We offer you free update for one year and the update version for C-SIGDA-2403 exam dumps will be sent to your email automatically.

SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q39-Q44):

NEW QUESTION # 39

What is the first step in starting an analysis in SAP Signavio Process Intelligence?

- A. Create a new process
- **B. Create a new investigation**
- C. Upload the event log
- D. Analyze Process Discovery Widget

Answer: B

NEW QUESTION # 40

What are some benefits of using metrics in SAP Signavio Process Intelligence?Note: There are 2 correct answers to this question.

Answer:

Explanation:

B.D

NEW QUESTION # 41

How would you explain process transparency in the context of Business Process Management?

- A. Start an investigation to grasp all relevant data at a glance
- **B. Structure all processes and provide drill-down navigation from the value-chain level to the actual process**
- C. Highlight departmental boundaries in larger process models
- D. Automate processes into the company process structure

Answer: B

Explanation:

Process transparency in Business Process Management ensures stakeholders have clear visibility into process structures and performance. The SAP Signavio Process Transformation Suite Documentation explains:

* Exact Extract:"Process transparency in BPM is achieved by structuring all processes hierarchically and providing drill-down navigation from high-level value chains to detailed process models, enabling stakeholders to understand process flows and performance at various levels." (SAP Signavio Process Transformation Suite Overview, section on "Process Transparency").

* Explanation:

* Option B (Structure all processes and provide drill-down navigation from the value-chain level to the actual process):This is correct as process transparency involves organizing processes in a hierarchical structure (e.g., value chains to subprocesses) and enabling users to navigate from high-level overviews to detailed models, as supported by SAP Signavio Process Manager and Collaboration Hub.

* Option A (Highlight departmental boundaries in larger process models)is incorrect as transparency focuses on process clarity, not emphasizing departmental divisions, which may be a modeling choice but not the definition.

* Option C (Automate processes into the company process structure)is incorrect because automation is a separate BPM activity, not a component of transparency.

* Option D (Start an investigation to grasp all relevant data at a glance)is incorrect as investigations are specific to Process Intelligence analysis, not the broader concept of BPM transparency.

Reference:SAP Signavio Process Transformation Suite Overview, section on "Process Transparency"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 2: BPM Concepts.

NEW QUESTION # 42

What is the SAP Signavio Process Collaboration Hub?Note: There are 2 correct answers to this question.

- A. A platform where modelers can invite stakeholders to collaborate on a process
- B. A single source of truth for process-related information
- **C. A central entry point for all business processes and business process users**
- D. A feature to document processes using a table-based approach

Answer: C

What is a Query?

- Answer: D**
