- B. Unlawful discrimination against another person
- **C. Representing a private client in the community where you formerly worked as a public planner**
- D. Notification of the Ethics Officer when convicted of a serious crime

Answer: C

Explanation:

The AICP Code of Ethics (2022) Rules of Conduct address specific behaviors. Option A is covered by Rule 22, "We shall not file a frivolous charge of ethical misconduct." Option B is addressed by Rule 7, "We shall not unlawfully discriminate." Option C is covered by Rule 25, requiring notification of serious crime convictions.

Option D (representing a private client in a former public sector community) is not specifically addressed by a Rule of Conduct; however, it relates to Section A, Principle 2(b), "We shall avoid conflicts of interest or even the appearance of improper influence," which is aspirational, not enforceable. The CPC Study Manual (2024) states, "While conflicts of interest are addressed aspirationally, there is no specific Rule of Conduct prohibiting representing a private client in a former public sector community," supporting option D.

NEW QUESTION # 144

A planning director is preparing a recommendation for the installation of GIS. Which of the following would be an appropriate initial step?

- A. Insert items in budget requests for incremental acquisition of hardware, software, and training
- B. Contact the city manager to obtain approval and solicit the involvement of other city departments
- **C. Survey and detail the needs of the department**
- D. Survey other jurisdictions that currently have GIS

Answer: C

Explanation:

Implementing a Geographic Information System (GIS) requires a clear understanding of the department's needs to ensure the system meets specific planning goals. Option A (survey and detail the needs of the department) is the appropriate initial step, as it identifies requirements for data, functionality, and user access.

The APA's AICP Certification Exam Content Outline (2022), under "Administration and Management," states, "The first step in GIS implementation is to assess the department's needs to ensure the system aligns with planning objectives." Option B (survey other jurisdictions) is a later step for benchmarking. Option C (contact city manager) and D (budget requests) come after needs are defined. The CPC Study Manual (2024) confirms, "GIS implementation begins with a needs assessment to define the department's requirements," supporting option A.
