NEW QUESTION # 71

An Admin wants to set up a product so a user can all available options and selected options by scrolling in a single page. Which updates should the Admin make to meet this requirement

- A. Update option layout on the parent Product record to Sections.
- B. Create Features related to the parent Product and assign each Feature the Option Selection method Dynamic
- C. Create feature to the parent product and assign all Option to one of the created features.
- D. Update Option Layout on the parent Product record to Wizard.

Answer: A

Explanation:

Requirement:

* Users must view and select product options by scrolling on a single page.

Solution Details:

* Setting the Option Layout to Sections groups options into expandable/collapsible sections.

* This creates a scrollable view without navigating multiple pages.

Steps to Update:

* Go to the parent Product Record.

* Update the Option Layout field to Sections.

Validation: Test the configuration in the Quote Line Editor. Options should now appear grouped by sections.
