Salesforce Communications Cloud Accredited Professional AP-203 Prüfungsfragen mit Lösungen (Q43-Q48):

43. Frage

A telecom service provider offers internet, mobile and TV services that can be sold as bundled and independently. Fulfillment consultant designer is designing the orchestration order that contains any combination to consistently improve the customer satisfaction, the consultant need to design a solution that makes the service available to consumers for consumption and support changes for completely fulfilled offers even when other are still being same. what is the recommendation approach for an assets management strategy in this case?

- A. Module the offer as a top level offers, Use staged assetization in orchestration to assetize the offer that have been ordered
- B. Module the offer as a triple play bundle, Use staged assetization in orchestration to assetize the offer that have been ordered
- C. Module each offer as top offer, Use the standard assetization in orchestration to assetize the offer that have been ordered
- D. Module the offer as a triple play bundle, Use standard assetization in orchestration to assetize the offer that have been ordered

Antwort: A

44. Frage

UC sales 8 similar home phone offering commercial offerings to its customers. UC wants commercial offering decompose to the same CFS Technical product. What shall consultant recommend to achieve this requirement.

- A. Create one decomposition relationship each from all commercial offerings to the same technical product
- B. Create multiple decomposition relationship from all commercial offering to the same technical product and set the parent class product to order item
- C. Create multiple decomposition relationship from all commercial offering to the same technical product and set the parent class product to Account.
- D. Create one decomposition relationship each via one parent class product from all commercial offerings

Antwort: D

45. Frage

Universal containers (UC) is a communication using commination cloud and would like to introduce a limited- time offer of their customers. The offer will be available on UC's website through DC APIs and once claimed, will give customers a 10% discount for three months. Which options should a consultant configure to meet the requirement?

- A. Offering
- B. Promotions
- C. Discount
- D. Time Plan

Antwort: B,D

46. Frage

ABC cloud is using communication cloud's order Management for the provision and activations of service. As part of the integration with ERP, the ERP order identifiers are required to be saved in the synchronous response in the SFI order record for the reference and troubleshooting purpose. A consultant has started their design using existing velocity process libraries. What solution should consultant propose to save ERP order identifiers back to salesforce Order record.

- A. Configure response data raptor bundle to process create response from ERP and save returned ERP order identifier to SFI order record
- B. Configure integration procedure in conjunction with Auto Task to perform CREATE order in ERP and process response to save return from ERP order identifiers using Load DataRaptor.
- C. Configure GET ERP order callout task straight after the callout task that create an order in ERP. Enhance out of the box integration adaptor to process GET response from ERP and save returned ERP order identifier to SFI order record
- D. Enhance OOTB integration adaptor to process CREATE response from ERP and save returned ERP order identifier to SFI order record

Antwort: A

47. Frage

Universal containers (UC) is a communication service provider using commination cloud. UC gathered the following from their sales agent about their current legacy system quoting and order capture flows

* They often need to refer back to their documents for routine customer requests

* They are able to handle the majority of customer request themselves despite of current challenges

One of the common MACD transactions is to increase the quality of the assets. What approach should a consultant recommend for designing the quoting and order capture flow in communication cloud to alleviate the agents' feedback while minimizing implementation efforts?

- Antwort: B**
