ITIL 4 Foundation Exam Sample Questions (Q110-Q115):

NEW QUESTION # 110

What is described by the service value system?

- A. How all the components and activities of the organization work together as a system to enable value creation
- B. Joint activities performed by a service provider and a service consumer to ensure continual value co-creation
- C. How to apply the systems approach of the guiding principle think and work holistically
- D. Services based on one or more products, designed to address needs of a target consumer group

Answer: A

NEW QUESTION # 111

A service will be unavailable for the next two hours for unplanned maintenance. Which practice is MOST LIKELY to be involved in managing this?

- A. Service Request management
- B. Change enablement
- **C. Incident management**
- D. Service request management

Answer: C

Explanation:

Incident management is typically closely aligned with the service desk, which is the single point of contact for all users communicating with IT. When a service is disrupted or fails to deliver the promised performance during normal service hours, it is essential to restore the service to normal operation as quickly as possible.
