Quiz High Hit-Rate PMI - PMI-ACP - Reliable PMI Agile Certified Practitioner Exam Sims

There are three different PMI PMI-ACP questions format that is being provided to applicants from ITCertMagic. Anyone can download a free PMI-ACP exam dumps demo to evaluate this product before shopping. These PMI Agile Certified Practitioner (PMI-ACP) latest questions formats are PMI PMI-ACP PDF dumps format, web-based PMI Agile Certified Practitioner (PMI-ACP) practice tests, and desktop-based PMI PMI-ACP practice test software is provided to customers.

PMI Agile Certified Practitioner Sample Questions (Q475-Q480):

NEW QUESTION # 475

Unable to meet a sprint's committed velocity, an agile team approaches the agile coach to define the next sprint's velocity. What should the agile coach advise?

- A. Set the velocity to the delivered story points of the last sprint.

- B. Re-estimate by assigning more story points to smaller stories to increase the velocity.
- C. Split each story into multiple stories to meet the desired velocity.
- D. Use different estimation methods for stories and defects to meet the desired velocity.

Answer: A

NEW QUESTION # 476

What Agile planning artifact is updated minimally once a year by the Product Owner?

- A. Sprint Plan
- B. Product Roadmap
- C. Product Vision
- D. Daily Plan
- E. Release Plan

Answer: C

NEW QUESTION # 477

What is the role of the XP Coach?

- A. Defines the right product to build
- B. Ensures the product works
- C. Helps the team stay on process
- D. Determines the order to build

Answer: C

NEW QUESTION # 478

To: Team Manager
From: Agile Project Lead
Subject: Re: Initiative status as of today

Hi Team Manager,

Here is the initiative information you requested for the monthly review.

Backlog

User Story Title	Estimate in Story Points	Minimum Viable Product (MVP)? Yes / No	Status
New log-in screen	6	Yes	Complete
Save passwords	4	yes	Complete
Defect fixing – triaged top 10	8	No	Not Started
Accessibility – color blind	4	Yes	Not Started
Increase security	21	Yes	Not Started
Shopping cart	7	No	Not Started
Accept credit card payments	5	No	Not Started
Accept bank drafts	9	No	Not Started
New sort order	3	No	Not Started
Add AI chatbot	5	Yes	Not Started

MVP Remaining Story

Risk Register

#	Title	Summary	Impact
1	Defect backlog size	Significant number of known defects exist, but not all will be addressed in the MVP	Defects prioritized with product owner and top 10 defects will be addressed. Remaining defects will be prioritized in future initiative.
2	Holiday Impact	Burn for April expected to decrease due to holiday schedule	Expected reduction of 1 story point of burn for sprints 4 through 6. Then return to normal burn.
3	Regulation Changes	Proposed government regulations might be enacted which would cause rework in the project.	Team chose to watch this risk and not take action at this time. Not likely to impact MVP.
4	Team Morale	Our project team feels that their value to the company is tied to the value of the initiative they are working on.	No impact to current velocity or initiative. Will need to monitor.

Thanks,
Agile Project Lead

A project team's manager is responsible for delivering a specific initiative for the organization. They are preparing for a monthly meeting where the manager will present on the current state of this initiative. The agile project lead sends the manager the following email with the current initiative status (see Exhibit A).

At the end of which sprint will the minimum viable product (MVP) be completed?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

Step 1: Identify Remaining MVP Story Points

The backlog lists the MVP-related stories that are not yet started:

Accessibility - color blind # 4 story points

Increase security # 21 story points

Add AI chatbot # 5 story points

Total remaining MVP story points = $4 + 21 + 5 = 30$

Step 2: Consider Velocity and Sprint Progress

The risk register mentions a reduction of 1 story point per sprint from sprints 4 through 6 due to the holiday schedule.

If we assume the team's normal velocity is 10 story points per sprint (hypothetically), it would drop to 9 story points per sprint for sprints 4-6.

Step 3: Calculate Completion Sprint

If the team normally completes 10 story points per sprint, they would require approximately 3 sprints (Sprint 7, Sprint 8, and Sprint 9) to complete the remaining 30 story points.

NEW QUESTION # 479

Which best describes the attributes of the INVEST criteria in a user story?

- A. Incremental, Net, Variation, Exceed, Scope, and Training
- B. Independent, Negotiable, Valuable, Estimable, Small, and Testable
- C. Innovation, Nested, Vision, Estimating, Scalable, and Team
- D. Interdependent, Nonfunctional, Value, Exploratory, Sprint, and Timebox

Answer: B

NEW QUESTION # 480
