

# Marvelous DP-203 Free Sample Questions & Passing DP-203 Exam is No More a Challenging Task

2026 Latest ActualTestsQuiz DP-203 PDF Dumps and DP-203 Exam Engine Free Share: <https://drive.google.com/open?id=14JCJeUjzJd2UnaqPSU7pwmqVxqVL-XcmE>

Online test version is the best choice for IT person who want to feel the atmosphere of Microsoft real exam. And you can practice latest DP-203 exam questions on any electronic equipment without any limit. Besides, there is no need to install any security software because our DP-203 Vce File is safe, you just need to click the file and enter into your password.

Many users report to us that they are very fond of writing their own notes while they are learning. This will enhance their memory and make it easier to review. Our DP-203 exam questions have created a PDF version of the DP-203 practice material to meet the needs of this group of users. You can print the PDF version of the DP-203 learning guide so that you can carry it with you. As long as you have time, you can take it out to read and write your own experience.

## Quiz Microsoft - DP-203 - Useful Data Engineering on Microsoft Azure Free Sample Questions

Passing the DP-203 certification can prove that you boost both the practical abilities and the knowledge and if you buy our DP-203 latest question you will pass the exam smoothly. Our DP-203 exam torrent is compiled elaborately and we provide free download and tryout before your purchase. We provide free update and the old client can enjoy the discount. We protect the client's privacy and the purchase procedure on our website is safe and our DP-203 Guide questions boost no virus. We provide 24 hours online customer service and if you couldn't pass the exam we will refund you in full immediately.

The DP-203 exam is an essential certification for data engineers who want to demonstrate their expertise in designing and implementing data solutions on Microsoft Azure. DP-203 exam is designed to validate the skills of candidates in developing and implementing data pipelines, performing data transformation and integration, and implementing data storage solutions on Azure. Passing DP-203 Exam also demonstrates that the candidate has an in-depth understanding of Azure data services and can design solutions that meet the business requirements of their organization.

## Microsoft Data Engineering on Microsoft Azure Sample Questions (Q132-Q137):

### NEW QUESTION # 132

You are planning the deployment of Azure Data Lake Storage Gen2.

You have the following two reports that will access the data lake:

\* Report1: Reads three columns from a file that contains 50 columns.

\* Report2: Queries a single record based on a timestamp.

You need to recommend in which format to store the data in the data lake to support the reports. The solution must minimize read times.

What should you recommend for each report? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Report1: CSV

CSV: The destination writes records as delimited data.

Report2: AVRO

AVRO supports timestamps.

Not Parquet, TSV: Not options for Azure Data Lake Storage Gen2.

**NEW QUESTION # 133**

You are designing a solution that will copy Parquet files stored in an Azure Blob storage account to an Azure Data Lake Storage Gen2 account.

The data will be loaded daily to the data lake and will use a folder structure of 2026/{Month}/{Day}/.

You need to design a daily Azure Data Factory data load to minimize the data transfer between the two accounts.

Which two configurations should you include in the design? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Delete the source files after they are copied.
- B. Specify a file naming pattern for the destination.
- C. Filter by the last modified date of the source files.
- D. Delete the files in the destination before loading new data.

**Answer: A,C**

Explanation:

<https://docs.microsoft.com/en-us/azure/data-factory/connector-azure-data-lake-storage>

**NEW QUESTION # 134**

You have an Azure Stream Analytics job that is a Stream Analytics project solution in Microsoft Visual Studio. The job accepts data generated by IoT devices in the JSON format.

You need to modify the job to accept data generated by the IoT devices in the Protobuf format.

Which three actions should you perform from Visual Studio on sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure/stream-analytics/custom-deserializer>

**NEW QUESTION # 135**

You have an enterprise data warehouse in Azure Synapse Analytics.

Using PolyBase, you create an external table named [Ext].[Items] to query Parquet files stored in Azure Data Lake Storage Gen2 without importing the data to the data warehouse.

The external table has three columns.

You discover that the Parquet files have a fourth column named ItemID.

Which command should you run to add the ItemID column to the external table?

- A. Option D
