

Free PDF Quiz Valid Cyber AB - CMMC-CCA - Certified CMMC Assessor (CCA) Exam Latest Braindumps Sheet

DOWNLOAD the newest TestBraindump CMMC-CCA PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1Wt3jDnjqrTZjxLOzAFWJgFOC5-F1Ihj>

Our CMMC-CCA study guide can energize exam candidate as long as you are determined to win. During your preparation period, all scientific and clear content can help you control all CMMC-CCA exam questions appearing in the real exam, and we never confirm to stereotype being used many years ago but try to be innovative at all aspects. As long as you click into the link of our CMMC-CCA Learning Engine, you will find that our CMMC-CCA practice quiz are convenient and perfect!

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.
Topic 2	<ul style="list-style-type: none">CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.
Topic 3	<ul style="list-style-type: none">Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.

Topic 4	<ul style="list-style-type: none"> • CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.

CMMC-CCA Dumps Torrent, Reliable CMMC-CCA Test Bootcamp

TestBraindump is unlike other exam materials that are available on the market, CMMC-CCA study torrent specially proposed different versions to allow you to learn not only on paper, but also to use mobile phones to learn. You can choose the version of CMMC-CCA training guide according to your interests and habits. And if you buy the value pack, you have all of the three versions, the price is quite preferential and you can enjoy all of the study experiences. This means you can study CMMC-CCA Exam Engine anytime and anyplace for the convenience these three versions bring.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q41-Q46):

NEW QUESTION # 41

John, a Certified CMMC Assessor, has been conducting CMMC assessments for several years. During a recent assessment at a defense contractor, he encountered several issues similar to challenges he had faced in previous assessments. Influenced by his past experiences, John's interpretation of the contractor's practices was shaped by his preconceptions. Which of the following is TRUE about John's interpretation?

- A. John's experience ensures that all assessments will be unbiased and accurate
- B. John's preconceptions help streamline the assessment process and ensure consistency
- C. John's bias can affect the integrity of the CMMC assessment
- D. John's bias has no impact on the integrity of the assessment

Answer: C

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CMMC Assessment Process (CAP) emphasizes that assessor bias, whether stemming from past experiences or other factors, can compromise the objectivity and integrity of an assessment. John's preconceptions, based on prior encounters, may lead him to misinterpret evidence, either overly critically or leniently, rather than evaluating the OSC's practices in their current context. This aligns with CAP's requirement for assessors to remain impartial and focus on objective evidence specific to each assessment. Option A (no impact) contradicts CAP's guidance on bias management. Option C (experience ensures unbiased accuracy) overstates experience's role, ignoring bias risks. Option D (streamlining via preconceptions) misrepresents bias as beneficial, whereas it risks inconsistency. Option B correctly identifies the potential impact on assessment integrity, making it the correct answer.

Reference Extract:

* CMMC Assessment Process (CAP) v1.0, Section 2.3:"Assessor experiences can affect outcomes... Bias must be managed to maintain assessment integrity."Resources:<https://cyberab.org/Portals/0/Documents/Process-Documents/CMMC-Assessment-Process-CAP-v1.0.pdf>

NEW QUESTION # 42

You are the Lead Assessor for a C3PAO Assessment Team that has recently completed a CMMC Level 2 assessment for an OSC. You and your Assessment Team have finalized the assessment process and are now in Phase 3 - Report Recommended Assessment Results. You are preparing to deliver the final recommended findings to the OSC Assessment Official and OSC participants during the Final Findings Briefing. In addition to presenting the Final Recommended Findings, what other information must you include during the Final Findings Briefing?

- A. The details of the CMMC practice scores, including clear traceability from each finding, score, and practice MET/NOT MET status.
- B. The OSC's Pre-Assessment information.

- C. The Daily Checkpoint records.
- D. The CMMC Recommended Assessment Results.

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP requires the Final Findings Briefing to include detailed practice scores with traceability, beyond just findings (Option A), records (Option B), or pre-assessment data (Option C). Option D is the full requirement.

Extract from Official Document (CAP v1.0):

* Section 3.2 - Final Findings Briefing (pg. 32): "Present the details of the CMMC practice scores, including clear traceability from each finding, score, and practice MET/NOT MET status." References:

CMMC Assessment Process (CAP) v1.0, Section 3.2.

NEW QUESTION # 43

Assessing a DoD contractor, you observe they have implemented physical security measures to protect their facility housing organizational systems that process or store CUI. The facility has secure locks on all entrances, exits, and windows. Additionally, video surveillance cameras are installed at entry/exit points, and their feeds are monitored by security personnel. Feeds from areas where CUI is processed or stored and meeting rooms where executives meet to discuss things that have to do with CUI and other sensitive matters are segregated and stored on a designated server after monitoring. Walking around the facility, you notice network cables are hanging from the walls. To pass through a door, personnel must swipe their access cards.

However, you observe an employee holding the door for others to enter. Although power cables are placed in wiring closets, they aren't locked, and the cabling conduits are damaged. Which of the following is NOT a concern regarding the contractor's implementation of CMMC practice PE.L2-3.10.2 - Monitor Facility?

- A. Network cables hanging from the walls
- B. Unlocked wiring closets
- C. Damaged cable conduits
- **D. Video surveillance monitoring at entry/exit points**

Answer: D

Explanation:

Comprehensive and Detailed In-Depth Explanation:

PE.L2-3.10.2 requires "protecting and monitoring the physical facility and support infrastructure." Video surveillance at entry/exit points (A) is a strength, not a concern, fulfilling monitoring requirements. Unlocked wiring closets (B), exposed network cables (C), and damaged conduits (D) are vulnerabilities risking tampering or unauthorized access to infrastructure supporting CUI systems, per the CMMC guide.

Extract from Official CMMC Documentation:

* CMMC Assessment Guide Level 2 (v2.0), PE.L2-3.10.2: "Monitor facility with cameras; protect infrastructure from tampering."

* NIST SP 800-171A, 3.10.2: "Examine monitoring and protection of physical assets." Resources:

* https://dodcio.defense.gov/Portals/0/Documents/CMMC/AG_Level2_MasterV2.0_FINAL_202112016_508.pdf

NEW QUESTION # 44

The Lead Assessor is reviewing the Assessment Plan to identify people for interviews regarding a specific Level 2 practice. Some OSC personnel previously interviewed provided only brief answers without meaningful verification. What can the Lead Assessor do to improve this situation going forward?

- A. Ensure the respondents sign a non-disclosure agreement for the OSC
- **B. Ensure and verify confidentiality and non-attribution of responses**
- C. Ensure and verify the responses map to the documented artifacts
- D. Ensure the people from the training matrix are made available

Answer: B

Explanation:

The CMMC Assessment Process emphasizes the importance of confidentiality and non-attribution in interviews to ensure OSC personnel provide candid, accurate information. Interviewees may give shallow or evasive answers if they fear attribution. Assuring

confidentiality and non-attribution improves the quality and reliability of responses.

Exact extracts:

- * "The assessment team must ensure confidentiality and non-attribution during interviews."
- * "Responses should be validated against evidence, but the quality of input depends on establishing a safe environment for candor."
- * "Non-attribution is critical to elicit detailed and honest responses." Why the other options are incorrect:
- * A: Training matrices identify who is trained, not who should be interviewed.
- * C: NDAs are not a CCA responsibility - they are contractual, not assessment requirements.
- * D: Mapping to artifacts is part of correlation after interviews, but does not solve the problem of poor interview responses.

References:

CMMC Assessment Process (CAP), interview methodology.

CCA Exam Study Guide, section on interviews.

NEW QUESTION # 45

In order to assess whether an OSC meets AC.L2-3.1.5: Least Privilege, what should be examined by the Assessor?

- A. List of terminated employees over the last three months
- B. Authentication policy
- C. User access lists that identify privileged users
- D. System configurations for all systems

Answer: C

Explanation:

The requirement of least privilege mandates that users be granted only the access necessary to perform their duties. Assessors confirm compliance by reviewing user access lists, ensuring privileged access is limited, documented, and assigned only where required.

Exact Extracts:

- * AC.L2-3.1.5: "Employ the principle of least privilege, including for specific security functions and privileged accounts."
- * Assessment Guide: "Evidence includes user access lists, role-based access assignments, and documentation of privileged accounts."
- * NIST SP 800-171A Objective: "Examine system access lists, rights, and permissions for least privilege." Why other options are not correct:
- * A (Authentication policy): Pertains to verifying identity, not enforcing least privilege.
- * B (System configurations): Provide technical settings, but access lists are the primary evidence for least privilege.
- * D (Terminated employees list): Tied to AC.L2-3.1.2 (Access enforcement) and AC.L2-3.1.7 (Account management), not least privilege.

References:

CMMC Assessment Guide - Level 2, Version 2.13: AC.L2-3.1.5 (pp. 17-19).

NIST SP 800-171A: Assessment procedures for least privilege.

NEW QUESTION # 46

.....

If you buy the CMMC-CCA study materials online, you may concern the safety of your money. If you do have the concern, you can just choose us. We use the international recognition third party for the payment. It will ensure the safety of your money. We are pass guaranteed if you buy CMMC-CCA Exam Dumps of us, we also money back guarantee if you fail to pass the exam. If you find that your rights haven't got enough guaranteed, you can ask for refund, and the third party will protect your interests.
