Oracle Fusion Cloud Financials: Payables and Expenses 2025 Implementation Professional Sample Questions (Q44-Q49):

NEW QUESTION # 44

Your Company is considering using BI publisher to create additional reports. They want to know about the various features and benefits of this tool.

Which are two benefits of BI publisher customize feature?

- A. Report output is sent to an e-commerce site
- **B. A backup copy of the report is automatically saved in my folders**
- C. You do not need any special roles to access this feature
- D. Writing code is not required
- **E. Patches do not override report customizations**

Answer: B,E

NEW QUESTION # 45

You implemented the service provider model for Payables payments, where your United Kingdom (UK) headquarters works solely as an outsourced payment processing unit on behalf of your other UK business units.

What is this type of payment service provider model known as?

- **A. Dedicated**
- B. Self-Service
- C. Dedicated and Self-Service
- D. Procurement

Answer: A

NEW QUESTION # 46

You are an Expenses Manager at a large company and need to address complaints from your corporate card provider about delayed transaction payments incurred by former employees who are now inactive. To ensure timely and efficient processing of valid business charges posted to an inactive employee's corporate credit card, you can run the following two processes: Upload Corporate Card Transactions and Process Corporate Card Transactions for Inactive Employees.

Which two are capabilities included in these processes?

- A. Outstanding Cash Advances
- B. Individual Pay Liability
- **C. Grace Period**
- **D. Employee Termination Date**

Answer: C,D

Explanation:

Comprehensive and Detailed In-Depth

In Oracle Financials Cloud, managing corporate card transactions for inactive employees is crucial to maintain timely payments and avoid disputes with card providers. The processes Upload Corporate Card Transactions and Process Corporate Card Transactions for Inactive Employees are designed to handle such scenarios effectively.

Key Capabilities of These Processes:

Employee Termination Date (Option A):

Role in Processing: The system identifies inactive employees based on their termination or inactive status. When the Process Corporate Card Transactions for Inactive Employees process is executed, it scans for employees whose status has changed to inactive (e.g., due to termination or unpaid leave) and identifies any outstanding corporate card transactions associated with them.

Reference:

Grace Period (Option D):

Role in Processing: A grace period can be configured to allow the system to process transactions that are posted after an employee's termination date. This ensures that any legitimate business expenses incurred shortly before termination are not overlooked. The default grace period is set to 0 days but can be adjusted as needed.

Configuration Path: To modify the grace period, navigate to the Manage Expenses System Options page:

In the Setup and Maintenance work area, select:

Offering: Financials

Functional Area: Expenses

Task: Manage Expenses System Options

Options Not Included:

Outstanding Cash Advances (Option B):

This pertains to any cash amounts advanced to employees that have not yet been reconciled. The processes in question focus on corporate card transactions and do not directly address outstanding cash advances.

Individual Pay Liability (Option C):

This refers to scenarios where employees are responsible for paying their corporate card bills directly (Individual Pay). The processes mentioned are designed to handle transactions for inactive employees, regardless of the payment liability setup (Individual Pay, Company Pay, or Both Pay).

By utilizing these processes and configuring the grace period appropriately, companies can ensure that all valid business expenses incurred by inactive employees are processed efficiently, thereby maintaining good standing with corporate card providers and ensuring accurate financial reporting.

How Corporate Card Transactions for Inactive Employees Are Processed

NEW QUESTION # 47

Your company asks you to build new Payables reports. You will be using Oracle Transactional Business Intelligence (OTBI) and deep links. Deep links allow you to directly drill down from OTBI reports to purchase orders and view the related purchase order details. Which three predefined job roles allow you to use this drill-down feature?

- A. Accounts Payable Agent
- B. Account Payable Invoice Supervisor
- C. Accounts Payable Manager
- D. Accounts Payable Specialist
- E. Accounts Payable Analyst

Answer: C,D,E

Explanation:

Comprehensive and Detailed In-Depth

In Oracle Financials Cloud, Oracle Transactional Business Intelligence (OTBI) provides robust reporting capabilities, including the use of deep links that enable users to drill down from summary reports into detailed transactional data, such as purchase orders.

Access to these drill-down features is governed by specific job roles that encompass the necessary privileges.

Predefined Job Roles with Drill-Down Capabilities:

Accounts Payable Analyst (Option A):

Role Overview: This role is primarily focused on analyzing payables data, including the ability to access and drill down into detailed transactions to support financial analysis and reporting.

Privileges: Includes access to OTBI reports and the capability to drill down into transactional details such as invoices and payments.

Reference:

Accounts Payable Manager (Option B):

Role Overview: This managerial role oversees the entire accounts payable process, ensuring efficient operations and compliance. The role requires comprehensive access to payables data, including the ability to drill down into specific transactions for oversight and decision-making.

Privileges: Grants access to manage and review payables transactions, with drill-down capabilities into invoices, payments, and related purchase orders.

Accounts Payable Specialist (Option E):

Role Overview: This role is responsible for the day-to-day processing of accounts payable transactions, including invoice entry and payment processing. Access to detailed transaction data is essential for resolving issues and ensuring accuracy.

Privileges: Provides the ability to view and process payables transactions, with drill-down access to detailed information such as purchase order details linked to invoices.

NEW QUESTION # 48

Your company wants to maximize early payment discount opportunities and will be using the "Campaign Management for Early Payment Discount Offers" feature, which allows them to on board suppliers into an early payment discounts program via email-based campaigns. Suppliers can respond directly from email and their responses are automatically processed and applied in payment process requests.

Which three response options are available to suppliers when replying to a campaign

- A. Accept All Offers
- B. Enroll in a standing offer.
- C. Reject the Offer
- D. Subscribe
- E. Unsubscribe
- F. Decline the Offer

Answer: B,E,F

NEW QUESTION # 49

.....
