So our product is a good choice for you. Choose our Experience-Cloud-Consultant learning materials, you will gain a lot and lay a solid foundation for success.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q182-Q187):

NEW QUESTION # 182

Universal Containers (UC) works with regional partners to sell localized products. UC Is actively accepting new partner applications in certain regions. Partners can only apply using uCs referral program, and the application form in certain regions can potentially contain a varying degree of sensitive information. The list of existing partners must not be shared with the general public. What should the Experience Cloud consultant recommend?

- A. Create a public site for existing partners and allow them to generate token-based referral links for prospect partners.
- B. Create a public site for prospect partners, show them a nondisclosure agreement, and allow them to fill out on application form on the site.
- C. Create an app for the Internal business development team and allow them to generate token-based referral links for existing partners In their region.
- D. Create an authenticated digital experience for partners and allow them to refer other partners in their region.

Answer: C

Explanation:

This option allows UC to control the access to the partner application form and ensure that only qualified partners can apply. Token-based referral links are unique and expire after a certain time, which adds an extra layer of security. Creating an app for the internal team also allows UC to track the performance of the referral program and reward the existing partners accordingly1

NEW QUESTION # 183

The system administrator at Cloud Kicks (CK) has deactivated their Experience Cloud site to do some maintenance and cleanup. How should the administrator ensure that CK customers do NOT receive a welcome email when the site is once again active?

- A. Use Data Loader to remove all members' email addresses.
- B. Use the new Service Not Available (SNA) feature.
- C. Remove all profiles from the site's membership and add them again after the site is activated.
- D. Disable the Send welcome email checkbox for the site.

Answer: D

NEW QUESTION # 184

Ursa Major Solar would like its authenticated external users to be able to search for Quote and Contract objects but not Opportunity or Asset objects.

Which two standard features allow an administrator to accomplish that?

Choose 2 answers

- A. Remove Opportunity and Asset from the Autocomplete object list in the Search component property editor.
- B. Remove Opportunity and Asset from the navigation Menu component in the property editor.
- C. Remove Opportunity and Asset from the object list in the Global Search Result component property editor.
- D. Remove Opportunity and Asset from the Title Menu component in the property editor.

Answer: A,C

Explanation:

To prevent authenticated external users from searching for Quote and Contract objects but not Opportunity or Asset objects, you need to remove Opportunity and Asset from the object list in the Global Search Result component property editor and the Autocomplete object list in the Search component property editor. The Global Search Result component displays the search results for all objects that match the search term. The Autocomplete object list displays the suggested objects that match the search term as

you type. You can customize these components by selecting or deselecting the objects that you want to include or exclude from the search.

NEW QUESTION # 185

Universal Container (UC) has a business model that involves B2C as well B2B customers. A group of B2B customers has recently signed a contract with UC that would allow them to start working with the UC Support team in resolving low-severity B2C customer issues.

How should UC use Experience Cloud to accomplish this goal?

- A. Create a digital experience for B2C customer and employees, and another one for B2B customers and employees.
- B. Create a single digital experience for B2C customers, B2B customers, and employees.
- C. Create a digital experience for B2C customers and B2B customers, and use the internal CRM app for employees.
- D. Create a digital experience for B2B customers, a partner portal for B2B customers, and use the internal CRM org for employees.

Answer: A

Explanation:

UC should create two separate digital experiences for its different customer segments and employees. This will allow UC to provide different features, content, and branding for each experience, as well as control the access and visibility of records. For example, UC can create a customer service site for B2C customers and employees, where they can view and create cases, access knowledge articles, and chat with agents. UC can also create a partner portal for B2B customers and employees, where they can view and update billing information, access contracts, and work on low-severity B2C customer issues.

NEW QUESTION # 186

Ursa Major Solar wants to give customers the ability to add authorized users to view usage, billing, and payment history. Which permission should be granted to customers to add authorized users?

- A. View and Manage Users
- B. Modify All for Usage, Billing, and Payment History
- C. View Content in Portals
- D. Delegated External User Administrator

Answer: D

Explanation:

To give customers the ability to add authorized users to view usage, billing, and payment history, UMS should grant Delegated External User Administrator permission to customers. Delegated External User Administrator is a permission that allows customers to create new users or reset passwords for other customers in their own account. UMS can use Delegated External User Administration, which is a feature that allows UMS to assign specific users as delegated administrators who can manage external users in their own accounts.

NEW QUESTION # 187

.....
