Just the same as the free demo, we have provided three kinds of versions of our PL-900 preparation exam, among which the PDF version is the most popular one. It is understandable that many people give their priority to use paper-based materials rather than learning on computers, and it is quite clear that the PDF version is convenient for our customers to read and print the contents in our PL-900 Study Guide. After printing, you not only can bring the study materials with you wherever you go, but also can make notes on the paper at your liberty. Do not wait and hesitate any longer, your time is precious!

Microsoft Power Platform is a collection of tools and services that provide users with the ability to create custom solutions for their business needs. With Power Apps, users can create custom mobile and web apps without having to write any code. Power BI allows users to create visualizations and reports from their data, while Power Automate enables users to automate repetitive tasks and processes. Together, these tools provide users with a powerful platform to build custom solutions for their organization.

The PL-900 exam consists of 40-60 multiple-choice questions that evaluate an individual's understanding of the core components of the Power Platform, including Power Apps, Power Automate, Power BI, and Power Virtual Agents. PL-900 Exam is intended for individuals who have a basic understanding of business applications and are interested in learning more about the Power Platform. PL-900 exam is also suitable for individuals who are considering a career in the Power Platform or for those who want to explore the capabilities of the platform.
