ASIS Physical Security Professional Exam Sample Questions (Q143-Q148):

NEW QUESTION # 143
A security supervisor should do which of the following to reinforce training and understanding of the post orders with security officers?

- A. Check the training records
- B. Let the officer read the order and then write a report on it
- C. Ask one or more specific questions about the order
- D. Review the log book entries

Answer: C

Explanation:
Asking targeted questions about post orders helps supervisors verify that security officers understand their duties. It encourages engagement, promotes accountability, and reinforces learning through direct interaction.
A (Checking training records) shows completion but not understanding.
B (Logbook review) focuses on past actions, not comprehension.
D (Written report) may test literacy more than actual understanding.

NEW QUESTION # 147
The primary functions of a physical protection system are:

- A. Detection, delay, and response
- B. Deterrence, detection, and response
- C. Delay, response, and deterrence
- D. Prevention, detection, and response

Answer: A

Explanation:
Comprehensive Detailed Explanation:
The three primary and sequential functions of a Physical Protection System (PPS) are:
Detection - identifying unauthorized activity.
Delay - slowing intruder progress.
Response - intervening before asset compromise.
This layered approach ensures an opportunity to detect and intercept threats before they succeed.
A and D include "deterrence" or "prevention," which are security goals but not primary PPS functions.
C lists valid concepts but omits the critical detection phase.
