

# Quiz 2026 Professional Microsoft New PL-400 Test Format

2026 Latest TorrentVCE PL-400 PDF Dumps and PL-400 Exam Engine Free Share: [https://drive.google.com/open?id=1wcoQq8OAh6u\\_wm7nYKTLHKyjpRCohM3R](https://drive.google.com/open?id=1wcoQq8OAh6u_wm7nYKTLHKyjpRCohM3R)

Once you have used our PL-400 exam training guide in a network environment, you no longer need an internet connection the next time you use it, and you can choose to use PL-400 exam training at your own right. Our PL-400 exam training do not limit the equipment, do not worry about the network, this will reduce you many learning obstacles, as long as you want to use PL-400 Test Guide, you can enter the learning state. And you will find that our PL-400 training material is the best exam material for you to pass the PL-400 exam.

## Points you should know for passing the PL-400 Exam:

- Study the official Business Operations Guide of the exam, which is available on the Microsoft website for PL-400. Automate the process of preparing for the exam. Experts recommend using PL-400 Dumps for this purpose.
- Know what core skills are required for your job role, and practice them daily. This will speed up the learning process and let you focus on important exam topics. **PL-400 Dumps** are here to help you. All practice exams are up-to-date and cover the information that will be on the actual exam.
- The updated knowledge gained from this certification test is very valuable, but it will be in vain if you lack practical experience in your field. Custom-made practice test helps to gain relevant experiences and develop your skills. Answer as many as you can and improve your score. Report and resolve all errors and issues and clear mock tests and practice questions.
- Service provider's scenario-based questions are the best way to learn important concepts and upgrade your skills. Company experts have created practice exams based on the new certification outline. Code samples, tips, and detailed instructions make everything clear. Referrals to user guides and other references give you enough guidance.
- Try to remember that the certification test is not just about memorizing facts and recall. It is about knowing the correct approach to solving common business problems. Maintenance and troubleshooting skills are the keys to success. Record those skills as well as the "correct" answer. Vendor-specific tasks, troubleshooting, and performance-based questions are also included.

## Microsoft PL-400 Reliable Exam Preparation & Reliable PL-400 Exam Materials

Even we have engaged in this area over ten years, professional experts never blunder in their handling of the PL-400 exam torrents. By compiling our PL-400 prepare torrents with meticulous attitude, the accuracy and proficiency of them is nearly perfect. As the leading elites in this area, our PL-400 prepare torrents are in concord with syllabus of the exam. They are professional backup to this fraught exam. So by using our PL-400 Exam torrents made by excellent experts, the learning process can be speeded up to one week. They have taken the different situation of customers into consideration and designed practical PL-400 test braindumps for helping customers save time. As elites in this area they are far more proficient than normal practice materials' editors, you can trust them totally.

Microsoft PL-400, also known as the Microsoft Power Platform Developer certification exam, is designed to validate the skills and knowledge required to develop and customize Microsoft Power Platform solutions. Microsoft Power Platform Developer certification exam is intended for individuals who have experience in developing solutions for Microsoft Power Platform, including model-driven, canvas, and portal applications. PL-400 Exam covers various topics, including creating and managing data models, designing and developing user interfaces, and integrating Power Platform with other services and systems.

### Microsoft Power Platform Developer Sample Questions (Q85-Q90):

#### NEW QUESTION # 85

You need to select a process to create each function.

Which process should you use? To answer, drag the appropriate processes to the correct functions. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Processes	Function	Process
Power Automate	Create a Slack notification from a lead.	<input type="text"/>
Business rule	Change the priority field.	<input type="text"/>
Business process flow	Ensure appropriate information is added to leads	<input type="text"/>

**Answer:**

Explanation:

Processes	Function	Process
Power Automate	Create a Slack notification from a lead.	Power Automate
Business rule	Change the priority field.	Business process flow
Business process flow	Ensure appropriate information is added to leads	Business rule

#### NEW QUESTION # 86

You need to implement a reusable solution to encapsulate the parameterized Dataverse queries.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Actions**

- Create a custom process action that uses a custom workflow activity to perform the Dataverse queries.
- Define the input parameters for the Dataverse queries.
- Create a real-time workflow that uses a custom workflow activity to perform the Dataverse queries.
- Run the real-time workflow by using the Dataverse connector.
- Run the custom process action by using the Dataverse connector.

**Answer Area**

**Answer:**

**Explanation:**

**Actions**

- Create a custom process action that uses a custom workflow activity to perform the Dataverse queries.
- Define the input parameters for the Dataverse queries.
- Create a real-time workflow that uses a custom workflow activity to perform the Dataverse queries.
- Run the real-time workflow by using the Dataverse connector.
- Run the custom process action by using the Dataverse connector.

**Answer Area**

- Create a real-time workflow that uses a custom workflow activity to perform the Dataverse queries.
- Run the real-time workflow by using the Dataverse connector.
- Run the custom process action by using the Dataverse connector.

**NEW QUESTION # 87**

You need to correct the portal query issues.

Which code should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Portal issue	Code change
New registrations	GET [Organization URI]/api/data/v9.1/accounts?\$select=name, sport
	GET [Organization URI]/api/data/v9.1/accounts?\$apply=name, sport
	GET [Organization URI]/api/data/v9.1/accounts?\$filter=name, sport
All registered users	\$apply=groupby(sport ne null)
	\$filter = name, sport
	\$orderby = name, sport

**Answer:**

**Explanation:**

Portal issue	Code change
New registrations	<pre>GET [Organization URI]/api/data/v9.1/accounts?\$select=name, sport GET [Organization URI]/api/data/v9.1/accounts?\$apply=name, sport GET [Organization URI]/api/data/v9.1/accounts?\$filter=name, sport</pre>
All registered users	<pre>\$apply=groupby(sport ne null) \$filter = name, sport \$orderby = name, sport</pre>

Explanation:

Portal issue	Code change
New registrations	<pre>GET [Organization URI]/api/data/v9.1/accounts?\$select=name, sport GET [Organization URI]/api/data/v9.1/accounts?\$apply=name, sport GET [Organization URI]/api/data/v9.1/accounts?\$filter=name, sport</pre>
All registered users	<pre>\$apply=groupby(sport ne null) \$filter = name, sport \$orderby = name, sport</pre>

Scenario: The query for all registered users must return the data categorized by division. Queries must return only the Name and Sport fields. Queries return all fields. The query is as follows:

```
GET [Organization URI]/api/data/v9.1/accounts?
&$orderby=Name, sport
&$filter=sport ne null
```

Box 1: GET ..\$select=name, sport

Use select to return only the Name and Sport fields.

Box 2: \$apply(groupby(sport ne null))

Categorize by division, that is to sports.

### NEW QUESTION # 88

You need to select data types for required fields.

Which data types should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Field	Data type
Division	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Option Set  Unique Identifier  Owner </div> </div>
End date	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Duration  Date Only  Option Set </div> </div>
Tournament owner	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Lookup  Option Set  Unique Identifier </div> </div>

**Answer:**

Explanation:

Field	Data type
Division	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Option Set    Unique Identifier  Owner </div> </div>
End date	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Duration  Date Only    Option Set </div> </div>
Tournament owner	<div style="border: 1px solid black; padding: 2px;"> <div style="background-color: #e0e0e0; padding: 2px; display: flex; justify-content: space-between; align-items: center;"> <span></span> <span>▼</span> </div> <div style="border: 1px solid black; padding: 2px;"> Text  Lookup    Option Set  Unique Identifier </div> </div>

Explanation

Box 1: Option Set

Box 2: Date only

When team members create tournament records they must enter the start date for a tournament. The end date of the tournament must be automatically calculated.

Box 3: Lookup

Customer information is stored in the Accounts entity. Each tournament record must list the associated sales representative as the tournament owner.

Note: When you create a new lookup column you are creating a new Many-to-One (N:1) table relationship between the table you're working with and the Target Row Type defined for the lookup. There are additional configuration options for this relationship that are described in Create and edit relationships between tables.

But all custom lookups can only allow for a reference to a single row for a single target row type.

<https://docs.microsoft.com/en-us/powerapps/maker/data-platform/types-of-fields>

Topic 3, Contoso Pharmaceuticals

Case study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the button to return to the question.

Background

Contoso Pharmaceuticals manufactures and sells drugs to retail and wholesale pharmacies, hospitals, and research facilities.

The company plans to implement Dynamics 365 Sales and Dynamics 365 Finance.

Current environment

Contoso maintains a Microsoft Excel workbook that lists all drugs they supply.

Pharmacies submit order requests through email.

All information at customer locations is handwritten by customer representatives.

Contoso uses Cerner, which is a medical industry application that uses a proprietary database.

Some accounts are referrals from other pharmacies.

Every pharmacy has its own Dynamics 365 Sales instance.

Requirements

General

Contoso wants to ensure that there is minimal custom code and custom connectors in the system.

Accounts

Ensure that the names of the pharmacies are synced between the accounting and the customer management systems.

Account numbers should be entered automatically into the pharmaceutical system that is in a Cerner database and kept in sync.

When the account is entered into the system, extra fields must appear if the referral customer box is selected. If the box is not selected, the extra fields must not appear.

A trigger must be created that changes the Priority field to 1 in the Account record 10 days after an Account record is created.

A field named Priority\_Trigger must be created to trigger the Priority field.

A field named Facility type field must be added in order to select whether a customer is a retail pharmacy, wholesale pharmacy, research facility, or hospital.

Users

UserA must be able to create and publish Power Apps apps.

UserB must be the owner of all the systems and be able to provide permissions and create all new environments.

UserC must be able to create apps connected to the systems and update the security roles and entities.

Pharmacy representatives must only be able to run the apps and access their own records.

Access to the accounting Power Apps app must be restricted to accounting team members.

End users must have minimum access to the required systems.

Only supervisors must be able to view phone numbers in the Accounts form.

Developers must be able to create new apps for all users.

Sales users must only have access to their own records.

Reporting

Pharmacy orders must be displayed in four graphs as follows:

Annual revenue over \$100,000

Annual revenues under \$100,000

Research facilities

## Hospitals

The graphs must be interactive, and users must be able to drill down on any dimension.

## Customizations

Ensure that notifications are sent to the sales team when a lead is added by using Slack.

Ensure that leads have a review stage added to the sales process.

Doctors must be manually added to a custom entity named Doctor if the doctor is not listed.

Refill dates for customer prescriptions should be automatically determined and a notification should be sent to the customer.

Fields for the doctor's name and phone number must be displayed in the customer record.

The doctor entered on the customer's record must be validated against doctors that exist in the system.

The new solution will be sold to other pharmacies for use. The application must not allow changes to be made.

The solution must be error free so that when it is installed in other environments it does not cause issues.

A custom mobile app must be created to allow salespeople to add or search by pharmacy name.

Pharmacy records must be uniquely identified by pharmacy name, address, contact name, and phone number.

When a pharmacy is added by using the mobile app, the phone number must be validated to be all digits.

## NEW QUESTION # 89

You need to configure that the mobile app meets the requirements for phone entries.

Which expression should you use?

- A. IsNumeric
- B. IsMatch
- C. PlainText
- D. IsType

**Answer: A**

Explanation:

When a pharmacy is added by using the mobile app, the phone number must be validated to be all digits.

Note: The IsNumeric function tests whether a value is numeric. Other kinds of values include Boolean, string, table, and record.

The return value is a Boolean true or false.
