## SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q55-Q60):

### NEW QUESTION # 55

Which of the following analyses can you create from the Manage KPIs and Reports app? Note: There are 3 correct answers to this question.

- A. Review Booklets
- B. SAC Stories
- C. Multidimensional Reports
- D. Object Views
- E. Lumira Dashboards

**Answer: A,B,C**

Explanation:

The Manage KPIs and Reports app is a single platform for creating all analytical applications using KPIs, reports, multidimensional reports, and stories. You can create applications that can be launched directly from SAP Fiori launchpad. The app is integrated with SAP Analytics Cloud, which allows you to create and view stories. A story is a presentation-style document that uses charts, tables, and other visualizations to display data insights. A review booklet is a collection of stories that can be used to share information with stakeholders. A multidimensional report is a type of report that allows you to analyze data from multiple dimensions and measures. You can create and view multidimensional reports from the app. An object view is a type of report that displays data for a single object, such as a customer or a product. You cannot create or view object views from the app. A Lumira dashboard is a type of dashboard that uses SAP Lumira to create and display data visualizations. You cannot create or view Lumira dashboards from the app. References = Manage KPIs and Reports, Stories, Review Booklets, [Multidimensional Reports]

### NEW QUESTION # 56

When using the Local SAP S/4HANA Database Schema migration approach, what is the maximum file size? Note: There are 2 correct answers to this question.

- A. 100 MB per file
- B. 160 MB per ZIP file
- C. 160 MB per file
- D. 100 MB per ZIP file

**Answer: A,D**

### NEW QUESTION # 57

You have assigned a deployment target in SAP Central Business Configuration, but have not yet completed scoping. Which of the following tasks can you complete? Note: There are 2 correct answers to this question.

- A. Rename the deployment target.
- B. Define the group currency.
- C. Create a company code.
- D. Assign a different deployment target.

**Answer: A,D**

### NEW QUESTION # 58

You are recording actions for a custom process step in a test automate

When do you press the "Read" button on the recording panel? Note: There are 2 correct answers to this question.

- A. To capture text in a message screen that can be used for data binding later.
- B. To capture an error message on the screen that can be used later.
- C. To capture a static label on the screen that should be checked during test execution.
- D. To capture a value in a text field that should be stored as a variable.

**Answer: A,D**

Explanation:

When you are recording actions for a custom process step in a test automate, you press the "Read" button on the recording panel in the following situations:

\* To capture a value in a text field that should be stored as a variable. This allows you to reuse the value in other steps or test cases, or to compare it with an expected value1.

\* To capture text in a message screen that can be used for data binding later. This allows you to extract data from the message screen and use it as an input for another step or test case2.

You do not press the "Read" button to capture an error message or a static label on the screen, as these are not values that need to be stored or used later. Instead, you can use the "Check" button to verify that the error message or the label is displayed as expected3. ### NEW QUESTION # 59

You want to restrict end user activities for an application.

Where would you look up the business catalog(s) that grant access to the app?

- A. In the App Finder app
- B. In the Configure Your Solution app
- C. In the SAP Fiori Apps Reference Library
- D. In the Define Your Scope app

**Answer: C**

### Explanation:

The SAP Fiori Apps Reference Library is a comprehensive online library of all available SAP Fiori apps. It provides information about the app features, technical data, configuration, and implementation. You can use the SAP Fiori Apps Reference Library to look up the business catalog(s) that grant access to an app by following these steps:

- \* Go to the SAP Fiori Apps Reference Library website and log in with your SAP credentials.
- \* In the search bar, enter the name or ID of the app you want to restrict access to, and click the search icon.
- \* In the search results, click on the app tile to open the app details page.
- \* On the app details page, scroll down to the Implementation Information section and expand the Configuration tab.
- \* Under the Configuration tab, you will see the Business Catalog field, which lists the business catalog(s) that contain the app. You can click on the business catalog ID to view more details about it, such as the business roles, business groups, and other apps that are assigned to it.
