ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q73-Q78):

NEW QUESTION # 73
Requirements conflict resolution is considered to be part of which major RE task?

- A. Validation
- B. Documentation
- C. Management
- D. Elicitation

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
According to the CPRE syllabus, Requirements Engineering comprises four major tasks: elicitation, documentation, validation and management. Elicitation is not just "collecting" requirements; it also includes dealing with conflicts that emerge when different stakeholders express incompatible needs, expectations or priorities. Conflict analysis, negotiation and resolution are therefore components of elicitation activities.
Validation focuses on checking correctness and quality of documented requirements, while management handles versioning, traceability and change control. Documentation is about representing requirements in suitable forms. Thus, conflict resolution is explicitly placed under elicitation.
