Salesforce Administer, Extend, and Automate Salesforce Sample Questions (Q215-Q220):

NEW QUESTION # 215

Which three features are supported in delegated administration?

- A. Unlock Communities users
- B. Unlock non-Communities users
- C. Manage custom objects
- D. Create and edit users
- E. Set org-wide sharing defaults

Answer: B,C,D

NEW QUESTION # 216

Support staff at Cloud Kicks work on multiple accounts and opportunities at the same time. Currently, they are switching between browser tabs, which is tedious and confusing. Support managers put in a request for a better agent experience. What should an administrator recommend?

- A. Create a screen flow to pull all related opportunities onto one page.
- B. Configure Split Lit Views.
- C. Implement Service Console.
- D. Enable Subtab Record Browsing in the Setup menu.

Answer: C

NEW QUESTION # 217

DreamHouse Realty wants to notify an assigned agent when an appointment is booked on a custom object for one of their listed homes along with the total number of appointments booked so far. The administrator has configured a Roll-up Summary for the number of appointments as well as a flow to detect the creation of a new appointment and send the information to the agent. What consideration about process automation should the administrator be aware of to ensure the right information is delivered?

- A. Roll-up Summary calculations run after processes and workflows.
- B. Roll-up Summary calculations will prevent a Flow from being triggered.
- C. Only standard objects can be used with Roll-up Summary fields.
- D. Flows can only be triggered from the records created on standard objects.

Answer: A

NEW QUESTION # 218

Cloud Kicks (CK) completed a project in a sandbox environment and wants to migrate the changes to production. CK split the deployment into two distinct change sets. Change set 1 has new custom objects and fields. Change set 2 has updated profiles and automation.

What should the administrator consider before deploying the change sets?

- A. Automations need to be deployed in the same change set in order to be activated.
- B. The Field-Level Security will not be deployed with the profiles in change set 2.
- C. Change set 2 needs to be deployed first.
- D. Both change sets must be deployed simultaneously.
