Vce SAP C_TS422_2023 Exam & Reliable C_TS422_2023 Exam Blueprint

People always want to prove that they are competent and skillful in some certain area. The ways to prove their competences are varied but the most direct and convenient method is to attend the certification exam and get some certificate. The C_TS422_2023 exam questions have simplified the sophisticated notions. The software boosts varied self-learning and self-assessment functions to check the learning results. The software of our C_TS422_2023 Test Torrent provides the statistics report function and help the students find the weak links and deal with them.

Perhaps you worry about the quality of our C_TS422_2023 exam questions. We can make solemn commitment that our C_TS422_2023 study materials have no mistakes. All contents are passing rigid inspection. You will never find small mistakes such as spelling mistakes and typographical errors in our C_TS422_2023 learning guide. No one is willing to buy a defective product. And our C_TS422_2023 practice braindumps are easy to understand for all the candidates.

SAP C_TS422_2023 Exam Questions 2026 in PDF Format

A lot of effort, commitment, and in-depth SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing (C_TS422_2023) exam questions preparation is required to pass this SAP C_TS422_2023 exam. For the complete and comprehensive SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing (C_TS422_2023) exam dumps preparation you can trust valid, updated, and C_TS422_2023 Questions which you can download from the Pass4Leader platform quickly and easily.

SAP C_TS422_2023 Exam Syllabus Topics:

Topic	Details

Topic 1	• Production Orders in SAP S • 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.
Topic 2	• Introduction to SAP S • 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends.
Topic 3	• Demand Management in SAP S • 4HANA: This section covers a comparison of production methods in various manufacturing environments.
Topic 4	• Advanced Planning in SAP S • 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.
Topic 5	• Lean Manufacturing in SAP S • 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.
Topic 6	• Process Orders in SAP S • 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q76-Q81):

NEW QUESTION # 76
What could be the reason for multiple commitments, where several operations have the same scheduled dates on a work center after dispatching?
Note: There are 2 correct answers to this question.

- A. The work center has several individual capacities
- B. Alternative work centers are fully occupied.
- C. The Finite Scheduling indicator is NOT set in the strategy profile.
- D. The Change Planning Direction indicator is set in the strategy profile

Answer: A,C

Explanation:
Multiple commitments occur when several operations are scheduled to start or finish at the same time on a work center. This can happen for different reasons, depending on the settings of the strategy profile and the work center. Two possible reasons are:
The Finite Scheduling indicator is NOT set in the strategy profile. This means that the system does not consider the capacity availability of the work center when scheduling the operations. The system only checks the basic dates and the relationships between the operations. Therefore, the system can schedule multiple operations at the same time on the same work center, resulting in multiple commitments.
The work center has several individual capacities. This means that the work center can perform several operations simultaneously, depending on the number and type of individual capacities. The system assigns the operations to the individual capacities based on the capacity category and the priority. However, if the individual capacities have the same capacity category and priority, the system can assign multiple operations to the same individual capacity, resulting in multiple commitments.

NEW QUESTION # 77
What can you use standard heuristics in Advanced Planning (PP/DS) for?

- A. To automate material movements in material staging
- B. To optimize costs and times in production plans
- C. To set default values in production master data
- D. To solve planning problems for defined objects

Answer: D

Explanation:
In SAP S/4HANA PP/DS,standard heuristicsare predefined algorithms (e.g., SAP_PP_002 for planning standard lots) executed in the planning run (/SAPAPO/CDPSB0) or interactively (/SAPAPO/RRP3). Their purpose is:
* To solve planning problems for defined objects(C): Heuristics address specific planning tasks for objects like materials, resources, or orders. For example, SAP_PP_002 creates planned orders to cover shortages, SAP_PP_020 sequences operations, and SAP_PP_007 adjusts schedules-each solving a distinct problem (e.g., demand coverage, capacity conflicts) based on defined parameters.
Automate material movements in staging(A) is handled by WM or Kanban, not PP/DS heuristics.Set default values in production master data(B) is a master data maintenance task (e.g., MM02), not a heuristic function.
Optimize costs and times(D) is possible with optimization tools (e.g., PP/DS Optimizer), not standard heuristics, which focus on rule-based planning. This is per SAP's PP/DS heuristic documentation.

NEW QUESTION # 78
What are some SAP-recommended guiding principles to achieve clean core operations? Note: There are 3 correct answers to this question.

- A. Define roles and responsibilities as part of a process transformation office.
- B. Integrate clean core practices in the end-to-end value process chain.
- C. Establish regular housekeeping tasks and procedures.
- D. Establish release management.
- E. Establish an organizational structure, technical foundation, and transformation methodology for clean core.

Answer: A,D,E

Explanation:
SAP'sclean coreapproach for S/4HANA Cloud Private Edition aims for a standardized, upgrade-friendly system. Recommended guiding principles include:
* Establish an organizational structure, technical foundation, and transformation methodology for clean core(A): SAP advises setting up a governance structure, technical standards (e.g., extensibility via SAP BTP), and a methodology (e.g., SAP Activate) to ensure clean core adoption, minimizing customizations from the start.
* Establish release management(C): Effective release management (e.g., via SAP Solution Manager or SAP Cloud ALM) ensures regular updates are applied smoothly, maintaining a clean core by avoiding conflicts with custom code and leveraging new standard features.
* Define roles and responsibilities as part of a process transformation office(E): A dedicated transformation office with clear roles (e.g., process owners, IT architects) oversees clean core adherence, ensuring accountability for standardization and extensibility across teams.
Integrate clean core practices in the end-to-end value process chain(B) is a goal, not a distinct principle-it's an outcome of other principles.Regular housekeeping tasks(D) (e.g., data archiving) supports operations but isn't a core clean core principle, which focuses on design and governance. This is per SAP's clean core strategy.

NEW QUESTION # 79
Which of the following processes lead to an entry in the MRP planning file?
Note: There are 3 correct answers to this question.

- A. Changing the stock in inventory management
- B. Changing the purchasing contract in materials management
- C. Changing the operation times in the production data structure
- D. Changing the storage bin in warehouse management
- E. Changing the procurement type in the product master

Answer: A,B,E

Explanation:
The MRP planning file is a list of all materials relevant to the planning run. The system sets an entry in the planning file for a material when there is a change that affects the material requirements planning, such as changes to stock, requirements, receipts, or MRP data in the material master. The following processes lead to an entry in the MRP planning file:
Changing the procurement type in the product master, which determines how the material is procured (internally or externally) and

affects the MRP procedure and lot-sizing procedure.

Changing the stock in inventory management, which changes the stock/requirements situation of the material and triggers a net requirements calculation.

Changing the purchasing contract in materials management, which creates a purchase requisition as a receipt element and affects the availability of the material. Reference: Planning File, Planning File Entries for MRP Areas, SAP Exam C_TS422_1909 Topic 10 Question 10 Discussion

NEW QUESTION # 80

What will happen in the MRP run if you have created a new MRPrelevant material that supports both inhouse production external procurement?

- A. The MRP run assumes inhouse production.
- B. The MRP run does NOT consider the material; it has to be planned interactively.
- C. The MRP run plans the material only if a quotation has been maintained.
- D. The MRP run assumes external procurement.

Answer: A

NEW QUESTION # 81

......

Will you feel nervous while facing the real exam? Choose us, since we will help you relieve your nerves. C_TS422_2023 Soft test engine can stimulate the real exam environment, so that you can know the procedure of the exam, and your confidence for the exam will be strengthened. In addition, C_TS422_2023 exam dumps are edited by professional experts, who are quite familiar with the exam center, therefore the quality can be guaranteed. We offer you free demo for C_TS422_2023 to have a try before buying. And you will receive the downloading link and password within ten minutes for C_TS422_2023 exam materials, so that you can start your learning immediately.
