At the same time, our SCR Real Exam just needs to cost you a few spare time. After about twenty to thirty hours' practice, you can completely master all knowledge.

GARP Sustainability and Climate Risk Sample Questions (Q66-Q71):

NEW QUESTION # 66

A senior sustainability consultant at an African think tank explains the complexities of different Earth science systems to a group of ESG practitioners as part of the think tank's continuing education program.

Which of the following statements by the sustainability consultant accurately describes the Earth's greenhouse effect?

- A. A natural process in which the Earth's oceans absorb the majority of non-reflected incoming solar energy
- **B. A human-driven process in which the main contributor is the decrease in the albedo effect**
- C. A human-driven process that is the main contributor for half of the sea-level rise in the past 200 years
- D. A natural process in which the Earth reflects three-quarters of incoming solar energy back into space

Answer: B

NEW QUESTION # 67

A prominent institutional investor forms a committee to support global investments to achieve net zero GHG emissions by 2050. To inform this investment strategy, the committee relies on the IEA Net-Zero Scenario. How should the committee proceed with investments to align with IEA milestones?

- A. Divest nuclear energy assets sufficiently to increase solar and wind energy shares of global energy production to 50% by 2050.
- B. Invest in electric vehicles sufficiently to help make electric vehicles 30% of global vehicle sales by 2030.
- C. Divest coal assets sufficiently to support a phase-out of all coal plants in advanced economies by 2030.
- D. Invest in energy infrastructure sufficiently to ensure all new buildings are "zero-carbon-ready" by 2050.

Answer: C

NEW QUESTION # 68

A sustainability analyst at a global commercial bank researches trends surrounding the green loan market in China to develop a new business strategy. The analyst finds green loans are gaining popularity in various sectors due to environmental and financial benefits. If the analyst recommends the addition of green loans to the business strategy, what China market trend most likely supports this decision?

- A. Green loans outperform all other sustainable and traditional loan types.
- B. Green loans are riskier for larger banks but less risky for smaller banks.
- C. Green loans are primarily issued in the clean transport and clean energy sectors.
- D. Green loans are mostly concentrated in the real estate sector.

Answer: C

NEW QUESTION # 69

An international hotel chain reviews progress on sustainability goals in preparation for an Earth Day marketing campaign. A sustainability director suggests the hotel highlight how its energy and food sustainability initiatives align with UN SDG targets. Which of the following correctly describes an SDG target that the hotel could align with?

- A. By 2050 double the share of renewables in the energy mix.
- B. By 2030 reduce GHG emissions to half of 2000 levels.
- C. By 2030 double the rate of energy efficiency improvements.
- D. By 2050 reduce per capita food waste by half.

Answer: D

NEW QUESTION # 70

An investment management firm signs a net zero asset management initiative. An analyst engages with client companies to encourage adoption of targets that align with Paris Agreement goals. The analyst provides clients with a guide explaining the principles and protocols unique to the Paris Agreement.

How will the analyst most likely describe the feature that distinguishes the Paris Agreement?

- A. An emissions reduction mechanism that allows Annex 1 countries that make deeper emissions cuts to sell surplus emissions allowances to other Annex 1 countries
- B. A framework that recognizes many stakeholders, from subnational actors to private-sector businesses and financial institutions, can help contribute to climate goals
- C. A clean development mechanism that provides a way for emissions cuts to be spread to developing economies
- D. A structure that legally binds signed parties to develop national climate policy plans that are reviewed and approved annually by the UN

Answer: B

NEW QUESTION # 71

.....
