H12-811_V1.0 Exam

QUESTION 1

As shown in the figure, there are three data packets captured by the administrator on the network.

Which of the following statements is incorrect? (Single choice question)

Source destination protocol info

10.0.12.110.0.12.2 TCP 50190->telnet SYN seq=0 win=0 len=0 MSS=1460 10.0.12.1

TCP telnet 50190->SYN ACK seq=0 Ack=1 win=8192 Len=0 MSS=1460

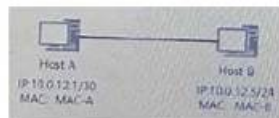

10.0.12.110.0.12.2 TCP 50190->telnet(ACK) seq=1 Ack=1 win=8192 len=0

- A. None of these three data packets contain application layer data
- B. These three data packets represent the three-way handshake process of TCP
- C. The telnet client uses port 50190 to establish a connection with the server
- D. The IP address of the telnet server is 10.0.12.1. The IP address of the telnet client is 10.0.12.2

Answer: D

QUESTION 2

As shown in the figure below, Host A and Host B cannot communicate. (True or False)

- A. True
- B. False

Answer: B

QUESTION 3

As shown in the figure, when the switch needs to forward frames with the destination mac address of 5489-98ec-f011, which of the following descriptions is correct? (Single-choice question)

2 of 232

With these real H12-811_V1.0 Questions, you can prepare for the test while sitting on a couch in your lounge. Whether you are at home or traveling anywhere, you can do H12-811_V1.0 exam preparation with our Huawei H12-811_V1.0 dumps. H12-811_V1.0 test candidates with different learning needs can use our three formats to meet their needs and prepare for the Huawei H12-811_V1.0 test successfully in one go. Read on to check out the features of these three formats.

Huawei H12-811_V1.0 (HCIA-Datacom V1.0) Certification Exam is a multiple-choice, online exam that consists of 60 questions to be answered in 90 minutes. H12-811_V1.0 exam is designed to test individuals' practical skills and knowledge in data communication technologies, and the questions are set at a difficulty level that ensures only qualified individuals are certified.

Huawei H12-811_V1.0 certification exam is designed to evaluate candidates' knowledge and skills in data communication technologies. It is a globally recognized certification that can help professionals stand out in a competitive job market. By passing H12-811_V1.0 Exam, candidates can demonstrate their ability to design, deploy, and manage data communication networks using Huawei technologies.

Huawei H12-811_V1.0 (HCIA-Datacom V1.0) Exam is an important certification for professionals who want to advance their careers in the field of data communication. HCIA-Datacom V1.0 certification is recognized globally and is highly valued by employers. Candidates who pass H12-811_V1.0 exam demonstrate that they have the knowledge and skills required to design and implement data communication solutions in complex network environments.

After years of hard work, our H12-811_V1.0 guide training can take the leading position in the market. Our highly efficient operating system for learning materials has won the praise of many customers. If you are determined to purchase our H12-811_V1.0 study tool, we can assure you that you can receive an email from our efficient system within 5 to 10 minutes after your payment, which means that you do not need to wait a long time to experience our learning materials. Then you can start learning our H12-811_V1.0 Exam Questions in preparation for the exam.

Huawei HCIA-Datacom V1.0 Sample Questions (Q20-Q25):

NEW QUESTION # 20

The country code configuration affects the actual transmission frequency and maximum transmission power.

- A. FALSE
- B. TRUE

Answer: B

Explanation:

Comprehensive Explanation: The country code setting on wireless devices like access points determines the allowable transmission frequencies and maximum transmission power based on the regulatory requirements of the specific region. For example, certain frequency channels or power levels may be restricted in different countries to avoid interference with other services, and the country code configuration ensures that the device operates within those legal limits.

NEW QUESTION # 21

On Huawei VRP platform, which of the following can be used to invoke the history command saved by the command line interface?

- A. Ctrl+P
- B. Left cursor key
- C. Upper cursor key
- D. Ctrl+U

Answer: C

Explanation:

On Huawei VRP (Versatile Routing Platform), the command history feature allows administrators to recall previously executed commands. The Upper cursor key (# arrow key) can be used to navigate through the command history and re-execute previously entered commands.

* Ctrl+P is not a valid shortcut for recalling command history.

* Ctrl+U is typically used to delete an entire line of input in command-line interfaces, not to recall history.

* Left cursor key (#) is used for moving the cursor within a command line but does not invoke command history.

Thus, the correct answer is B. Upper cursor key (# arrow key).

NEW QUESTION # 22

What is wrong about the ARP message? ()

- A. Any link layer protocol requires ARP protocol to assist in obtaining data link layer identification
- B. ARP request message is sent by broadcast
- C. ARP reply message is sent by unicast party
- D. ARP packets cannot be forwarded to other broadcast domains

Answer: A

NEW QUESTION # 23

According to OSI reference model, which layer is responsible for end-to-end error checking and flow control?

- A. Network layer
- B. Data link layer
- C. Physical layer
- **D. Transport layer**

Answer: D

Explanation:

Comprehensive Explanation: The Transport layer (Layer 4) in the OSI model is responsible for end-to-end error checking, flow control, and reliable data transmission. It ensures that data is properly sequenced, without errors, and flow-controlled between the sender and receiver. Protocols such as TCP (Transmission Control Protocol) operate at this layer, providing mechanisms for retransmitting lost packets and maintaining the reliability of a session

NEW QUESTION # 24

When the host accesses the web service of the server, the value of the "Protocol" field at the network layer is 6.

- A. FALSE
- **B. TRUE**

Answer: B

Explanation:

Explanation:
