So as long as you contact us to ask for the questions on the Field-Service-Consultant learning guide, you will get the guidance immediately.

Salesforce Certified Field Service Consultant Sample Questions (Q32-Q37):

NEW QUESTION # 32

Service technicians at AW Computing use the Field Service mobile application when in the field. The technicians rely on Knowledge articles to assist them with completing assigned work.

How should the solution be configured to ensure technicians can access relevant Knowledge articles?

- A. Update the Service Appointment page layout to include the Articles related list.
- **B. Attach the relevant articles to the work order or work order line items.**
- C. Add the Knowledge Lightning component to the Field Service mobile app.
- D. Create a quick action on the work order to search the Knowledge base.

Answer: B

Explanation:

Attaching relevant articles to the work order or work order line items allows technicians to access them offline using the Field Service Mobile App. Creating a quick action on the work order to search the Knowledge base would not ensure offline access, as it would require an internet connection to perform the search. Updating the Service Appointment page layout to include the Articles related list or adding the Knowledge Lightning component to the Field Service Mobile App would not be effective, as technicians use the Work Order Line Item Card in the Field Service Mobile App to view their assigned tasks. References: https://help.salesforce.com/s/articleView?id=sf.fs_mobile_app_overview.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.fs_work_order_line_item_card.htm&type=5

NEW QUESTION # 33

Universal Containers has external resources who only report back once a Service Appointment has been completed. All Internal resources need to report incremental progress on Service Appointments. How should a Consultant recommend implementing statuses to support these different user groups?

- A. Block Status Transitions using a Validation Rule.
- B. Configure Status Transitions based on Resource Type.
- C. Allow Status Transitions based on Role.
- **D. Limit Status Transition based on Profile.**

Answer: D

NEW QUESTION # 34

Which object can be used to share Service Appointments with Service Resources in Salesforce Field Service?

- A. Service Territory Member
- **B. Service Territory**
- C. User Territory
- D. Work Order

Answer: B

Explanation:

This object can be used to share service appointments with service resources in Salesforce Field Service by assigning service resources to service territories and assigning service appointments to the same service territories.

NEW QUESTION # 35

Which two considerations impact the scheduled timeframe of Multi-day Work?

Choose 2? answers

- A. Resource Skill Level
- B. Homebase Travel
- C. Assigned Resource
- D. Break Duration

Answer: C,D

Explanation:

These two considerations impact the scheduled timeframe of multi-day work, as they affect the availability and capacity of the resource assigned to the work. References:https://help.salesforce.com/s/articleView?id=sf_fs_multi_day_work.htm&type=5

NEW QUESTION # 36

A mobile technician uses parts present in their van to complete an on-site customer installation. The technician has marked the service appointment and work order as completed. They want to record the parts used in completing the job and adjust their van stock.

Where should the technician record this information?

- A. The Product Request Line Item associated with the Product
- B. **The Products Consumed section on the Work Order**
- C. The Work Order Line Item associated with the completed Work Order
- D. The Product Item Transactions Related List on the Product Item

Answer: B

Explanation:

Explanation

The Products Consumed section on the Work Order allows the technician to record the products used and adjust the inventory levels of their van stock. The Product Item Transactions Related List on the Product Item shows the history of product movements, but does not allow recording new transactions. The Work Order Line Item associated with the completed Work Order shows the products required, but not the products used. The Product Request Line Item associated with the Product shows the products requested, but not the products consumed. References: https://help.salesforce.com/s/articleView?id=sf_fs_products_consumed.htm&type=5

https://help.salesforce.com/s/articleView?id=sf_fs_product_item_transactions.htm&type=5

https://help.salesforce.com/s/articleView?id=sf_fs_work_order_line_items.htm&type=5

https://help.salesforce.com/s/articleView?id=sf_fs_product_request_line_items.htm&type=5

NEW QUESTION # 37

.....

The Field-Service-Consultant test materials are mainly through three learning modes, Pdf, Online and software respectively. The Field-Service-Consultant test materials have a biggest advantage that is different from some online learning platform which has using terminal number limitation, the Field-Service-Consultant quiz torrent can meet the client to log in to learn more, at the same time, the user can be conducted on multiple computers online learning, greatly reducing the time, and people can use the machine online of Field-Service-Consultant Test Prep more conveniently at the same time.
