

2026 FCP_FGT_AD-7.6–100% Free Vce Format | Useful FCP_FGT_AD-7.6 Reliable Practice Materials

2026 Latest PassReview FCP_FGT_AD-7.6 PDF Dumps and FCP_FGT_AD-7.6 Exam Engine Free Share:
<https://drive.google.com/open?id=1o5tZ4NAsF4GdvFNzt5OOSXWSmYjta4a>

If you study on our FCP_FGT_AD-7.6 study engine, your preparation time of the FCP_FGT_AD-7.6 exam will be greatly shortened. Firstly, the important knowledge has been picked out by our professional experts. You just need to spend about twenty to thirty hours before taking the Real FCP_FGT_AD-7.6 Exam. Also, our workers have made many efforts on the design of the system. You will never feel bored when you study on our FCP_FGT_AD-7.6 preparation materials. You will find learning can also be a pleasant process.

It is of no exaggeration to say that sometimes a certification is exactly a stepping-stone to success, especially when you are hunting for a job. The FCP_FGT_AD-7.6 study materials are of great help in this sense. People with initiative and drive all want to get a good job, and if someone already gets one, he or she will push for better position and higher salaries. With the FCP_FGT_AD-7.6 test training, you can both have the confidence and gumption to ask for better treatment. To earn such a material, you can spend some time to study our FCP_FGT_AD-7.6 study torrent. No study can be done successfully without a specific goal and a powerful drive, and here to earn a better living by getting promotion is a good one.

FCP_FGT_AD-7.6 Prep4king Vce & FCP_FGT_AD-7.6 Examcollection Torrent & FCP_FGT_AD-7.6 Valid Questions

Some candidates may think that to get a certification cost too much time and efforts, but if they find the right exam materials, they will change their mind. Our FCP_FGT_AD-7.6 study questions will not occupy you much time. Whenever you have spare time, you can learn and memorize some questions and answers of our FCP_FGT_AD-7.6 Exam simulation. Gradually, you will learn much knowledge and become totally different from past. You will regret to miss our FCP_FGT_AD-7.6 practice materials. Come to purchase our FCP_FGT_AD-7.6 learning guide!

Fortinet FCP_FGT_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Firewall policies and authentication: This section of the exam measures the skills of firewall administrators and covers the implementation and management of security policies. It involves configuring basic and advanced firewall rules, applying Source NAT (SNAT) and Destination NAT (DNAT) options, and enforcing various firewall authentication methods. The section also includes deploying and configuring Fortinet Single Sign-On (FSSO) to streamline user access across the network.

Topic 2	<ul style="list-style-type: none"> Content inspection: This section of the exam measures the skills of network security engineers and covers the setup and management of content inspection features on FortiGate. Candidates must demonstrate an understanding of encrypted traffic inspection using digital certificates, identify and apply FortiGate inspection modes, and configure web filtering policies. The ability to implement application control for monitoring and regulating network application usage, configure antivirus profiles to detect and block malware, and set up Intrusion Prevention Systems (IPS) to shield the network from threats and vulnerabilities is also assessed.
Topic 3	<ul style="list-style-type: none"> VPN: This section of the exam measures the skills of network security engineers and covers the configuration and deployment of Virtual Private Network (VPN) solutions. Candidates are required to implement SSL VPNs to grant secure remote access to internal resources and configure IPsec VPNs in either meshed or partially redundant topologies to ensure encrypted communication between distributed network locations.
Topic 4	<ul style="list-style-type: none"> Routing: This section of the exam measures the skills of firewall administrators and covers the configuration of routing features on FortiGate devices. It includes defining and applying static routes for directing traffic within and outside the network, as well as setting up Software-Defined WAN (SD-WAN) to distribute and balance traffic loads across multiple WAN connections efficiently.
Topic 5	<ul style="list-style-type: none"> Deployment and system configuration: This section of the exam measures the skills of network security engineers and covers essential tasks for setting up a FortiGate device in a production environment. Candidates are expected to perform the initial configuration, establish basic connectivity, and integrate the device within the Fortinet Security Fabric. They must also be able to configure a FortiGate Cluster Protocol (FGCP) high availability setup and troubleshoot resource and connectivity issues to ensure system readiness and network uptime.

Fortinet FCP - FortiGate 7.6 Administrator Sample Questions (Q128-Q133):

NEW QUESTION # 128

Refer to the exhibit.

```
config system global
    set av-failopen one-shot
end
config ips global
    set failopen enable
end
```

Based on this partial configuration, what are the two possible outcomes when FortiGate enters conserve mode? (Choose two.)

- A. FortiGate skips quarantine actions.
- B. Administrators cannot change the configuration.
- C. Administrators must restart FortiGate to allow new session.
- D. FortiGate drops new sessions requiring inspection.

Answer: A,D

Explanation:

In fail-open mode, FortiGate skips quarantine actions to maintain traffic flow despite IPS or antivirus failures.

FortiGate drops new sessions that require inspection when in conserve mode and fail-open is enabled, to protect the network from potentially harmful traffic.

NEW QUESTION # 129

Refer to the exhibit.

FortiGate web filter profile configuration

The screenshot shows the 'Edit Web Filter Profile' configuration page for a profile named 'Corporate'. The 'Feature set' is 'Flow-based'. The 'FortiGuard Category Based Filter' section is active, showing a table of categories and their actions. The categories are grouped into 'Bandwidth Consuming' and 'Security Risk'. The 'Action' column shows 'Allow' for most categories and 'Block' for 'Malicious Websites'. A '35%' progress indicator is visible at the bottom right.

Name	Action
Bandwidth Consuming	
Freeware and Software Downloads	Allow
File Sharing and Storage	Allow
Streaming Media and Download	Allow
Peer-to-peer File Sharing	Allow
Internet Radio and TV	Allow
Internet Telephony	Allow
Security Risk	
Malicious Websites	Block

The exhibit shows the FortiGuard Category Based Filter section of a corporate web filter profile.

An administrator must block access to `download.com`, which belongs to the Freeware and Software Downloads category. The administrator must also allow other websites in the same category.

What are two solutions for satisfying the requirement? (Choose two.)

- A. Set the Freeware and Software Downloads category Action to Warning.
- B. Configure a static URL filter entry for `download.com` with Type and Action set to Wildcard and Block, respectively.
- C. Configure a separate firewall policy with action Deny and an FQDN address object for `*.download.com` as destination address.
- D. Configure a web override rating for `download.com` and select Malicious Websites as the subcategory.

Answer: B,D

NEW QUESTION # 130

Refer to the exhibits. The exhibits show the system performance output and default configuration of high memory usage thresholds on a FortiGate device.

System Performance output

```
# get system performance status
CPU states: 0% user 0% system 0% nice 100% idle 0% iowait 0% irq 0% softirq
CPU0 states: 0% user 0% system 0% nice 100% idle 0% iowait 0% irq 0% softirq
Memory: 2061108k total, 1854997k used (90%), 106111k free (5.1%), 100000k freeable (4.8%)
Average network usage: 83 / 0 kbps in 1 minute, 81 / 0 kbps in 10 minutes, 81 / 0 kbps in 30
minutes
Average sessions: 5 sessions in 1 minute, 3 sessions in 10 minutes, 3 sessions in 30 minutes
Average session setup rate: 0 sessions per second in last 1 minute, 0 sessions per second in last
10 minutes, 0 sessions per second in last 30 minutes
Virus caught: 0 total in 1 minute
IPS attacks blocked: 0 total in 1 minute
Uptime: 10 days, 3 hours, 28 minutes
```

Memory usage threshold settings

```
config system global
  set memory-use-threshold-red 88
  set memory-use-threshold-extreme 95
  set memory-use-threshold-green 82
end
```

Based on the system performance output, what are the two possible outcomes? (Choose two.)

- A. Administrators can access FortiGate only through the console port.
- B. FortiGate has entered conserve mode.
- C. Administrators can change the configuration.
- D. FortiGate drops new sessions.

Answer: B,D

NEW QUESTION # 131

Refer to the exhibit. Which algorithm does SD-WAN use to distribute traffic that does not match any of the SD-WAN rules?

ID	Name	Source	Destination	Criteria	Members
IPv4 3					
1	Critical-DIA	4 LOCAL_SUBNET	Slack-Slack Dropbox-Web Bloomberg		port1 ✓ port2 ✓
2	Non-Critical-DIA	4 LOCAL_SUBNET	Addicting.Games Social.Media	Bandwidth	port2 ✓
3	Default-Internet	4 LOCAL_SUBNET	4 REMOTE_SUBNET	Latency	port1 port2
Implicit 1					
	sd-wan	4 all	4 all	Source-Destination IP	any

- A. All traffic from a source IP is sent to the same interface
- B. All traffic from a source IP to a destination IP is sent to the same interface.
- C. Traffic is sent to the link with the lowest latency.
- D. Traffic is distributed based on the number of sessions through each interface.

Answer: B

Explanation:

For traffic that does not match any of the defined SD-WAN rules, the default implicit SD-WAN rule is applied. By default, the FortiGate uses a "source-destination IP-based" algorithm, which means all traffic from a specific source IP to a specific destination IP is sent through the same interface.

This ensures that a consistent path is used for traffic between the same source and destination IP addresses.

NEW QUESTION # 132

Refer to the exhibit.

Profile Name
Monitoring_Access
NOC_Access
prof_admin
super_admin

The NOC team connects to the FortiGate GUI with the NOC_Access admin profile. They request that their GUI sessions do not disconnect too early during inactivity.

What must the administrator configure to answer this specific request from the NOC team?

- A. Increase the offline value of the Override Idle Timeout parameter in the NOC_Access admin profile.
- B. Ensure that all NOC_Access users are assigned the super_admin role to guarantee access
- C. Move NOC_Access to the top of the list to ensure all profile settings take effect.
- **D. Increase the admintimeout value under config system accprofile NOC_Access.**

Answer: D

Explanation:

The admintimeout setting in the admin access profile controls the inactivity timeout for GUI sessions. Increasing this value will extend the session duration before automatic disconnection.

NEW QUESTION # 133

.....

Getting the FCP - FortiGate 7.6 Administrator certification exam is necessary in order to get a job in your desired tech company. Success in the FCP - FortiGate 7.6 Administrator (FCP_FGT_AD-7.6) certification exam gives you an edge over the others because you will have certified skills. The FCP - FortiGate 7.6 Administrator certification exam badge will make a good impression on the interviewer. Most of the people planning to attempt the FCP_FGT_AD-7.6 Exam are confused that how will they prepare and pass FCP_FGT_AD-7.6 exam with good grades.
