NEW QUESTION # 205

You are developing an application that includes language translation.

The application will translate text retrieved by using a function named `get_text_to_be_translated`. The text can be in one of many languages. The content of the text must remain within the Americas Azure geography.

You need to develop code to translate the text to a single language.

How should you complete the code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

#### NEW QUESTION # 206

You are building a Language Understanding model for purchasing tickets.

You have the following utterance for an intent named PurchaseAndSendTickets.

Purchase [2 audit business] tickets to [Paris] [next Monday] and send tickets to [email@domain.com] You need to select the entity types. The solution must use built-in entity types to minimize training data whenever possible.

Which entity type should you use for each label? To answer, drag the appropriate entity types to the correct labels. Each entity type may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

**Answer:**

Explanation:
