We provide free trial service before the purchase, the consultation service online after the sale, free update service and the refund service in case the clients fail in the test.

## **CISI Investment Funds in Canada (IFC) Exam Sample Questions (Q52-Q57):**

### **NEW QUESTION # 52**

Details of a client's investment portfolio appear in the following table:

Type of Funds

Amounts Invested (\$)

Canadian equity growth fund

15,000

TSX equity index fund

25,000

Canadian resources fund

75,000

Canadian equity value fund

95,000

What is the primary risk of this investment portfolio?

- A. Counterparty
- B. Interest rate
- C. Foreign exchange
- D. Market

### **Answer: D**

Explanation:

The portfolio shown is heavily concentrated in Canadian equities, across growth, index, resources, and value funds. Since all investments are in equities, the primary risk is market risk (systematic risk), meaning the portfolio's value will fluctuate with overall stock market conditions.

Counterparty risk relates to derivative or trading partners.

Interest rate risk is most relevant to fixed-income securities.

Foreign exchange risk applies to foreign investments.

Thus, the correct answer is Market risk.

### **NEW QUESTION # 53**

Your clients, Philip and Helen, have a disabled son, Alex, age 22. They want to set up a registered disability savings plan (RDSP) for Alex and have asked you for some information.

Which statement is TRUE?

- A. There is no annual or lifetime maximum limit on contributions.
- B. Alex must qualify for the disability tax credit.
- C. Philip and Helen's contributions are refundable to them
- D. Philip and Helen's contributions are tax-deductible.

### **Answer: B**

Explanation:

A registered disability savings plan (RDSP) is a savings plan intended to help parents and others save for the long-term financial security of a person who is eligible for the disability tax credit (DTC). The DTC is a non-refundable tax credit that helps persons with disabilities or their supporting persons reduce the amount of income tax they may have to pay. To be eligible for the DTC, a person must have a severe and prolonged impairment in physical or mental functions, as defined by the Income Tax Act and as certified by a medical practitioner. Therefore, Alex must qualify for the DTC in order to be eligible for an RDSP. References: What is a registered disability savings plan (RDSP) - Canada.ca, Disability tax credit - Canada.ca

### **NEW QUESTION # 54**

Sarah and Kyle are a married couple. They are both 34 years of age and work as teachers. Their combined annual income is

\$130,000. They are able to save \$800 each month. They own a home worth \$340,000 with a \$120,000 mortgage. Since they work for the same employer, they have the same defined benefit pension plan. Other than a tax-free savings account (TFSA) in Kyle's name with \$5,000, they do not have any other assets. They are avid sailors and want to save towards a purchase of a sailboat. For the type of sailboat they want, they estimate it should cost around \$65,000. They want you to recommend an investment for their monthly savings to help them achieve their goal faster. What question should you ask them next?

- A. How would you feel if you lost part of your money in the short-term?
- B. What is your net worth?
- C. How much do you make individually each year?
- D. **What is your investment objective for these savings?**

**Answer: D**

Explanation:

The question that you should ask Sarah and Kyle next is what is their investment objective for these savings.

An investment objective is a statement that defines the purpose and goals of an investment. It helps investors and advisors select suitable investment products and strategies that match the investor's needs and expectations. An investment objective typically considers factors such as risk tolerance, return expectations, time horizon, liquidity needs, tax situation, and personal preferences. Therefore, option B is the correct question to ask Sarah and Kyle next. The other options are not relevant or sufficient to determine their investment objective. Option A is related to their risk tolerance, but it is not the only factor that affects their investment objective. Option C is related to their net worth, but it does not indicate their purpose and goals for their savings. Option D is related to their income, but it does not reflect their return expectations or liquidity needs for their savings. #### **NEW QUESTION # 55**

Apex Mutual Fund has been structured to avoid taxation by distributing any net interest, dividends, and capital gains to unitholders each calendar year. This is an example of what type of mutual fund structure?

- A. Closed-end mutual fund
- B. Open-ended mutual fund
- C. Mutual fund corporation
- D. **Mutual fund trust**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

A mutual fund trust structure allows the fund to avoid taxation by distributing its income to unitholders. The feedback from the document states:

"The most common structure for mutual funds in Canada is the open-end trust. The trust structure allows a fund itself to avoid taxation. Any interest, dividends and capital gains income, net of the fund's fees, expenses and capital losses, if passed to its unitholders each calendar year, will allow the trust to avoid being taxed on its income." #### **NEW QUESTION # 56**

Based on return and performance, which fund should be recommended?

- A. JKL
- B. GHI
- C. ABC
- D. DEF

**Answer: C**

Explanation:

Without the actual fund performance table (DEF, GHI, ABC, JKL), the CSC method of fund recommendation is:

Select the fund with the best risk-adjusted return (Sharpe ratio, quartile rankings, consistency).

Avoid funds with high volatility or inconsistent performance.

If you provide the return & performance details (quartile/Sharpe data) for DEF, GHI, ABC, and JKL, I can give the precise fund recommendation.

## NEW QUESTION # 57

.....

If you can pass the exam just one time, then you will save both your money and your time. IFC exam braindumps can help you pass the exam just one time.
