NEW QUESTION # 62

What is one Scrum value that can help Agile Teams create transparency?

- A. Communication
- B. Respect
- C. Empathy
- D. Persistence

Answer: B

Explanation:

Respect is one of the five Scrum values that can help Agile Teams create transparency. Respect means that team members value each other's opinions, skills, and contributions, and treat each other with dignity and professionalism. Respect also means that team members are honest and open with each other, and share information and feedback without hiding or withholding anything. By respecting each other, Agile Teams can foster a culture of trust and collaboration, where everyone feels comfortable to express their ideas, concerns, and issues, and work together to solve them. Transparency is essential for Agile Teams to inspect and adapt their work, and to align their actions with the vision and goals of the organization.

NEW QUESTION # 64

According to SAFe, what is one output of a successful Iteration Retrospective?

- A. Updated dependencies between Stories
- B. Updated ART metrics
- C. Improvement Stories
- D. Iteration Goals

Answer: C

Explanation:

According to SAFe, one output of a successful Iteration Retrospective is the creation of a few improvement Stories that enter the Team Backlog for the next iteration. These stories reflect the team's agreement on what they can do better in terms of their process, practices, and performance. The improvement stories are visible and prioritized along with the other stories in the backlog. They help the team implement the concept of relentless improvement, which is one of the core values of SAFe.
