ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q40-Q45):

NEW QUESTION # 40
A project expense line is cost associated with a specific source, except for:

- A. Fixed Assets.
- B. Program.
- C. Software.

- D. Resource.

Answer: B

Explanation:
Explanation
According to the Project Expense Lines document, a project expense line is cost associated with a specific source, such as fixed assets, resource, or software. The program field on the project expense line form is not a source of cost, but a reference to the program that the project belongs to. Therefore, the correct answer is B.
Program. The other options are not correct, as they are sources of cost for a project expense line.

NEW QUESTION # 41
Depending on the execution type selected for a particular project, one of these dashboards will also be available:

- A. Timecard Dashboard
- B. PMO Dashboard
- C. Project Summary - Waterfall Dashboard
- D. User Manager Dashboard

Answer: C

Explanation:
Explanation
According to the Project Summary - Waterfall Dashboard document, depending on the execution type selected for a particular project, the Project Summary - Waterfall Dashboard will also be available. This dashboard provides a comprehensive view of the project status, progress, and performance using various widgets. The other options are not correct, as they are not dashboards that are dependent on the execution type of the project. The Timecard Dashboard is a dashboard that displays the time worked by users on various tasks. The User Manager Dashboard is a dashboard that displays the user management activities and statistics. The PMO Dashboard is a dashboard that displays the portfolio and project performance and health.

NEW QUESTION # 42
When creating a project from demand, what related records are moved and copied upon Project Creation?

- A. Resource Plan and Change Requests.
- B. Cost Plan and Assessment.
- C. Resource Plan and Cost Plan.
- D. Idea and Demand.

Answer: C

Explanation:
Explanation
According to the Create a customer project from a demand document, when creating a project from demand, the resource plan and the cost plan are moved and copied upon project creation. The resource plan defines the resources required for the project, and the cost plan defines the estimated and actual costs for the project. The other options are not correct, as they are not related records that are moved and copied upon project creation.
The change requests, the idea, and the demand are not moved or copied to the project, but they are linked to the project as references. The assessment is not a record that is associated with the project, but with the demand.

NEW QUESTION # 43
Which plugin activates the Ideas module to gather and evaluate ideas efficiently, and quickly identify ideas for implementation?

- A. Resource Management
- B. Agile Development 2.0
- C. Test Management 2.0
- D. Ideation with PPM

Answer: D

Explanation:

According to the Innovation Management document, the plugin that activates the Ideas module to gather and evaluate ideas efficiently, and quickly identify ideas for implementation is Ideation with PPM. This plugin enables the Innovation Management application, which allows organizations and employees to collect, vote on, manage, and collaborate on ideas from a centralized location. The other options are not correct, as they are not plugins that activate the Ideas module. Test Management 2.0 is a plugin that enables the Test Management 2.0 application, which allows users to create, plan, and execute tests. Agile Development 2.0 is a plugin that enables the Agile Development 2.0 application, which allows users to manage scrum or development work throughout the lifecycle. Resource Management is a plugin that enables the Resource Management application, which allows users to manage resource plans and allocations.

NEW QUESTION # 44

The Project management application supports two types of external dependencies. What are they?
Choose 2 answers

- A. Hard Dependency.
- B. Soft Dependency.
- C. Task Dependency.
- D. Milestone Dependency.
- E. Change Dependency.

Answer: A,B

Explanation:
Explanation
The Project Management application supports two types of external dependencies: hard dependency and soft dependency. A hard dependency is a dependency that must be met before a task can start or finish. A soft dependency is a dependency that is preferred but not mandatory for a task to start or finish. You can find more information about these dependency types in the Product Documentation for ServiceNow.

NEW QUESTION # 45

......
