Huawei H12-891_V1.0 Practice Exam Questions & H12-891_V1.0 Test Questions

DOWNLOAD the newest TestPassed H12-891_V1.0 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1EQ-K7rx2C5HxZtMLlVGlquc2s5VwlgOk

You hardly have to worry about whether or not you can pass the exam with our H12-891_V1.0 exam braindumps. Many users of H12-891_V1.0 exam prep can use your own achievements to prove to you that under the guidance of our H12-891_V1.0 Study Materials, you must pass the exam. Don't hesitate anymore. What you should treasure now is time! Just come and buy our H12-891_V1.0 learning guide, you will never feel regret!

Up to now, we have more than tens of thousands of customers around the world supporting our H12-891_V1.0 training prep. So our H12-891_V1.0 study materials are elemental materials you cannot miss. In your review duration, you can contact with our after-sales section if there are any problems with our H12-891_V1.0 Practice Braindumps. They will help you 24/7 all the time. These services assure your avoid any loss.

Pass Guaranteed Fantastic H12-891_V1.0 - HCIE-Datacom V1.0 Practice Exam Questions

In order to make the exam easier for every candidate, TestPassed compiled such a study materials that allows making you test and

review history performance, and then you can find your obstacles and overcome them. In addition, once you have used this type of H12-891_V1.0 Exam Question online for one time, next time you can practice in an offline environment. It must be highest efficiently H12-891_V1.0 exam tool to help you pass the exam.

Huawei HCIE-Datacom V1.0 Sample Questions (Q90-Q95):

NEW QUESTION # 90

How do IGMPv2 routers maintain cinderband group membership? Multi-select

- A. The router periodically sends a Query message, and after the receiver host receives the Query message, it reports a Report message
- B. The router queries a specific group
- C. As soon as the leave message is received, the router immediately deletes the group membership
- D. The router maintains a timeout timer for each group membership, refreshes the timer if the receiver host is received, and deletes the group membership if the timer times out

Answer: A,D

NEW QUESTION # 91

Is the following correct statement for the VXLAN message?

- A. VNI has 24 T bits to distinguish the VIAN segment
- B. The outer destination IP address is the IP address of the VTEP at the far end of the VXLAN tunnel
- C. The destination UDP port number is 4789
- D. The source UDP port number is 4789

Answer: A,B,C

NEW QUESTION # 92

The correct statement about the VRRP protocol version is ?

- A. VRRPv3 does not support authentication
- B. VRRPv3 is only available for IPv6
- C. VRRPv2 supports authentication
- D. VRRPv2 is only available for IPv4

Answer: A,C,D

NEW QUESTION # 93

A network administrator needs to retrieve a token ID from iMaster NCE using the following Python code:
import requests
nbi_name = "demol3@north.com"
nbi_pwd = "qqcOVcVel@"
host = "139.9.213.72"
port = "18002"
URI = "/controller/v2/tokens"
post_token_url = "https://" + host + ":" + port + URI
headers_post = {'Content-Type': 'application/json', 'Accept': 'application/json'} r = requests.post(post_token_url,
headers=headers_post, json={"userName": nbi_name, "password":
nbi_pwd}, verify=incorrect)
Which of the following statements is incorrect?

- A. You can run print(r.json()) to display the response message sent from the server.
- B. The HTTP request uses the GET method to query the token value.
- C. Token resources are located at https://139.9.213.72:18002/controller/v2/tokens.
- D. The request body is in JSON format.

Answer: B

Explanation:
Comprehensive and Detailed Explanation:
#Analyzing the Python Code:
#(A) Correct# print(r.json()) prints the response JSON, showing thetoken ID.
#(B) Correct# The token request URL is correctly specified.
#(D) Correct# json={"userName": nbi_name, "password": nbi_pwd} confirms the requestbody is in JSON format.
#(C) Incorrect:
The requestuses POST, not GET (requests.post() is explicitly called).
#Reference:Huawei HCIE Datacom - RESTful API Authentication in iMaster NCE

NEW QUESTION # 94
In the following figure, OSPF is enabled on all router interfaces. The IP addresses marked in the figure belong to Loopback0 of the routers.

The Loopback0 addresses of R1 and R2 are advertised in Area 1, the Loopback0 address of R4 is advertised in Area 0, and the Loopback0 addresses of R3 and R5 are advertised in Area 2. Given this, which of the following IP addresses can ping each other?

- A. 10.0.3.3 and 10.0.5.5
- B. 10.0.2.2 and 10.0.3.3
- C. 10.0.2.2 and 10.0.5.5
- D. 10.0.4.4 and 10.0.2.2

Answer: B

Explanation:
Understanding OSPF Multi-Area Routing
OSPF (Open Shortest Path First) is a link-state routing protocol that uses a hierarchical area design for scalability.# OSPF Areas in the Diagram:
* Area 0 (Backbone Area): Contains R4 (Loopback 10.0.4.4/32).
* Area 1: Contains R1 (Loopback 10.0.1.1/32) and R2 (Loopback 10.0.2.2/32).
* Area 2: Contains R3 (Loopback 10.0.3.3/32) and R5 (Loopback 10.0.5.5/32).
* R1 and R2 connect Area 1 to Area 0.
* R1 and R3 connect Area 1 to Area 2.
How OSPF Advertises Routes Across Areas
Intra-area communication (within the same area) is always possible.# Inter-area communication is possible if the ABR (Area Border Router) correctly advertises routes.# OSPF does NOT automatically advertise routes fromone non-backbone area (e.g., Area 2) to another (e.g., Area 0) unless explicitly allowed.
Analysis of the Answer Choices:
A. 10.0.3.3 and 10.0.5.5 (Incorrect)
* Both R3 (10.0.3.3) and R5 (10.0.5.5) are in Area 2.
* R3 and R5 can communicate directly, but OSPF rules require an Area Border Router (ABR) to share routing information between areas.
* Since no information is provided about inter-area route redistribution, we cannot confirm that R3 and R5 can reach each other.
# B. 10.0.2.2 and 10.0.5.5 (Incorrect)

* R2 (10.0.2.2) is in Area 1, and R5 (10.0.5.5) is in Area 2.
* R2 does NOT have direct OSPF reachability into Area 2.
# C. 10.0.2.2 and 10.0.3.3 (Correct)
* R2 (10.0.2.2) is in Area 1, and R3 (10.0.3.3) is in Area 2.
* R1 connects both Area 1 and Area 2, meaning R2 and R3 can communicate via R1.
* R1 is the ABR (Area Border Router) between Area 1 and Area 2, so it will advertise routes from R3 to R2 and vice versa.
# D. 10.0.4.4 and 10.0.2.2 (Incorrect)
* R4 (10.0.4.4) is in Area 0 (Backbone), and R2 (10.0.2.2) is in Area 1.
* R2 does NOT connect directly to Area 0, so R2 does not learn routes from Area 0 unless R1 explicitly redistributes them.
* No explicit information about route redistribution is provided.
# Reference: Huawei HCIE-Datacom Guide - OSPF Multi-Area Routing & ABR Role Real-World Application:
* Enterprise WAN Networks: Multi-area OSPF is used to scale large enterprise networks while maintaining fast convergence.
* Service Provider Networks: ABRs control route distribution, preventing unnecessary flooding of routing updates across areas.

NEW QUESTION # 95

......

Where there is life, there is hope. Never abandon yourself. You still have many opportunities to counterattack. If you are lack of knowledge and skills, our H12-891_V1.0 study materials are willing to offer you some help. Actually, we are glad that our study materials are able to become you top choice. In the past ten years, we always hold the belief that it is dangerous if we feel satisfied with our H12-891_V1.0 Study Materials and stop renovating. Luckily, we still memorize our initial determination.

H12-891_V1.0 Test Questions: https://www.testpassed.com/H12-891_V1.0-still-valid-exam.html

Our study materials will provide you with 100% assurance of passing the professional qualification H12-891_V1.0 exam, They offer 100% money back guarantee on H12-891_V1.0 exam dumps, Once you enter our official websites, we have prepared well to sell the best H12-891_V1.0 Test Questions - HCIE-Datacom V1.0 reliable training to you, Huawei H12-891_V1.0 Practice Exam Questions Mock examination available in Windows operation system.

When you choose to do this, the credentials H12-891_V1.0 are saved by the browser so you don't have to enter the username and password each time, Furthermore, being identified as H12-891_V1.0 Latest Exam Notes the wrong gender can be frustrating, embarrassing, and hurtful in such situations.
