

Questions for the Oracle 1z0-1104-25 Exam - 100% Money-Back Guarantee

We cannot overlook the importance of efficiency because we live in a society emphasize on it. So to get our latest 1z0-1104-25 exam torrent, just enter the purchasing website, and select your favorite version with convenient payment and you can download our latest 1z0-1104-25 exam torrent immediately within 5 minutes. This way you can avoid the problems in waiting for arrival of products and you can learn about the knowledge of 1z0-1104-25 Quiz guides in a short time. Latest 1z0-1104-25 exam torrent contains examples and diagrams to illustrate points and necessary notes under difficult points. Remember and practice what 1z0-1104-25 quiz guides contain will be enough to cope with the exam this time. Good luck.

Oracle 1z0-1104-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Implementing OS and Workload Protection: This section of the exam measures the skills of OCI Administrators and looks at securing workloads and operating systems. It includes the use of OCI Bastion for time-limited access, vulnerability scanning of hosts and containers, and the use of OS management for automated updates. The goal is to ensure that workloads remain resilient and well-protected.
Topic 2	<ul style="list-style-type: none"> Implementing Identity and Access Management (IAM): This section of the exam measures skills of OCI Administrators and focuses on identity and access controls. It covers IAM domains, users, groups, and compartments, as well as the use of IAM policies to manage access to resources. Candidates are also tested on configuring dynamic groups, network sources, and tag-based access control, along with managing MFA, sign-on policies, and activity monitoring.
Topic 3	<ul style="list-style-type: none"> Protecting Data: This section of the exam measures the skills of Cloud Security Professionals and highlights data security practices in OCI. It tests knowledge of using the Key Management Service for encryption keys, managing secrets in the OCI Vault, and applying features of OCI Data Safe to ensure sensitive data remains protected.

Valid Oracle 1z0-1104-25 Exam Online | Lab 1z0-1104-25 Questions

If you use the ActualTestsIT Oracle 1z0-1104-25 Study Materials, you can reduce the time and economic costs of the exam. It can help you to pass the exam successfully. Before you decide to buy our Oracle 1z0-1104-25 exam materials, you can download our free test questions, including the PDF version and the software version. If you need software versions please do not hesitate to obtain a copy from our customer service staff.

Oracle Cloud Infrastructure 2025 Security Professional Sample Questions

(Q22-Q27):

NEW QUESTION # 22

Based on the provided diagram, you have a group of critical compute instances in a private subnet that require vulnerability using the Oracle Cloud Infrastructure(OCI) Vulnerability Scanning Service (VSS).

What additional configuration is required to enable VSS to scan instances in the private subnet

- A. Configure a service gateway in the VCN and a route rule to direct traffic for the VSS service through the gateway.
- B. Use an OCI Bastion session to establish connectivity and forward scan results from the private instances."
- C. VSS cannot scan private instances. You need to move them to a public subnet for vulnerability scanning.
- D. No additional configuration is needed. VSS can access private instances by default.

Answer: A

NEW QUESTION # 23

A company has implemented OCI IAM policies with multiple levels of compartments. A policy attached to a parent compartment grants "manage virtual-network-family" permissions. A policy attached to a child compartment grants "use virtual-network-family" permissions.

According to OCI IAM policy inheritance, how does the OCI IAM policy engine resolve the permissions for a user attempting to perform an operation that requires 'manage' permissions in the child compartment?

- A. The policy in the parent compartment takes precedence, and the user is granted "manage" permissions.
- B. The policy in the child compartment takes precedence, and the user is granted "use" permissions only.
- C. The operation is denied due to conflicting policies.

Answer: A

NEW QUESTION # 24

"A company, ABC, is planning to launch a new web application on OCI. Based on past experiences, they expect a significant surge in traffic after the launch. You are responsible for ensuring that the application is highly available.

Which step would you perform to achieve this goal?

- A. Implement security controls, such as web application firewalls, to protect against common attack vectors.
- B. Use a Virtual Cloud Network (VCN) with subnets, security lists, and routing rules to isolate the web application from the Internet and other resources.
- C. Configure Cloud Guard to prevent large amounts of traffic from reaching the web application.
- D. Use a load balancer to distribute incoming traffic evenly across multiple instances of the web application."

Answer: D

NEW QUESTION # 25

When trying to encrypt plaintext using Command Line Interface (CLI), the developer gets a Service Error.

This is the command the developer tried to run:

What is the reason for this error?

- A. The developer has the wrong endpoint.
- B. The developer forgot to specify the region.
- C. The plaintext needs to be in JSON form.
- D. The user should pass the key version OCID instead of the key OCID.

Answer: D

NEW QUESTION # 26

An E-commerce company running on Oracle Cloud Infrastructure (OCI) wants to prevent accidental misconfigurations that could expose sensitive data. They need an OCI service that can enforce predefined security rules when creating or modifying cloud
