SAP Certified Associate - Positioning SAP Business Suite via SAP Supply Chain Management Solutions Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which key points should be discussed when presenting SAP Business Suite to the COO? Note: There are 3 correct answers to this question.

- A. Automated financial processes
- B. Real-time visibility
- C. Integrated processes
- D. Competitive AI capabilities
- E. Expense savings through local suppliers

Answer: A,B,C

Explanation:

Solution:

The three key points to highlight when presenting SAP Business Suite to the COO, based on the official narrative on learning.sap.com, are:

* Real-time visibility (A): COOs need agility and resilience, which come from having real-time operational insights to make better decisions.

* Integrated processes (B): SAP Business Suite eliminates silos and connects functions such as procurement, finance, manufacturing and logistics, enabling seamless cross-functional collaboration.

* Automated financial processes (D): Higher levels of automation, including in finance, boost productivity and speed-reducing waste in time and resources.

Options C and E are not emphasized in the COO narrative on learning.sap.com.

NEW QUESTION # 14

How does the asset management module in SAP Business Suite enhance uptime and predict failures within the energy sector through AI-driven maintenance processes?

- A. Tracks financial performance
- B. CO Integrates maintenance processes
- C. Automates procurement
- D. Improves transportation

Answer: B

Explanation:

Solution:

The correct answer from learning.sap.com regarding how the asset management module in SAP Business Suite enhances uptime and predicts failures in the energy sector through AI-driven maintenance is:

* D. CO Integrates maintenance processes

SAP's asset management module (often referred to as SAP Asset Performance Management or SAP Intelligent Asset Management) deeply integrates maintenance workflows-leveraging AI for predictive maintenance. This enables real-time monitoring, anomaly detection, and proactive scheduling, thereby improving asset availability, minimizing unplanned downtime, and optimizing maintenance tasks within energy operations community.sap.comsap.com.

NEW QUESTION # 15

How does the integration of product lifecycle management with logistics in SAP Transportation Management accelerate the market entry of new consumer products?

- A. Aligns financial planning and resource management
- B. Connects product development and logistics processes

- C. Increases production efficiency
- D. Automates procurement

Answer: B

Explanation:

Solution:

The correct answer from learning.sap.com is:

* B. Connects product development and logistics processes

This integration ensures that logistics considerations—such as packaging requirements, transportation planning, and distribution—are aligned directly with product design and development timelines, enabling faster time-to market for new consumer products.

NEW QUESTION # 16

Which components of an SAP Business Network presentation address COO concerns about supply chain transparency and partner connectivity? Note: There are 2 correct answers to this question.

- A. Highlights cost-saving opportunities to meet budget considerations
- B. Focuses on the benefits of local suppliers
- C. Raises awareness of visibility issues
- D. Emphasizes digital relationships to foster collaboration

Answer: C,D

Explanation:

Solution:

The two correct answers, based solely on content from learning.sap.com about addressing a COO's concerns on supply chain transparency and partner connectivity, are:

* A. Emphasizes digital relationships to foster collaboration

SAP Business Network enhances collaboration by enabling real-time, digital connections with trading partners—supporting unified communication and document exchange across the supply chain learning.sap.com.

* B. Raises awareness of visibility issues

The COO narrative prioritizes delivering customer service and full transparency by providing real-time visibility across the network, predicting risks, and simulating scenarios with partners learning.sap.com.

Options C and D are not emphasized in the COO context on learning.sap.com.

NEW QUESTION # 17

Which aspect of SAP Business Network helps ensure compliance during unplanned purchases?

- A. Optimizes financial approaches
- B. Automates supplier selection
- C. Enhances production efficiency
- D. Implements automatic auditing and budgeting rules

Answer: D

Explanation:

Solution:

The correct answer based on learning.sap.com is:

* D. Implements automatic auditing and budgeting rules

The SAP Business Network for Procurement ensures compliance during unplanned purchases by leveraging configurable business rules and automated audit trails. These help enforce company policies around spend compliance, including change orders, price controls, contractual adherence, and handling non-PO invoices.

The other options (A, B, C) are not directly associated with compliance enforcement for unplanned purchases on that site.
