Although at this moment, the pass rate of our Fortinet FCP_FWB_AD-7.4 exam braindumps can be said to be the best compared with that of other exam tests, our experts all are never satisfied with the current results because they know the truth that only through steady progress can our FCP - FortiWeb 7.4 Administrator FCP_FWB_AD-7.4 Preparation materials win a place in the field of exam question making forever.

Fortinet FCP_FWB_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Web Application Security: This domain evaluates the ability of Cybersecurity Specialists to implement advanced threat mitigation strategies using FortiWeb. Candidates must configure the system to block known attacks, ensure comprehensive web application protection, and troubleshoot threat detection or mitigation-related issues. Additionally, they are expected to set up API protection mechanisms to secure web-based interactions from potential threats.
Topic 2	<ul style="list-style-type: none">• Machine Learning (ML): This section tests the skills of Application Security Engineers in leveraging machine learning to enhance web application security. Candidates will configure machine learning algorithms to detect anomalies, mitigate bot-based threats, and secure APIs through AI-driven analysis. Understanding how to fine-tune these ML-based security measures is crucial for ensuring robust application protection against evolving cyber threats.
Topic 3	<ul style="list-style-type: none">• Deployment and Configuration: This section of the exam measures the skills of Network Security Engineers and covers the ability to identify FortiWeb deployment requirements and configure essential system settings. Candidates are expected to set up server pools, security policies, and protected hostnames to ensure seamless deployment. To maintain operational efficiency, they must also configure FortiWeb high availability (HA) for fault tolerance and troubleshoot deployment or system-related issues.
Topic 4	<ul style="list-style-type: none">• Encryption, Authentication, and Compliance: This section of the exam assesses the expertise of Security Analysts in mitigating web application vulnerabilities through encryption and authentication mechanisms. Candidates must configure various access control methods, track user authentication, and prevent attacks targeting authentication systems. They must also implement SSL inspection and offloading techniques to enhance security and troubleshoot encryption or authentication-related issues effectively.

Free PDF FCP_FWB_AD-7.4 - FCP - FortiWeb 7.4 Administrator – Trustable Hottest Certification

There is no doubt that the FCP_FWB_AD-7.4 certification can help us prove our strength and increase social competitiveness. Although it is not an easy thing for some candidates to pass the exam, but our FCP_FWB_AD-7.4 question torrent can help aggressive people to achieve their goals. This is the reason why we need to recognize the importance of getting the test FCP_FWB_AD-7.4 Certification. Now give me a chance to know our FCP_FWB_AD-7.4 study tool before your payment, you can just free download the demo of our FCP_FWB_AD-7.4 exam questions on the web.

Fortinet FCP - FortiWeb 7.4 Administrator Sample Questions (Q82-Q87):

NEW QUESTION # 82

Which operation mode requires additional configuration in order to allow FTP traffic into your web server?

- A. Offline protection
- B. True transparent proxy
- C. Reverse proxy
- D. Transparent inspection

Answer: C

NEW QUESTION # 83

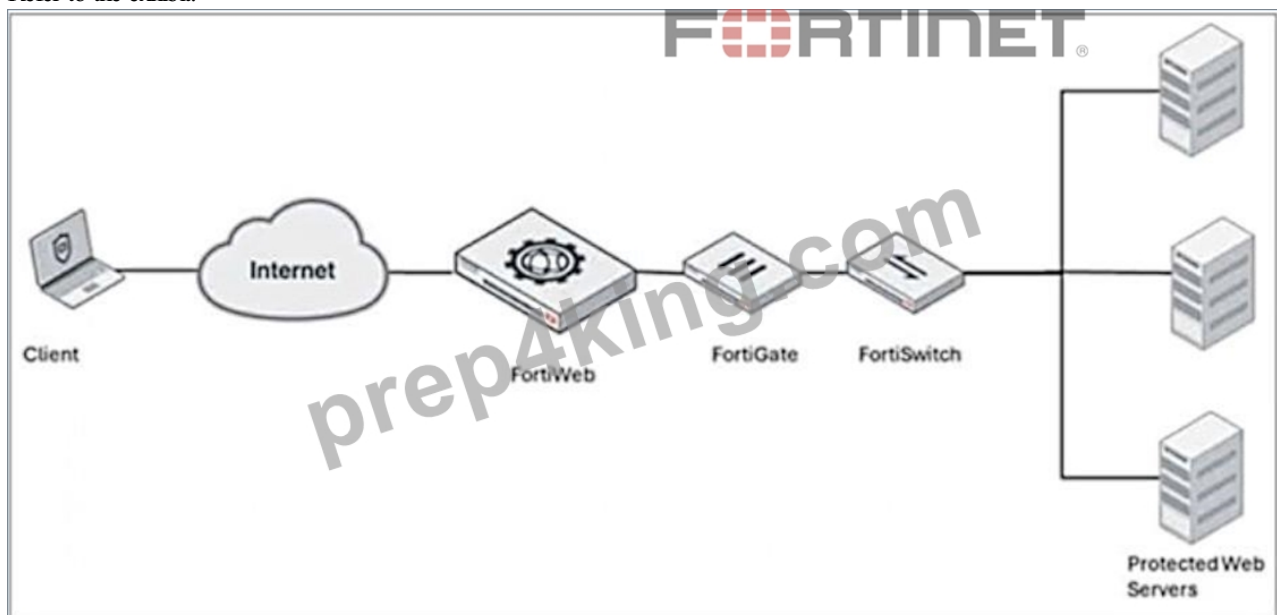

What can an administrator do if a client has been incorrectly period blocked?

- A. Force a new IP address to the client.
- B. Nothing, it is not possible to override a period block.
- C. Manually release the IP address from the temporary blacklist.
- D. Disconnect the client from the network.

Answer: C

NEW QUESTION # 84

Refer to the exhibit.

A FortiWeb device is deployed upstream of a device performing source network address translation (SNAT) or load balancing. What configuration must you perform on FortiWeb to preserve the original IP address of the client?

- A. Turn off NAT on the FortiWeb.
- B. Use a transparent operating mode on FortiWeb.

- C. Enable and configure the Add X-Forwarded-For setting.
- **D. Enable and configure the Preserve Client IP setting.**

Answer: D

Explanation:

When FortiWeb is deployed upstream of a device performing source network address translation (SNAT) or load balancing, the original client IP address may be lost. To preserve the original client IP address, you must enable and configure the Preserve Client IP setting on FortiWeb. This allows FortiWeb to retain and pass the client's original IP address to the backend servers for accurate logging and processing.

NEW QUESTION # 85

Which three stages are part of creating a machine learning (ML) bot detection algorithm? (Choose three.)

- **A. Model building**
- **B. Model verification**
- C. Model Bayesian analysis
- D. Model running
- **E. Sample collecting**

Answer: A,B,E

Explanation:

Model building: In this stage, you design and develop the ML model, which involves selecting appropriate algorithms and features to detect bot activity.

Model verification: This is where you test and evaluate the model's performance to ensure it can accurately detect bots without false positives or negatives.

Sample collecting: Gathering relevant data samples (e.g., bot and non-bot traffic) to train the machine learning model is crucial to ensure it can learn from various scenarios.

NEW QUESTION # 86

What is a key consideration when configuring bot detection and mitigation for a web application?

- A. Implementing weaker authentication mechanisms
- **B. Identifying legitimate user traffic**
- C. Increasing server response time
- D. Allowing unrestricted access to APIs

Answer: B

NEW QUESTION # 87

.....

The product Prep4King provide with you is compiled by professionals elaborately and boosts varied versions which aimed to help you learn the pass your FCP_FWB_AD-7.4 exam by the method which is convenient for you. We check the update every day, and we can guarantee that you will get a free update service from the date of purchase. Once you have any questions and doubts about our FCP_FWB_AD-7.4 Exam Questions we will provide you with our customer service before or after the sale.
