Ace Your Exam with Exam4Free Palo Alto Networks NetSec-Pro Desktop Practice Test Software

P.S. Free 2026 Palo Alto Networks NetSec-Pro dumps are available on Google Drive shared by Exam4Free:
https://drive.google.com/open?id=1bMx8nWOrNd5qH3irJ1GHloq6mac1D4AI

Exam4Free offers authentic NetSec-Pro questions with accurate answers in their Palo Alto Networks Network Security Professional Exam practice questions file. These exam questions are designed to enhance your understanding of the concepts and improve your knowledge of the NetSec-Pro Quiz dumps. By using these questions, you can identify your weak areas and focus on them, there by strengthening your preparation for the Palo Alto Networks Network Security Professional (NetSec-Pro) Exam.

Palo Alto Networks NetSec-Pro Exam Syllabus Topics:

Topic	Details
Topic 1	• GFW and SASE Solution Maintenance and Configuration: This domain evaluates the skills of network security administrators in maintaining and configuring Palo Alto Networks hardware firewalls, VM-Series, CN-Series, and Cloud NGFWs. It includes managing security policies, profiles, updates, and upgrades. It also covers adding, configuring, and maintaining Prisma SD-WAN including initial setup, pathing, monitoring, and logging. Maintaining and configuring Prisma Access with security policies, profiles, updates, upgrades, and monitoring is also assessed.
Topic 2	• Infrastructure Management and CDSS: This section tests the abilities of security operations specialists and infrastructure managers in maintaining and configuring Cloud-Delivered Security Services (CDSS) including security policies, profiles, and updates. It includes managing IoT security with device IDs and monitoring, as well as Enterprise Data Loss Prevention and SaaS Security focusing on data encryption, access control, and logging. It also covers maintenance and configuration of Strata Cloud Manager and Panorama for network security environments including supported products, device addition, reporting, and configuration management.

Topic 3	• NGFW and SASE Solution Functionality: This part assesses the knowledge of firewall administrators and network architects on the functions of various Palo Alto Networks firewalls including Cloud NGFWs, PA-Series, CN-Series, and VM-Series. It covers perimeter and core security, zone security and segmentation, high availability, security and NAT policy implementation, as well as monitoring and logging. Additionally, it includes the functionality of Prisma SD-WAN with WAN optimization, path and NAT policies, zone-based firewall, and monitoring, plus Prisma Access features such as remote user and network configuration, application access, policy enforcement, and logging. It also evaluates options for managing Strata and SASE solutions through Panorama and Strata Cloud Manager.
Topic 4	• Platform Solutions, Services, and Tools: This section measures the expertise of security engineers and platform administrators in Palo Alto Networks NGFW and Prisma SASE products. It involves creating security and NAT policies, configuring Cloud-Delivered Security Services (CDSS) such as security profiles, User-ID and App-ID, decryption, and monitoring. It also covers the application of CDSS for IoT security, Enterprise Data Loss Prevention, SaaS Security, SD-WAN, GlobalProtect, Advanced WildFire, Threat Prevention, URL Filtering, and DNS security. Furthermore, it includes aligning AIOps with best practices through administration, dashboards, and Best Practice Assessments.

Palo Alto Networks NetSec-Pro Actual Exam Dumps | NetSec-Pro Best Vce

If you want to buy our NetSec-Pro training engine, you must ensure that you have credit card. We do not support deposit card and debit card to pay for the NetSec-Pro exam questions. Also, the system will deduct the relevant money. If you find that you need to pay extra money for the NetSec-Pro Study Materials, please check whether you choose extra products or there is intellectual property tax. All in all, you will receive our NetSec-Pro learning guide via email in a few minutes.

Palo Alto Networks Network Security Professional Sample Questions (Q25-Q30):

NEW QUESTION # 25
Which two SSH Proxy decryption profile settings should be configured to enhance the company's security posture? (Choose two.)

- A. Allow sessions when decryption resources are unavailable.
- B. Allow sessions with legacy SSH protocol versions.
- C. Block sessions when certificate validation fails.
- D. Block connections that use non-compliant SSH versions.

Answer: C,D

Explanation:
Blocking non-compliant SSH versions and failing certificate validation are fundamental security measures:
Block sessions when certificate validation fails
"The SSH Proxy profile should block sessions that fail certificate validation to ensure that only trusted hosts are allowed." (Source: SSH Proxy Decryption Best Practices) Block connections using non-compliant SSH versions Older SSH versions may have vulnerabilities or lack modern encryption algorithms.
"To enforce stronger security, block SSH sessions that use older or deprecated versions of the SSH protocol that do not comply with your security posture." (Source: SSH Decryption and Best Practices) Together, these measures minimize the risk of MITM attacks and secure SSH traffic.

NEW QUESTION # 26
How does Strata Logging Service help resolve ever-increasing log retention needs for a company using Prisma Access?

- A. It can scale to meet the capacity needs of new locations as business grows.
- B. Log traffic using the licensed bandwidth purchased for Prisma Access reduces overhead.
- C. It increases resilience due to decentralized collection and storage of logs.
- D. Automatic selection of physical data storage regions decreases adoption time.

Answer: A

Explanation:
TheStrata Logging Serviceofferssscalable log storageto accommodate data growth, which ensures organizations can retain logs for compliance and threat hunting as their environments expand.
"The Strata Logging Service is designed to scale dynamically to accommodate growing log retention needs, allowing enterprises to maintain comprehensive visibility as they expand their network footprint." (Source: Strata Logging Service Overview)

NEW QUESTION # 27
In a Prisma SD-WAN environment experiencing voice quality degradation, which initial action is recommended?

- A. Immediately modify path quality thresholds.
- B. Request an RMA of the ION devices.
- C. Review real-time analytics of path performance.
- D. Switch all VoIP traffic to backup paths.

Answer: C

Explanation:
Voice quality issues in SD-WAN deployments are typically linked to path performance metrics (latency, jitter, packet loss).
Reviewingreal-time analyticshelps pinpoint root causes and appropriate mitigation.
"When experiencing performance issues, the first step is to analyze real-time performance data. Prisma SD- WAN provides path quality analytics to identify degradation and ensure informed troubleshooting." (Source: Prisma SD-WAN Monitoring) This data-driven approach avoids unnecessary configuration changes.

NEW QUESTION # 28
Which firewall attribute can an engineer use to simplify rule creation and automatically adapt to changes in server roles or security posture based on log events?

- A. Predefined IP addresses
- B. Dynamic Address Groups
- C. Address objects
- D. Dynamic User Groups

Answer: B

Explanation:
Dynamic Address Groupsenable the firewall to automatically adjust security policies based on tags assigned dynamically (via log events, API, etc.). This eliminates the need for manual updates to policies when server roles or IPs change.
"Dynamic Address Groups allow you to create policies that automatically adapt to changes in the environment. These groups are populated dynamically based on tags, enabling automated security policy updates without manual intervention." (Source: Dynamic Address Groups)

NEW QUESTION # 29
Which two tools can be used to configure Cloud NGFWs for AWS? (Choose two.)

- A. Cloud service provider's management console
- B. Cortex XSIAM
- C. Prisma Cloud management console
- D. Panorama

Answer: A,D

Explanation:
Cloud NGFW for AWS can be configured usingPanoramafor centralized management, as well as theAWS management consolefor native integration and configuration.
"You can configure Cloud NGFW for AWS using Panorama for centralized security management, or directly through the AWS management console to deploy and manage security services for your AWS resources." (Source: Cloud NGFW for AWS Guide)

NEW QUESTION # 30

......

We have a special technical customer service staff to solve all kinds of consumers' problems on our NetSec-Pro exam questions. If you have questions when installing or using our NetSec-Pro practice engine, you can always contact our customer service staff via email or online consultation. They will solve your questions about NetSec-Pro Preparation materials with enthusiasm and professionalism, giving you a timely response whenever you contact them.
