

The Best 100% Free M2–100% Free Reliable Exam Guide | Reliable M2 Test Materials

Our M2 real dumps has received popular acceptance worldwide with tens of thousands of regular exam candidates who trust our proficiency. Up to now, the passing rate is 98 to 100 percent. What made our M2 study guide so amazing? The answer that we only supply the latest and valid M2 Exam Braindumps for our customers and first-class after-sales services come after the first-class M2 learning engine. We're also widely praised by our perfect services.

Our M2 study materials can provide you with multiple modes of experience, there are three main modes to choose from: PDF, Software and Online. Firstly, the PDF version is printable. Secondly, the Software version of M2 exam questions can simulate the real exam environment to give you exam experience more vividly. Thirdly, the online version supports all web browsers so that it can be worked on all the operating systems. And our M2 Study Materials will help you in a more relaxed learning atmosphere to pass the M2 exam.

Reliable M2 Test Materials | M2 Cert

Our latest M2 exam dump is comprehensive, covering all the learning content you need to pass the qualifying exams. Users with qualifying exams can easily access our web site, get their favorite latest M2 study guide, and before downloading the data, users can also make a free demo for an accurate choice. Users can easily pass the exam by learning our M2 practice materials, and can learn some new knowledge, is the so-called live to learn old. Believe in yourself, choosing the M2 Study Guide is the wisest decision. So far, the M2 practice materials have almost covered all the official test of useful materials, before our products on the Internet, all the study materials are subject to rigorous expert review, so you do not have to worry about quality problems of our latest M2 exam dump, focus on the review pass the qualification exam. I believe that through these careful preparation, you will be able to pass the exam.

International Code Council Commercial Mechanical Inspector Sample Questions (Q34-Q39):

NEW QUESTION # 34

What is the minimum air velocity that must be provided by an exhaust duct system serving a Type I range hood?

- A. 500 FPM
- B. 2,500 FPM
- **C. 1,500 FPM**
- D. 500 CFM

Answer: C

Explanation:

For commercial kitchen exhaust associated with Type I hood systems, the recognized code-based minimum duct transport velocity is 1,500 feet per minute, so C is the correct answer. Option B uses the wrong unit, and the other listed velocities do not match the code minimum used for this question type.

NEW QUESTION # 35

Given: Fabricated of type 430 stainless steel.

APPLICATION: Low proximity, low CFM requirements. Designed for use with cooking equipment with surface temperatures ranging from 450 – 700 degrees. Optional rear plenum provides up to 90 percent make-up air. Product requires minimal kitchen space.

DESIGN FEATURES AND ADVANTAGES

- UL Listed for use over 450° and 700° F cooking surface temperatures. UL Listed to Canadian safety standards, NSF Listed, and built in accordance with NFPA 96 as required by ICC
- Up to 80% make-up air supplied through optional rear air plenum
- Separate fire gas chamber not required
- Stainless steel construction with double wall, insulated front panel
- Aluminum filters with optional stainless steel or high velocity cartridge filters (model ABC)
- Factory pre-wired lighting for illumination of cooking surface
- 30" minimum width
- Integral stainless steel double-end panels provided to maximize hood performance and eliminate effects of cross draft
- Optional UL Listed light and fan control switches, pre-wired and flush mounted through built-in electrical chaseway
- Optional integral clearance reduction system meet requirements of NFPA 96
- Optional UL Listed exhaust fire damper (model AB-100)

GENERAL SPECIFICATIONS

- Fabricated of Type 430 stainless steel #8 or #4 polish, on all exposed surfaces, optional Type 304 stainless steel available
- Fitted with 12" high, UL Classified, baffle-type aluminum filters, removable for cleaning
- An 1/8 inch per foot minimum sloped grease trough with removal 1/2 pint cup to drain grease
- Pre-punched hanging angles on each end of hood
- End panels are sloped from lower front edge to bottom back for 450° F cooking surfaces; full ends for 700° F

PERFORMANCE DATA

Hood Model Type	Cooking Surfaces	Max Avg. Cooking Surface Temp (°F) Filter Type	Min. Exhaust CFM/Ft	Suggested Supply CFM/Ft via Optional Back Supply Plenum
AB AB-100	Gas Charbroilers Electric Charbroilers Mesquite Grills	700° with standard baffle filter	200	160
ABC ABC-100	Charcoal Charbroilers Gas Conveyor Charbroilers	700° with high velocity cartridge filter	180	144
AB AB-100	Ovens Steamers Kettles	450° with standard baffle filter	150	135
ABC ABC-100	Open-Burner Ranges Griddles Fryers	125	112	

Optional type _____ stainless steel is available.

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

Based on the specification sheet shown in the exhibit, the hood is fabricated of Type 430 stainless steel , and the optional stainless steel listed is Type 304 . Therefore, the correct answer is C .

NEW QUESTION # 36

For the installation of listed fuel-burning appliances, the required clearances should be found:

- A. on the approved plans and specifications for the building.
- B. in the mechanical code.
- C. on the nameplate of the appliance.
- D. by using a calculation based on the Btu/h output rating of the appliance.

Answer: C

Explanation:

The IMC requires fuel-burning units to be marked with the hourly rating, approved fuel type, and required clearances . That means the appliance marking/nameplate is the direct source for the required clearance information for listed fuel-burning appliances. This is why B is the correct answer.

NEW QUESTION # 37

Why are two or more sets of construction documents, engineering calculations, diagrams, and other data required to be submitted with each application for a permit?

- A. One set will be retained by the code official, and the other will be returned to the applicant and kept on the job site for reference while construction is in progress.
- B. All sets of documents are to be kept by the code official, and at least one set will serve as a backup set of documents in case the other is lost or misplaced.
- C. All sets are to be retained by the code official in order to have a spare set of construction documents for use by any subcontractors.
- D. To ensure that the project is completed in a timely manner.

Answer: A

Explanation:

The ICC administrative provisions require construction documents to be submitted in two or more sets with the permit application. After approval, one set is retained by the code official and one set is returned to the applicant to be kept on the job site during construction. That is exactly the condition described in Option D .

The code does not state that all sets are retained by the code official or that the purpose is to provide subcontractor copies or backup copies.

NEW QUESTION # 38

Unless listed for a greater or smaller dimension, mechanical draft venting systems shall terminate a minimum of _____ feet below an operable window.

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

For mechanical draft venting systems, unless the appliance is listed for a different clearance, the vent terminal must be located not less than 4 feet below , 4 feet horizontally from , or 1 foot above any door, operable window, or gravity air inlet into a building. Therefore, the required minimum distance below an operable window is 4 feet , so Option B is correct.

NEW QUESTION # 39

.....

We have the free demo for M2 Training Materials, and you can practice the free demo in our website, and you will know the mode of the complete version. All versions for the M2 training materials have free demo. If you want the complete version for M2 exam dumps, you just need to add it to your shopping cart, and pay for it, you will get the downloading link and the password in ten minutes. If any problem in this process, you can tell us the detailed information, our service staff will solve the problem for you.
