## SAP C\_BCFIN\_2502 Realistic New Test Review Pass Guaranteed Quiz

Luckily, we are going to tell you a good new that the demo of the C\_BCFIN\_2502 study materials are easily available in our company. If you buy the study materials from our company, we are glad to offer you with the best demo of our study materials. You will have a deep understanding of the C\_BCFIN\_2502 Study Materials from our company, and then you will find that the study materials from our company will very useful and suitable for you to prepare for you C\_BCFIN\_2502 exam.

## SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q36-Q41):

### NEW QUESTION # 36

Which processes does SAP Global Trade Services most closely support?

Note: There are 2 correct answers to this question.

- A. Production
- B. Marketing
- C. Purchasing
- D. Sales

**Answer: C,D**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP Global Trade Services (GTS) is an essential component of the finance and risk landscape, specifically designed to manage the complexities of international trade. It is most closely integrated with the Sales and Purchasing processes. In the Purchasing (Procurement) process, GTS ensures that goods being imported meet all regulatory requirements, checks for sanctioned suppliers, and calculates the appropriate customs duties to be included in the landed cost.

In the Sales (Order-to-Cash) process, GTS performs critical "Sanctioned Party Screening" to ensure that the company is not selling to prohibited individuals or entities. It also manages export licenses and ensures that the goods being shipped comply with the export laws of the origin country and the import laws of the destination. If a violation is detected during either the Sales or Purchasing cycle, GTS can automatically place a "block" on the transaction in the SAP S/4HANA core, preventing further processing until the issue is resolved. This tight integration ensures that trade compliance is not a bottleneck but a real-time safeguard embedded into the supply chain and financial workflows. Marketing and Production, while related to the business, do not typically trigger the cross-border legal and financial compliance checks that define the core function of SAP GTS.

#### NEW QUESTION # 37

What are the primary advantages of the Invoice-to-Pay (I2P) process within SAP S/4HANA Finance?

- A. It aims to enhance working capital management through managing outgoing invoicing and customer.
- **B. It works across Accounts Payable, Payment Management, and Supplier Management to streamline operation.**
- C. It automates manual tasks related to accounts receivable and financial reconciliation.
- D. It enhances procurement through standalone systems, independent of accounts payable operation.

**Answer: B**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The Invoice-to-Pay (I2P) process in SAP S/4HANA Finance is a critical component of the "Expenditure Management" lifecycle. Its primary advantage is its holistic integration; it works across Accounts Payable, Payment Management, and Supplier Management to create a seamless, end-to-end workflow. Unlike legacy environments where these functions are disconnected, SAP provides a unified platform where an invoice is automatically matched against purchase orders and receipts (3-way match), verified for compliance, and scheduled for payment based on optimized cash flow strategies.

By streamlining these operations, I2P reduces the "cost per invoice" and ensures that the company can take advantage of early-payment discounts, which directly impacts the bottom line. Furthermore, it incorporates Supplier Management to ensure that vendor data is accurate and that payments are sent to validated accounts, reducing the risk of payment fraud. This integrated approach provides the CFO with complete visibility into upcoming liabilities and cash requirements. Option B describes the "Invoice-to-Cash" (Accounts Receivable) process, and Option A describes a siloed approach which is the opposite of SAP's value proposition of an "Integrated Digital Core." Therefore, the strength of the SAP I2P process lies in its ability to harmonize all aspects of the outgoing payment cycle into a single, automated, and secure operation.

#### NEW QUESTION # 38

Which of the following is a key feature of SAP Business One?

- A. Limited scalability
- B. Manual reconciliation
- **C. Real-time data processing**
- D. Batch-based reporting

**Answer: C**
