Ursa Major Solar would like to make an external user an Experience Site Moderator.

What are two of the several moderation permissions available to assign an external user in order for them to be an effective Experience Site Moderator?

Choose 2 answers

- A. Access Sharing Sets
- B. Manage Experiences
- C. Manage Setup
- D. Access Experience Management

Answer: B,D

Explanation:

To make an external user an Experience Site Moderator, two of the several moderation permissions available to assign are Access Experience Management and Manage Experiences. Access Experience Management allows an external user to access Experience Workspaces and Builder from an ExperienceCloud site. Manage Experiences allows an external user to create, edit, and delete experiences, as well as manage settings and content for existing experiences.

NEW QUESTION # 108

Northern Trail Outfitter is looking to implement a public Knowledge base. The company has 1, 000 articles stored in an external systems.

Some of the articles are more than 2 years old.

What should a consultant recommend to optimize the public knowledge base?

- A. Bulk-import the top performing articles to Salesforce and select the public knowledge base channel.
- B. Manually add the top performing articles to Salesforce and select Authenticated Sites as the Channel.
- C. Bulk-import all articles to Salesforce and achieve duplicate and outdated articles.
- D. Manually add the top performing articles to Salesforce and select the Public Knowledge Base channel.

Answer: A

Explanation:

To optimize the public knowledge base, a consultant should recommend to bulk-import the top performing articles to Salesforce and select the public knowledge base channel. This will allow NTO to import only the most relevant and useful articles from the external system and make them available to public users on its site.

The public knowledge base channel is a feature that allows NTO to share articles with unauthenticated users on its site.

NEW QUESTION # 109

DreamHouse Realty recently created a site for potential buyers. The content is organized using topics.

Where can site users go to find out how current and popular a topic is?

- A. Content Management Report
- B. Collaboration Dashboard
- C. Topic's detail page
- D. Trending Topics Channel

Answer: C

Explanation:

To find out how current and popular a topic is, site users can go to the topic's detail page. The topic's detail page shows information such as the number of followers, the number of posts, and the last activity date of the topic. Site users can also see the related topics

and subtopics, as well as filter the content by type or time range.

NEW QUESTION # 110

An Experience site is built in an Unlimited org. Some of the pages within the site are exposed to guest users. How many page views are allowed per month?

- A. 5 million
- B. 100,000
- C. 500,000
- D. 1 million

Answer: A

Explanation:

The page view limit for an Experience site depends on the org edition and the license type of the site users. For an Unlimited org, the page view limit is 5 million per month for guest users, and unlimited for authenticated users. A page view is counted when a user requests a page that is served by the site.

NEW QUESTION # 111

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.
- B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.
- C. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.

Answer: B

Explanation:

This option allows UC to customize the self-registration process and create person accounts programmatically using Apex code. The standard self-registration configuration does not support person accounts and requires an existing business account to associate the new users with. Restricting the account record type access for the Site Guest User does not affect the self-registration process and may cause errors.
