PECB Certified ISO/IEC 27001 Lead Auditor exam (ISO-IEC-27001-Lead-Auditor中文版) Sample Questions (Q211-Q216):

NEW QUESTION # 211

組織 A 的審核員對供應商 B 進行審核。

- A. 與 B 的資安經理分享調查結果
- B. 與 A 的供應商評估團隊分享調查結果
- C. 與 A 中的其他相關經理分享調查結果
- D. 與 B 的認證機構分享調查結果
- E. 與 B 中的其他相關經理分享調查結果
- F. 與 B 的其他客戶分享調查結果

Answer: C,F

Explanation:

According to the PECB Candidate Handbook1, one of the principles of auditing is confidentiality, which means that auditors should respect the confidentiality of information obtained during the audit and not disclose it to unauthorized parties. The handbook also states that auditors should only report audit results to those who have a legitimate need to know, such as the client, the auditee, and the certification body. Therefore, sharing the findings with other relevant managers in A or B's other customers would be a breach of confidentiality, as they are not directly involved in the audit process or the information security management system of B. Sharing the findings with B's Information Security Manager or other relevant managers in B would be appropriate, as they are part of the auditee organization and responsible for the implementation and improvement of the ISMS. Sharing the findings with A's supplier evaluation team or B's certification body would also be acceptable, as they have a legitimate need to know the audit results for the purpose of supplier selection or certification, respectively. Reference: 1: PECB Candidate Handbook - ISO 27001 Lead Auditor, pages 7-8.

NEW QUESTION # 212

下列哪兩項工作文件不是認證審核員進行審核計畫時所需要的？

- A. 一份清單
- B. IT經理的職業經歷
- C. 範例計劃
- D. 外部提供者列表
- E. 組織的財務報表
- F. 審計計劃

Answer: B,E

Explanation:

Audit planning for certification audits is defined by ISO 19011:2018, clause 6.3 (Preparing audit activities) and ISO/IEC 27006.

Key audit planning documents include:

* Audit plan (mandatory, prepared by team leader)

* Checklists (supporting tool for consistency and coverage of requirements)

* List of external providers (required to check compliance with ISO/IEC 27001 Annex A.5.19 - supplier relationships and A.5.20 - supplier agreements)

* Sample plans (used when sampling evidence across sites, processes, or records is needed, especially in Stage 2 audits) However, the following are not required:

* B. Career history of the IT manager - Personnel competence may be verified during interviews and evidence review, but an auditor does not need career histories as part of audit planning. ISO 19011 only requires access to competence records if needed but not CVs.

* F. Organisation's financial statement - Financial performance is not part of ISMS audit planning unless it relates to identified risks or contractual obligations. ISO/IEC 27001 focuses on information security risks, not financial audit compliance.

ISO 19011:2018 (clause 6.3.2) clearly defines the required planning inputs as:

- * Audit objectives, scope, and criteria
- * Audit team roles and responsibilities
- * Allocation of resources
- * Information about the auditee's ISMS (e.g., documented scope, processes, external provider relationships, relevant legal/regulatory requirements) There is no mention of personnel CVs or financial statements being required.

Final Correct Answer: B and F

References:

ISO 19011:2018, clause 6.3 (Preparing audit activities)

ISO/IEC 27006:2015, section 9.2 (Audit planning requirements for ISMS certification bodies)

NEW QUESTION # 213

下列哪兩個短語適用於與業務流程的計劃-實施-檢查-行動週期相關的「行動」？

- A. 實現改進
- B. 測量目標
- C. 重設目標
- D. 審核流程
- E. 驗證訓練
- F. 計劃變更

Answer: A,C

Explanation:

The Act phase of the PDCA cycle is where the organisation takes actions to improve its processes and performance based on the results of the Check phase. This may involve resetting objectives to make them more realistic, achievable or challenging, or implementing changes to address the root causes of problems and achieve the desired outcomes. The Act phase is also where the organisation monitors the effects of the actions taken and evaluates their effectiveness and efficiency. The Act phase is important because it enables the organisation to learn from its experience and continually improve its ISMS. References: What is 'Plan, Do, Check, Act'? A framework for continuous improvement, PDCA in ISO27001 - Free guide to learn | Dr. Erdal Ozkaya, PECB Candidate Handbook ISO 27001 Lead Auditor (page 12)

NEW QUESTION # 214

問題:

在進行審計活動之前，審計人員考慮了被審計單位的背景、關鍵流程和預期目標。他們應用了哪一項審計原則？

- A. 應有的專業護理
- B. 完整性
- C. 職業懷疑主義

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:

* A. Correct Answer:

* Due professional care refers to auditors carefully considering all relevant factors before initiating an audit.

* In this scenario, the auditors assessed the auditee's context, processes, and expectations, which aligns with ISO 19011:2018 Clause 4 (Principles of Auditing: Due Professional Care).

* B. Incorrect:

* Professional skepticism is about challenging evidence and avoiding assumptions, not about contextual planning.

* C. Incorrect:

* Integrity refers to acting honestly and ethically, which is not the focus here.

Relevant Standard Reference:

* ISO 19011:2018 Clause 4.5 (Due Professional Care)

NEW QUESTION # 215

一家網路安全公司實施了一款存取控制軟體，只允許授權人員存取敏感文件。在這種情況下，公司實施了哪種類型的控制？

- A. 預防控制
- B. 修正控制
- C. 偵探控制

Answer: A

Explanation:

Comprehensive and Detailed In-Depth

A . Preventive Control - Correct Answer. Access control software is designed to prevent unauthorized access by enforcing authentication and authorization mechanisms. This aligns with ISO/IEC 27001:2022 Annex A Control A.5.18 (Access Rights).

B . Detective controls identify and log unauthorized access attempts, but do not prevent them.

C . Corrective controls take action after a security event has occurred.

NEW QUESTION # 216

.....
