## 100% 312-85 Exam Coverage & Exam 312-85 Introduction

VCE4Dumps 312-85 latest training guide covers all the main content which will be tested in the actual exam. Even if, there may occur few new questions, you still do not worry, because the content of ECCouncil 312-85 latest free pdf will teach you the

applicable knowledge which will help you solve the problem. So please rest assured to choose 312-85 Valid Test Questions vce, high pass rate will bring you high score.

## **ECCouncil Certified Threat Intelligence Analyst Sample Questions (Q50-Q55):**

### **NEW QUESTION # 50**

In which of the following storage architecture is the data stored in a localized system, server, or storage hardware and capable of storing a limited amount of data in its database and locally available for data usage?

- A. Object-based storage
- B. Cloud storage
- C. Centralized storage
- D. Distributed storage

**Answer: A**

### **NEW QUESTION # 51**

A network administrator working in an ABC organization collected log files generated by a traffic monitoring system, which may not seem to have useful information, but after performing proper analysis by him, the same information can be used to detect an attack in the network.

Which of the following categories of threat information has he collected?

- A. Detection indicators
- B. Low-level data
- C. Strategic reports
- D. Advisories

**Answer: A**

### **NEW QUESTION # 52**

Two cybersecurity teams from different organizations joined forces to combat a rapidly evolving malware campaign targeting their industry. They exchange real-time information about the attackers' techniques, compromised systems, and immediate defensive actions. What type of threat intelligence sharing characterizes this collaboration?

- A. Sharing tactical threat intelligence
- B. Sharing strategic threat intelligence
- C. Sharing operational threat intelligence
- D. Sharing technical threat intelligence

**Answer: A**

Explanation:

The exchange of attack techniques, compromised systems, and immediate defensive actions represents Tactical Threat Intelligence sharing.

Tactical Threat Intelligence focuses on adversary Tactics, Techniques, and Procedures (TTPs) and helps defenders understand and counter ongoing attacks in real time.

Why the Other Options Are Incorrect:

- \* B. Operational: Focuses on broader attack campaigns and contextual analysis.
- \* C. Strategic: Provides high-level, long-term insights for executives.
- \* D. Technical: Concerns low-level indicators like IPs and file hashes, not methodologies or immediate actions.

Conclusion:

The collaboration involves Tactical Threat Intelligence, which centers on sharing actionable TTPs and response techniques.

Final Answer: A. Sharing tactical threat intelligence

Explanation Reference (Based on CTIA Study Concepts):

CTIA defines tactical threat intelligence as intelligence describing attacker behaviors and techniques that can be acted upon immediately by defenders.

### NEW QUESTION # 53

Tim is working as an analyst in an ABC organization. His organization had been facing many challenges in converting the raw threat intelligence data into meaningful contextual information. After inspection, he found that it was due to noise obtained from misrepresentation of data from huge data collections. Hence, it is important to clean the data before performing data analysis using techniques such as data reduction. He needs to choose an appropriate threat intelligence framework that automatically performs data collection, filtering, and analysis for his organization.

Which of the following threat intelligence frameworks should he choose to perform such task?

- A. Threat grid
- B. HighCharts
- **C. TC complete**
- D. SIGVERIF

**Answer: C**

### NEW QUESTION # 54

Cybersol Technologies initiated a cyber-threat intelligence program with a team of threat intelligence analysts. During the process, the analysts started converting the raw data into useful information by applying various techniques, such as machine-based techniques, and statistical methods.

In which of the following phases of the threat intelligence lifecycle is the threat intelligence team currently working?

- A. Analysis and production
- **B. Processing and exploitation**
- C. Planning and direction
- D. Dissemination and integration

**Answer: B**

Explanation:

The phase where threat intelligence analysts convert raw data into useful information by applying various techniques, such as machine learning or statistical methods, is known as 'Processing and Exploitation'. During this phase, collected data is processed, standardized, and analyzed to extract relevant information. This is a critical step in the threat intelligence lifecycle, transforming raw data into a format that can be further analyzed and turned into actionable intelligence in the subsequent 'Analysis and Production' phase.
