The Best COBIT-Design-and-Implementation Key Concepts | Realistic COBIT-Design-and-Implementation Exam Objectives and New Latest ISACA COBIT Design and Implementation Certificate Exam Pass4sure

TestkingPass trusts in displacing all the qualms before believing us. Now, you don't need to the conviction in words, as action speaks louder than words, that is why we recommend you to try the free demo of COBIT-Design-and-Implementation exam practice questions software. Also, we offer you with 24/7 customer services for any inconvenience. Our support team is always in action and ready to help, if you have any question regarding the COBIT-Design-and-Implementation Exam, so you can get in contact, our support team will always help you with the best solution.

We offer free demos as your experimental tryout before downloading our real COBIT-Design-and-Implementation actual exam. And as the COBIT-Design-and-Implementation exam braindumps have three versions: the PDF, Software and APP online. Accordingly we have three kinds of the free demos for you to download. For more textual content about practicing exam questions, you can download our COBIT-Design-and-Implementation Training Materials with reasonable prices and get your practice begin within 5 minutes.

COBIT-Design-and-Implementation Exam Objectives | Latest COBIT-Design-and-Implementation Exam Pass4sure

I can assure you that we will provide considerate on line after sale service for you in twenty four hours a day, seven days a week. Therefore, after buying our COBIT-Design-and-Implementation study guide, if you have any questions about our COBIT-Design-and-Implementation study materials, please just feel free to contact with our online after sale service staffs. We are pleased to give you the best and the most professinal suggestions on every aspect on the COBIT-Design-and-Implementation learning questions. You can contact and ask your question now!

ISACA COBIT Design and Implementation Certificate Sample Questions (Q42-Q47):

NEW QUESTION # 42
An enterprise is considering threat landscape as a design factor for its governance system. Which of the following would be a reason to classify the threat landscape as high?

- A. IT trends that could be used in favor of the enterprise
- B. Geopolitical situations affecting the enterprise
- C. Potential new competitors entering the market

- D. Service delivery problems byIT outsourcers

Answer: B

Explanation:
An enterprise would classify the threat landscape as high if geopolitical situations are affecting the enterprise.
Geopolitical factors can introduce significant risks, such as instability, regulatory changes, or economic sanctions, which can have a profound impact on the enterprise's operations and strategic goals.
In COBIT 2019, the threat landscape design factor considers various external threats that could impact the enterprise. Geopolitical situations are a significant external factor that can elevate the threat landscape due to potential disruptions and increased risks.
COBIT 2019 Framework References:
* COBIT 2019 Design Guide, Chapter 2:Discusses the importance of assessing external threats, including geopolitical situations, when evaluating the threat landscape.
* COBIT 2019 Implementation Guide, Chapter 7:Emphasizes the need to consider external factors such as geopolitical risks in the governance system design.
Classifying the threat landscape as high due to geopolitical situations ensures that the enterprise proactively addresses these risks and implements appropriate governance and risk management strategies to mitigate potential impacts.

NEW QUESTION # 43
Who is responsible for monitoring the achievement of the overall EGIT implementation program plan results, including the achievement of goals and realization of benefits?

- A. Program steering committee
- B. IT process owners
- C. ICIO
- D. IT managers

Answer: A

Explanation:
The program steering committee is responsible for monitoring the achievement of the overall EGIT (Enterprise Governance of Information and Technology) implementation program plan results, including the achievement of goals and realization of benefits.
The program steering committee provides oversight and governance for the EGIT implementation program.
This committee ensures that the program is aligned with strategic objectives, monitors progress, and ensures that the desired benefits are realized. They are accountable for the overall success of the implementation.
COBIT 2019 Framework References:
* COBIT 2019 Implementation Guide, Chapter 7:Details the roles and responsibilities of the program steering committee in overseeing the implementation of the governance system.
* COBIT 2019 Design Guide, Chapter 4:Emphasizes the importance of having a steering committee to provide strategic direction and oversight for the implementation program.
By having the program steering committee monitor the achievement of the EGIT program plan, the enterprise ensures that there is accountability and alignment with business goals.

NEW QUESTION # 44
When designing an IT governance system, which of the following IT implementation methods would represent a broader scope covering software building, deployment and operations?

- A. DevOps
- B. Agile
- C. Traditional
- D. Hybrid

Answer: A

Explanation:
COBIT 2019 explicitly recognizes IT implementation methods as a design factor that influences governance system design. Among the listed methods, DevOps is described as having the broadest scope, integrating software development, deployment, operations, and continuous improvement into a single lifecycle.
Agile focuses primarily on iterative development and responsiveness to change, but does not inherently include operational

responsibility. Traditional methods emphasize sequential development and handover to operations, creating clear silos. Hybrid approaches combine elements but still lack full lifecycle integration.

The Design Guide emphasizes that when DevOps is selected as a design factor value, governance must address end-to-end accountability, automation, continuous delivery, and operational resilience. This directly affects governance objectives such as solution build, transition, and operations. DevOps therefore represents the most comprehensive scope, covering build, deploy, run, and improve activities in a unified model.

NEW QUESTION # 45

During CSF life cycle action plan review, which of the following tasks is associated with realizing benefits?

- A. Developing business cases indicating success factors
- B. Monitoring performance against objectives
- C. Documenting risk issues and remediation plans

Answer: B

Explanation:

During the Critical Success Factor (CSF) life cycle action plan review, the task associated with realizing benefits is "Monitoring performance against objectives." This task ensures that the expected benefits of the IT initiatives are being achieved by continuously assessing performance and making necessary adjustments.

Monitoring performance against objectives involves tracking the progress of IT initiatives to ensure they meet their goals and deliver the expected benefits. This includes using performance metrics, key performance indicators (KPIs), and regular reviews to evaluate whether the initiatives are on track and delivering value.

COBIT 2019 Framework References:

* COBIT 2019 Implementation Guide, Chapter 7:Emphasizes the importance of monitoring and measuring performance to ensure that benefits are realized and objectives are met.

* COBIT 2019 Design Guide, Chapter 4:Highlights the role of performance monitoring in managing and achieving IT governance and management objectives.

By monitoring performance against objectives, enterprises can ensure that their IT initiatives are successful and provide the intended benefits, making it a critical task in the CSF life cycle action plan review.

NEW QUESTION # 46

Ensuring the program team knows and understands the enterprise goals is a part of which of the following implementation phases?

- A. How do we get there?
- B. What are the drivers?
- C. Where are we now?
- D. Where do we want to be?

Answer: B

Explanation:

In the COBIT 2019 Implementation Guide, Phase 1 - What are the drivers? focuses on establishing a shared understanding of why change is needed. This includes clarifying enterprise goals, strategic priorities, and stakeholder expectations.

Before assessing current state or defining a target state, the implementation team must understand what the enterprise is trying to achieve. Without this understanding, governance improvements risk being misaligned or ineffective.

The guide explicitly links drivers to enterprise goals, pain points, and trigger events. Ensuring the program team understands enterprise goals at this stage enables consistent decision-making throughout the implementation lifecycle and supports alignment between governance activities and business value creation.

NEW QUESTION # 47

......

TestkingPass provides 24/7 customer support to answer any of your queries or concerns regarding the ISACA COBIT Design and Implementation Certificate (COBIT-Design-and-Implementation) certification exam. They have a team of highly skilled and experienced professionals who have a thorough knowledge of the ISACA COBIT Design and Implementation Certificate (COBIT-Design-and-Implementation) exam questions and format. With the aim of helping aspirants to achieve the ISACA COBIT Design

and Implementation Certificate (COBIT-Design-and-Implementation) certification, TestkingPass is committed to providing the best quality and updated ISACA COBIT-Design-and-Implementation exam dumps.

COBIT-Design-and-Implementation Exam Objectives: https://www.testkingpass.com/COBIT-Design-and-Implementation-testking-dumps.html

With the help of COBIT-Design-and-Implementation Exam Objectives - ISACA COBIT Design and Implementation Certificate valid simulator, I believe you can pass with ease, One of the most important term of COBIT-Design-and-Implementation Exam Objectives - ISACA COBIT Design and Implementation Certificate exam pdf vce is the PDF version, it is very easy to read and also can be printed which convenient for you to take notes, It is quite wonderful that the software version can simulate the real COBIT-Design-and-Implementation examination for all of the users in windows operation system, If you study our COBIT-Design-and-Implementation dumps torrent and remember answers seriously, passing exam is 100% guaranteed.

Keynesians also stress that this is how it COBIT-Design-and-Implementation Reliable Braindumps Pdf has been for decades, with interest rates tending to fall during periods when public deficits increased, Partitioning greatly enhances COBIT-Design-and-Implementation Latest Test Practice database performance, which can be monitored and adjusted in a variety of ways.

100% Pass 2026 COBIT-Design-and-Implementation: The Best ISACA COBIT Design and Implementation Certificate Key Concepts

With the help of ISACA COBIT Design and Implementation Certificate valid simulator, COBIT-Design-and-Implementation Latest Test Practice I believe you can pass with ease, One of the most important term of ISACA COBIT Design and Implementation Certificate exam pdf vce is the PDF version, it is COBIT-Design-and-Implementation very easy to read and also can be printed which convenient for you to take notes.

It is quite wonderful that the software version can simulate the real COBIT-Design-and-Implementation examination for all of the users in windows operation system, If you study our COBIT-Design-and-Implementation dumps torrent and remember answers seriously, passing exam is 100% guaranteed.

We provide 100% passing guarantee.
