Heavy machinery repair requires three technicians as well as a safety inspector to be sent to the site. Additionally, power testing equipment must be sent to complete the inspection.

Dispatchers must be able to locate the resources needed for the heavy machinery repair within a single search to allow for efficient scheduling.

Dispatchers and scheduling administrators must have a way to easily review all resource availability and be able to schedule the work order.

When customers on credit hold request service, no technician can be sent and dispatchers must be alerted of the credit hold status.
